</table>
| • Provide information about Centennial Care: overview, goals, accomplishments.  
• Discuss proposed improvements and reforms by identified area of focus as presented in the concept paper. | • Break after each area of focus to hear your comments on the ideas presented in that section.  
• Consider your feedback for the federal 1115 Waiver Renewal application. | • Provide Next Steps including timeframe for additional input.  
• Thank you for your time and feedback. |
Why Are We Meeting Today?

**Ideas**

Our focus is on how to improve the current program so it is more effective and efficient with better quality outcomes, yet sustainable.

**Perspective**

How will the ideas we present impact you and your community?

**Feedback**

What ideas do you have?

What else should we be thinking about?

We will take comments at the end of each area of focus during the presentation. There are note cards available, if you want to write your comments as you think of them.

Centennial Care 1.0

Key Accomplishments
2014–2016

- Built care coordination
- Increased access to LTSS
- Covered more people at a lower cost
- More services provided at home
- Administration simplified
Current Landscape

Federal/State Impacts to Consider
The future is still uncertain

We are operating under current rules and current law

Guidance from the federal government indicated that there may be changes

If rules do change, there may be components that have worked well that we will keep
New Mexico Medicaid Spending

- Total Medicaid spending is increasing, primarily due to enrollment growth.

- The FY18 general fund (GF) need for Medicaid is $947.5 million, an increase of $32.9 million from FY17. The Legislature has appropriated $915.6 million, resulting in a deficit of $31.9 million in FY 18.

Managing Cost Growth

- Healthcare cost inflation grew an average of 2.6% in 2015 and growth averaged more than 3% in 2016

- Other national studies estimate medical cost inflation (price and utilization) at 6.5%

Centennial Care Stats

- Per capita medical services cost in Centennial Care growing only 1.3%, driven primarily by pharmacy costs
- Managing cost through care coordination and other efforts
- Increases in preventive services and decreases in inpatient hospital costs
- Per person costs are lower in Centennial Care
Proposed Improvements and Reforms
Vision for the future of Centennial Care

Centennial Care 2.0 builds on successes achieved during the past four years. Improvements and reforms will ensure sustainability of the program while preserving comprehensive services.

Areas of focus

- Care coordination
- Behavioral health integration
- Long-Term Services and Supports (LTSS)
- Payment reform
- Member engagement and personal responsibility
- Administrative simplification through refinements to benefits and eligibility

Identified Opportunities

Opportunity #1: Increase care coordination at the provider level

- Transition care coordination functions from the health plans to providers ie. Tribal 638 Organizations

- Support approaches that increase use of community providers to conduct care coordination functions, such as Community Health Workers, Tribal organizations and Community Health Representatives (CHRs), school-based health centers and other community agencies
Opportunity #2: Improve transitions of care

- More help for Members during challenging care transitions:
  - Discharged from inpatient or nursing home stays, released from jails/prisons, returning home from foster care placement
- Potential changes include:
  - In-home assessments for Members who recently transitioned from a hospital or facility
  - Allow care coordination services to begin before release for Members leaving prison, jail, or juvenile detention facilities
  - Piloting wraparound services (intensive care coordination) for youth involved with the Children Youth and Families Department
Opportunities

Opportunity #3: Expand programs working with high needs populations

- Collaborate with successful community programs such as: First Responders, wellness centers, personal care agencies and Project ECHO
- More use of Certified Peer Support Workers and Certified Family Support Workers, including youth peer support specialists
- Promote use of Community Health Representatives with Tribal organizations
- Pilot a home visiting program that focuses on pre-natal care, post-partum care and early childhood services; and
- Leverage federal funding for supportive housing services

<tbody>
<tr>
<td>Promote integration of physical and behavioral health services</td>
<td>Launched Health Home Model for Members with complex behavioral health needs</td>
</tr>
<tr>
<td>Expand access to care</td>
<td>Increased number of FQHCs providing behavioral health services</td>
</tr>
<tr>
<td>Enhance Member engagement</td>
<td>Expanded access to methadone for substance use disorders</td>
</tr>
<tr>

<td>Increased tele-psychiatry services</td>
</tr>
<tr>
<td></td>
<td>Implemented Treat First model</td>
</tr>
<tr>
<td></td>
<td>Added new behavioral health services</td>
</tr>
</tbody>
</table>
Opportunity #1: Expanding Health Homes (CareLink NM)

- Expand Health Homes to additional providers in the state including Tribal 638 providers to provide intensive care coordination services through CareLink NM health homes for adults with Serious Mental Illness (SMI) or children with Severe Emotional Disturbance (SED)

- Currently, two Health Home sites provide comprehensive care coordination for members with complex behavioral health needs

- All of the care coordination is provided through a mental health provider who works closely with members’ physical health providers
Opportunity #2: Support workforce development

- Support training for both primary care and psychiatric resident physicians working in community-based practices in rural and underserved parts of New Mexico
- Focus on areas of the state where it is most difficult to attract and keep healthcare providers

</tr>
</tbody>
</table>
Opportunities

Opportunity #1: Allow for one-time start-up goods for transitions when a member transitions from agency based to self directed

