A report will be generated for tracking purposes. The field will not have to do anything with the report at this time.

   Tasks remaining in the queue prior received prior to April 1, 2020 should be processed in a case change action only, workers should not update verification factors completed by the system, however they should enter in case comments for any discrepancies that may need to be addressed at the next recertification.

   If an IR or verification is received in March, April, May or June any time after April 1, 2020 the following process will apply:

   c. Tasks will not automatically be marked as complete. Workers must process tasks as normal in a case change action to ensure case information is correct. Case changes for extended cases will not affect the certification period.
   d. Certification period override should not be used for processing any IRs that have had the certification period extended by the system.
   e. ASPEN will also update the mandatory HUMADs as received by updating the appropriate unverified data collection information as “Other Acceptable” and generate a report listing the cases and its details. Workers should not update this field for extended interim reports.

2. **SNAP and Cash Recertifications**

   Recertification applications will continue to be issued to customers. Any recertification that has not been processed by the end of the month in March, April, May and June will be automatically extended by ASPEN for 6 months. A report will be generated for tracking purposes. The field will not have to do anything with the report at this time.

   Tasks remaining in the queue prior received prior to April 1, 2020 should be evaluated for case change only, workers should not update verification factors completed by the system, however they should enter in case comments for any discrepancies that may need to be addressed at the next recertification.

   Interviews with previously scheduled appointments should still be held. Workers will call the customer at the scheduled time and inform them of the recertification approval, if the customer does not show for the interview review the recertification and update the case with any changes in case change mode.

**Medicaid Recertification (Renewal) Extensions**

The Medical Assistance Division (MAD) is implementing several temporary changes to keep individuals on Medicaid for the duration of the emergency. One of the temporary changes is a 3-month extension of Medicaid cases that are due for renewal in March, April, May or June:
   a. Individuals will automatically have their Medicaid extended 3 months if they were due to renew in March 31, 2020, April 30, 2020, May 31, 2020 or June 30, 2020.
   b. The 3-month extension is only being applied as a last resort after individuals have been evaluated for twelve-month renewals first.
   c. MAGI Medicaid categories will continue to be evaluated through the administrative renewal process, manual task creation, and issuance of the MAD 608.
   d. Non-MAGI categories will continue to be issued the ISD 122 and MAD 609 for evaluation of a twelve-month renewal.
   e. ISD may receive a renewal form for an individual who was extended 3 months. For MAGI categories if there is a change in household composition or income ISD can process as a case change and the case will be auto renewed for 12 months. MSP cases will auto renew for 12 months for the same reasons and also for asset changes. For non-MAGI cases in which a renewal form is received ISD will wait to recertify them on the three-month extension.
   f. ASPEN will automatically extend individuals 3 months at month end if the renewal process has not been completed.
   g. ASPEN will also update the mandatory HUMADs as received by updating the appropriate unverified data collection information as “Other Acceptable” and generate a report listing the cases and its details.
