	<p>experience extreme time constraints resulting in no resolution at urgent care and more time is needed to address complex health issues at regular office visits.</p> <p>Karen Cathey, International District Healthy Communities Coalition Has a son with SMI--presented a written statement that she explained was titled: "Reduction of hospital rates is one example of how budget burden will shift to uninsured patients and insured consumer rates will impact services, medical debt, and potentially shift costs to Medicaid patients."</p> <p>Bill Jordan, NM Voices for Children-Appreciates openness of meetings. Commented that there are many options for revenue that need to be addressed such as raise tobacco taxes and hold serious discussions on provider fees. Look at ways that providers could contribute.</p> <p>Abuko Estrada, NM Center on Law and Poverty-Commented that studies have been done that healthcare is a growing sector for jobs and the state needs to attract new providers. Proposed cuts in HB2 are not fiscally responsible.</p> <p>Patsy Romero, -Commented that no discussion is held for an attempt to look at minimizing administrative operations. Further commented the state needs to study centennial care carefully, should have studied healthcare system in NM.</p> <p>Kyra Ochoa and Kim Gabaldon, Los Alamos County-Commented the proposed changes will affect counties and recommended partnerships with counties which are already doing care coordination.</p> <p>Joe Martinez, Health Action NM-Commented it was great leadership when the decision was made to expand Medicaid when other states did not do that. Further commented that there should be more decisions made to generate revenue.</p> <p>Laurence Leyba, Primary care physician and Anesthesiologist-Commented that physicians will refuse to see patients or leave the state if there are poor reimbursements for primary care providers.</p> <p>J.D. Bullington, Government Relations Consultant Community Health Systems-Commented that he is in support of revenue enhancement in the form of provider assessments.</p> <p>Nancy Rodriguez, NM Alliance for School-Based Health Care-Encouraged MAC subcommittees to consider a potential compounding negative effect on safety net clinics which School Based Health Centers often are, when considering any changes, as young people will be affected by potential changes.</p> <p>Barbara Webber, Health Action NM-Commented that through wood-work effect, families are getting Medicaid coverage. Also, urged the Department to look at revenue, administrative costs, engage stakeholders, and look at social impact.</p> <p>Lisa Rossignol, Parents Reaching Out-Commented that Medicaid</p>

	<p>Expansion is helping families obtain EPSDT services, autism services and services for children with special health care needs-seeing a positive impact.</p> <p>Nick Estes, No organization listed-Commented that federal law does allow provider fees and could be designed in a way that money comes back to providers and money could be used to match and increase revenues.</p> <p>Lauren Reichelt, Rio Arriba County-Commented she appreciates Secretary Earnest's leadership and can see positive innovations such as enrolling people while in jail. Stressed Health and Human Services jobs have become an important part of the employment in Rio Arriba county. Medicaid expansion has helped bring jobs back into Rio Arriba county and wants to echo the other comments about revenue increase not provider cuts.</p> <p>Ellen Pinnes, Expressed appreciation to the Department. Has experienced cost containment several times and appreciates the Department's engagement with stakeholders and praise for the Governor who is committed to Medicaid expansion. Concerned about tax policy we need to look at raising revenue and not just cutting back. When provider rates are cut that's a tax on providers when cost sharing is imposed that is a tax on a recipient. Urge the Governor to increase revenue.</p>
