Application for a §1915(c) Home and Community-Based Services Waiver

PURPOSE OF THE HCBS WAIVER PROGRAM

The Medicaid Home and Community-Based Services (HCBS) waiver program is authorized in §1915(c) of the Social Security Act. The program permits a State to furnish an array of home and community-based services that assist Medicaid beneficiaries to live in the community and avoid institutionalization. The State has broad discretion to design its waiver program to address the needs of the waiver’s target population. Waiver services complement and/or supplement the services that are available to participants through the Medicaid State plan and other federal, state and local public programs as well as the supports that families and communities provide.

The Centers for Medicare & Medicaid Services (CMS) recognizes that the design and operational features of a waiver program will vary depending on the specific needs of the target population, the resources available to the State, service delivery system structure, State goals and objectives, and other factors. A State has the latitude to design a waiver program that is cost-effective and employs a variety of service delivery approaches, including participant direction of services.

Request for a Renewal to a §1915(c) Home and Community-Based Services Waiver

1. Major Changes

Describe any significant changes to the approved waiver that are being made in this renewal application:
The significant changes to the waiver are as follows:

1. The Quality Improvement (QI) performance measures are now administered primarily through the Department of Health.
2. Quality measures and reporting through performance indicators have been updated to comply with the modifications required by CMS effective June 1, 2014 for waiver renewals.
3. Descriptions related to the CMS HCBS Final Rule 2249-F/2296-F have been included in Attachment #2 and Appendix C-5.

Application for a §1915(c) Home and Community-Based Services Waiver

1. Request Information (1 of 3)

A. The State of New Mexico requests approval for a Medicaid home and community-based services (HCBS) waiver under the authority of §1915(c) of the Social Security Act (the Act).
B. Program Title (optional - this title will be used to locate this waiver in the finder):
   Medically Fragile Renewal Waiver
C. Type of Request: renewal
   Requested Approval Period: (For new waivers requesting five year approval periods, the waiver must serve individuals who are dually eligible for Medicaid and Medicare.)
   ○ 3 years   ○ 5 years
   Original Base Waiver Number: NM.0223
   Draft ID: NM.017.05.00
D. Type of Waiver (select only one):
   Regular Waiver
E. Proposed Effective Date: (mm/dd/yy)
   10/01/16

1. Request Information (2 of 3)
F. Level(s) of Care. This waiver is requested in order to provide home and community-based waiver services to individuals who, but for the provision of such services, would require the following level(s) of care, the costs of which would be reimbursed under the approved Medicaid State plan (check each that applies):

- Hospital
  Select applicable level of care
  - Hospital as defined in 42 CFR §440.10
    If applicable, specify whether the State additionally limits the waiver to subcategories of the hospital level of care:

- Inpatient psychiatric facility for individuals age 21 and under as provided in 42 CFR §440.160
- Nursing Facility
  Select applicable level of care
  - Nursing Facility as defined in 42 CFR 440.40 and 42 CFR 440.155
    If applicable, specify whether the State additionally limits the waiver to subcategories of the nursing facility level of care:

- Institution for Mental Disease for persons with mental illnesses aged 65 and older as provided in 42 CFR §440.140
- Intermediate Care Facility for Individuals with Intellectual Disabilities (ICF/IID) (as defined in 42 CFR §440.150)
  If applicable, specify whether the State additionally limits the waiver to subcategories of the ICF/IID level of care:

1. Request Information (3 of 3)

G. Concurrent Operation with Other Programs. This waiver operates concurrently with another program (or programs) approved under the following authorities

Select one:
- Not applicable
- Applicable

Check the applicable authority or authorities:
- Services furnished under the provisions of §1915(a)(1)(a) of the Act and described in Appendix I
- Waiver(s) authorized under §1915(b) of the Act.
  Specify the §1915(b) waiver program and indicate whether a §1915(b) waiver application has been submitted or previously approved:

Specify the §1915(b) authorities under which this program operates (check each that applies):
- §1915(b)(1) (mandated enrollment to managed care)
- §1915(b)(2) (central broker)
- §1915(b)(3) (employ cost savings to furnish additional services)
- §1915(b)(4) (selective contracting/limit number of providers)
- A program operated under §1932(a) of the Act.
  Specify the nature of the State Plan benefit and indicate whether the State Plan Amendment has been submitted or previously approved:

- A program authorized under §1915(i) of the Act.
A program authorized under §1915(j) of the Act.
A program authorized under §1115 of the Act.
Specify the program:

H. Dual Eligibility for Medicaid and Medicare.
Check if applicable:
This waiver provides services for individuals who are eligible for both Medicare and Medicaid.