- Up to $2,000 may be added to the eligible member’s annual budget to buy needed items (such as a computer and printer)

Opportunity #2: Additional caregiver respite

- Increase the current limit from 100 to 300 hours. This increase will provide eligible members with up to 30 days of respite per year
Opportunity #3: To continue to provide access to Community Benefit services for all eligible members meeting a NF LOC and establish some limits on costs for certain services

<table>

<td>$1,000</td>
</tr>
<tr>
<td>Specialized therapies such as acupuncture, chiropractic, or Native American healing</td>
<td>$2,000</td>
</tr>
</tbody>
</table>
Opportunities

Opportunity #4: Implement an automatic NF LOC approval for members whose condition is not expected to change

- MCOs would still be required to complete an annual plan of care

Opportunity #5: Partnership with nursing facilities and Project ECHO for consultation services to nursing home staff to better manage members with complex behavioral health needs

Opportunity #6: HSD will work with Tribal providers to develop their capacity to enroll as Long Term Services and Supports providers for Agency Based Community Benefits

</tr>
<tr>
<td>Manage costs to ensure sustainability of program</td>
<td>Reduced Uncompensated Care by 41% for NM hospitals</td>
</tr>
<tr>
<td></td>
<td>Implemented hospital quality initiatives as part of the Safety Net Care Pool</td>
</tr>
</tbody>
</table>
Opportunity #1: Pay for better quality and value by increasing percentage of payments that are risk-based

- Expand requirements for MCOs to shift provider payments from fee per service to paying for quality and improved outcomes.
  - Improve provider readiness
  - Identify models for behavioral health, LTSS providers and smaller volume providers
  - Reduce administrative burden and improve data sharing
Opportunity #2: Use Value Based Purchasing (VBP) to drive program goals, such as: Increase care coordination at provider level, including the use of CHRs for care coordination; improve transitions of care; increase physical and behavioral health integration; and improve member engagement.

Member Engagement and Personal Responsibility 2.0

Opportunities

Opportunity #1: Advance the Centennial Rewards Program

- Lower age to participate to 15 years old so that teens can earn rewards and bonuses
- Add mobile application technology

Opportunity #2: Allow providers to charge small fees for three or more missed appointments

- Nominal fee for missed appointments
Opportunity #3: HSD is interested in receiving proposals from a Tribal entity partnering with a MCO to deliver Centennial Care services to Native American members, i.e., Native American Managed Care Organization

- HSD is releasing an RFP 09/01/2017 to repurchase Centennial Care MCOs to provide the next iteration of Centennial Care beginning on January 1, 2019.

### Administrative Simplification

<table>
<thead>
<tr>
<th>Goals</th>
<th>Accomplishments</th>
</tr>
</thead>
<tbody>
<tr>
<td>Consolidate waiver programs to improve efficiency</td>
<td>Consolidated nine separate federal waivers into one 1115 waiver</td>
</tr>
<tr>
<td>Reduce number of MCOs and cover full spectrum of benefits under single MCO</td>
<td>Single MCO provides an integrated care model for all of its members</td>
</tr>
<tr>
<td>Prepare for expanded enrollment</td>
<td>Covered more individuals through expansion</td>
</tr>
<tr>
<td></td>
<td>Established the Native American Technical Advisory Committee (NATAC)</td>
</tr>
</tbody>
</table>
Opportunity #1: Cover most adults under one comprehensive benefit plan

- Today, HSD administers 2 different benefit packages for most adults in Medicaid—Parent/Caretaker category and Expansion Adult category

- HSD proposes to consolidate the 2 different plans under a single, comprehensive benefit package that more closely aligns with private insurance coverage

- Individuals who are determined “medically frail” may receive the standard Medicaid benefit package, which is a process that exists today
Opportunities

Opportunity #2: Develop buy-in premiums for dental and vision services for adults

- If HSD needs to eliminate optional dental and/or vision services for adults to contain costs, then it proposes to offer dental and vision riders that members may purchase from the MCOs as is standard practice with most private insurance coverage.
Opportunity #3: Eliminate the three month retroactive eligibility period for most Centennial Care members

- In CY16 only 1% of the Medicaid population requested retro coverage (10,000 individuals)

- Populations covered in FFS would be exempt from this change

- Hospital and Safety Net Clinics are able to immediately enroll individuals at point of service through Presumptive Eligibility Program and receive payment for services
Opportunities

Opportunity #4: Eliminate the Transitional Medicaid Coverage that provides an additional year of coverage to Parents/Caregivers with increased earnings that put them over the eligibility guidelines

- Since the ACA, this program has become less needed as evidenced by declining enrollment; most individuals with increased earnings move to the Adult Group.
- In 2013: 26,000 individuals in this category
  Today: fewer than 2,000 individuals
- Individuals with income above the Adult Group guidelines can receive subsidies to purchase coverage through the Exchange
Opportunities

Opportunity #5: More frequent checks of income through trusted data sources

- This was not intended to result in more frequent recertification of eligibility but only to check trusted data sources more regularly to verify income
- HSD has received numerous concerns associated with this proposed change and is no longer considering it for inclusion in the waiver renewal going forward
