

## CPS Data for state by state comparison

	Approximate Total NM Population	Approximate Number of Uninsured	Approximate Percent Uninsured	Percent of Total Uninsured Population
Children 0 through 5	~ 153,000	21,000	13.7%	5.2%
Children 6 through 17	~ 350,000	67,000	19.3%	16.5%
All Children (0 through 17)	~ 503,000	88,000	17.6%	21.7%
Adults 18 through 64	~ 1,178,000	313,000	26.6%	77.3%
Adults 65 through 80+	~ 247,000	4,000	1.6%	1.0%
All Adults (18 through 80+)	~1,425,000	317,000	22.3%	78.3%
Total	~1,928,000	405,000	21%	100%

NOTE: The Current Population Survey Annual Social and Economic Supplement is an annual survey of approximately 78,000 households nationwide. Therefore, use extreme caution when making inferences when the cell sizes are small.

NOTE: Health insurance data for 2005 and 2006 were updated on April 10, 2007. Refer to the [Revised CPS ASEC Health Insurance Data](#) page for more information. The health insurance data from 2003 and 2004 were constructed for consistency with the revision to the 2005 and 2006 data. The health insurance coverage tables created should match the results from our new historical series tables HIA-1 through HIA-8.

	Approximate Total NM population *	Approximate Number of Uninsured	Approximate Percent Uninsured	Percent of Total Uninsured Population
Hispanic	765,000	176,000	23.0%	43.5%
Native American	191,000	54,000	28.3%	13.3%
White, Non-Hispanic	476,000	52,000	10.9%	12.8%
Other New Mexicans	496,000	123,000	24.8%	30.4%

\*Population counts are based off of 2000 Census Population Survey; Percent uninsured is based off of 2004 NM Household Survey

### Breakdown by Medicaid Age Cohorts and Income

Children (age 0 through 18)	Adults (age 19 through 64)	Adults (age 65 through death)
26,000 Children below 100% FPL	83,000 Adults below 100% FPL	1,000 Adults below 100% FPL
35,000 Children between 100- 200% FPL	102,000 Adults between 100-200% FPL	3,000 Adults 100% FPL and above
19,000 Children between 200-300% FPL	59,000 Adults between 200-300% FPL	
14,000 Children 300% FPL & above	63,000 Adults 300% FPL & above	
94,000 Total Uninsured Children (age 0 through 18)	307,000 Total Uninsured Adults (age 19 through 64)	4,000 Total Uninsured Adults (age 65 through death)