2. Brief Waiver Description

Brief Waiver Description. In one page or less, briefly describe the purpose of the waiver, including its goals, objectives, organizational structure (e.g., the roles of state, local and other entities), and service delivery methods.
This application is to renew the New Mexico Medically Fragile Waiver (MF Waiver), a program administered through a partnership between the Human Services Department (HSD) and the Department of Health/Developmental Disabilities Supports Division (DOH/DDSD). The New Mexico MF Waiver is a Medicaid home and community-based services (HCBS) waiver program which has been available since 1984.

Purpose of Waiver: The New Mexico MF Waiver program serves individuals of all ages who are eligible for services prior to their 22nd birthday based on the determination that they have a medically fragile condition and a developmental disability or are developmentally delayed or at risk for developmental delay and meet ICF/MR criteria. The program is designed to keep medically fragile individuals with conditions that require frequent and ongoing medical supervision out of institutions.

The MF Waiver is bound by the cost-effectiveness mandate of Federal authorization: the total cost for services cannot exceed the cost of institutional care. MF Waiver services are to be combined with informal supports of family, friends, community programs and other funding sources to help contain costs. The participant's budget is based on a capped dollar amount (CDA) for each assessed level of care determination. The State sets specific dollar amounts of services and supports that can be offered based on an individual's age and assessed level of support need.

Goals of the MF Waiver: 1) Continue to maintain participants in a safe and comfortable home environment; 2) Maximize the level of functioning of waiver participants; 3) Continue to provide participants with timely and consistent waiver services.

Roles of State, local, and other entities: The State secures public input into the development and management of the MF Waiver through a variety of committees and methods. The Joint Powers Agreement (JPA) between HSD and DOH articulates provisions for operating the waiver for which HSD holds DOH accountable. Service quality is reviewed and improved through ongoing feedback from the Developmental Disabilities Services Quality Improvement (DDSQI) Steering Committee. Each participant receives services as indicated on an Individual Service Plan (ISP) which are overseen by the case management agency.

Service Delivery Methods: This waiver program uses traditional service delivery methods.

Throughout this application, the term "participant/participant representative" refers to waiver participants. As it is common that the participant is a minor, the representative includes a parent, legal guardian, or other legal representative deemed necessary by the State.

3. Components of the Waiver Request

The waiver application consists of the following components. Note: Item 3-E must be completed.

A. Waiver Administration and Operation. Appendix A specifies the administrative and operational structure of this waiver.

B. Participant Access and Eligibility. Appendix B specifies the target group(s) of individuals who are served in this waiver, the number of participants that the State expects to serve during each year that the waiver is in effect,
applicable Medicaid eligibility and post-eligibility (if applicable) requirements, and procedures for the evaluation and reevaluation of level of care.

C. Participant Services. Appendix C specifies the home and community-based waiver services that are furnished through the waiver, including applicable limitations on such services.

D. Participant-Centered Service Planning and Delivery. Appendix D specifies the procedures and methods that the State uses to develop, implement and monitor the participant-centered service plan (of care).

E. Participant-Direction of Services. When the State provides for participant direction of services, Appendix E specifies the participant direction opportunities that are offered in the waiver and the supports that are available to participants who direct their services. (Select one):

   - Yes. This waiver provides participant direction opportunities. Appendix E is required.
   - No. This waiver does not provide participant direction opportunities. Appendix E is not required.

F. Participant Rights. Appendix F specifies how the State informs participants of their Medicaid Fair Hearing rights and other procedures to address participant grievances and complaints.

G. Participant Safeguards. Appendix G describes the safeguards that the State has established to assure the health and welfare of waiver participants in specified areas.

H. Quality Improvement Strategy. Appendix H contains the Quality Improvement Strategy for this waiver.

I. Financial Accountability. Appendix I describes the methods by which the State makes payments for waiver services, ensures the integrity of these payments, and complies with applicable federal requirements concerning payments and federal financial participation.

J. Cost-Neutrality Demonstration. Appendix J contains the State's demonstration that the waiver is cost-neutral.

4. Waiver(s) Requested

A. Comparability. The State requests a waiver of the requirements contained in §1902(a)(10)(B) of the Act in order to provide the services specified in Appendix C that are not otherwise available under the approved Medicaid State plan to individuals who: (a) require the level(s) of care specified in Item 1.F and (b) meet the target group criteria specified in Appendix B.

B. Income and Resources for the Medically Needy. Indicate whether the State requests a waiver of §1902(a)(10)(C)(i) (III) of the Act in order to use institutional income and resource rules for the medically needy (select one):

   - Not Applicable
   - No
   - Yes

C. Statewidensess. Indicate whether the State requests a waiver of the statewidensess requirements in §1902(a)(1) of the Act (select one):

   - No
   - Yes

   If yes, specify the waiver of statewidensess that is requested (check each that applies):

   - **Geographic Limitation.** A waiver of statewidensess is requested in order to furnish services under this waiver only to individuals who reside in the following geographic areas or political subdivisions of the State.
     
     Specify the areas to which this waiver applies and, as applicable, the phase-in schedule of the waiver by geographic area:

   - **Limited Implementation of Participant-Direction.** A waiver of statewidensess is requested in order to make participant-direction of services as specified in Appendix E available only to individuals who reside in the following geographic areas or political subdivisions of the State. Participants who reside in these
areas may elect to direct their services as provided by the State or receive comparable services through the service delivery methods that are in effect elsewhere in the State.

Specify the areas of the State affected by this waiver and, as applicable, the phase-in schedule of the waiver by geographic area:

5. Assurances

In accordance with 42 CFR §441.302, the State provides the following assurances to CMS:

A. Health & Welfare: The State assures that necessary safeguards have been taken to protect the health and welfare of persons receiving services under this waiver. These safeguards include:

1. As specified in Appendix C, adequate standards for all types of providers that provide services under this waiver;

2. Assurance that the standards of any State licensure or certification requirements specified in Appendix C are met for services or for individuals furnishing services that are provided under the waiver. The State assures that these requirements are met on the date that the services are furnished; and,

3. Assurance that all facilities subject to §1616(e) of the Act where home and community-based waiver services are provided comply with the applicable State standards for board and care facilities as specified in Appendix C.

B. Financial Accountability. The State assures financial accountability for funds expended for home and community-based services and maintains and makes available to the Department of Health and Human Services (including the Office of the Inspector General), the Comptroller General, or other designees, appropriate financial records documenting the cost of services provided under the waiver. Methods of financial accountability are specified in Appendix I.

C. Evaluation of Need: The State assures that it provides for an initial evaluation (and periodic reevaluations, at least annually) of the need for a level of care specified for this waiver, when there is a reasonable indication that an individual might need such services in the near future (one month or less) but for the receipt of home and community-based services under this waiver. The procedures for evaluation and reevaluation of level of care are specified in Appendix B.

D. Choice of Alternatives: The State assures that when an individual is determined to be likely to require the level of care specified for this waiver and is in a target group specified in Appendix B, the individual (or, legal representative, if applicable) is:

1. Informed of any feasible alternatives under the waiver; and,

2. Given the choice of either institutional or home and community-based waiver services. Appendix B specifies the procedures that the State employs to ensure that individuals are informed of feasible alternatives under the waiver and given the choice of institutional or home and community-based waiver services.

E. Average Per Capita Expenditures: The State assures that, for any year that the waiver is in effect, the average per capita expenditures under the waiver will not exceed 100 percent of the average per capita expenditures that would have been made under the Medicaid State plan for the level(s) of care specified for this waiver had the waiver not been granted. Cost-neutrality is demonstrated in Appendix J.

F. Actual Total Expenditures: The State assures that the actual total expenditures for home and community-based waiver and other Medicaid services and its claim for FFP in expenditures for the services provided to individuals under the waiver will not, in any year of the waiver period, exceed 100 percent of the amount that would be incurred in the absence of the waiver by the State's Medicaid program for these individuals in the institutional setting(s) specified for this waiver.

G. Institutionalization Absent Waiver: The State assures that, absent the waiver, individuals served in the waiver would receive the appropriate type of Medicaid-funded institutional care for the level of care specified for this waiver.
H. Reporting: The State assures that annually it will provide CMS with information concerning the impact of the waiver on the type, amount and cost of services provided under the Medicaid State plan and on the health and welfare of waiver participants. This information will be consistent with a data collection plan designed by CMS.

I. Habilitation Services. The State assures that prevocational, educational, or supported employment services, or a combination of these services, if provided as habilitation services under the waiver are: (1) not otherwise available to the individual through a local educational agency under the Individuals with Disabilities Education Act (IDEA) or the Rehabilitation Act of 1973; and, (2) furnished as part of expanded habilitation services.

J. Services for Individuals with Chronic Mental Illness. The State assures that federal financial participation (FFP) will not be claimed in expenditures for waiver services including, but not limited to, day treatment or partial hospitalization, psychosocial rehabilitation services, and clinic services provided as home and community-based services to individuals with chronic mental illnesses if these individuals, in the absence of a waiver, would be placed in an IMD and are: (1) age 22 to 64; (2) age 65 and older and the State has not included the optional Medicaid benefit cited in 42 CFR §440.140; or (3) age 21 and under and the State has not included the optional Medicaid benefit cited in 42 CFR § 440.160.

6. Additional Requirements

Note: Item 6-1 must be completed.

A. Service Plan. In accordance with 42 CFR §441.301(b)(1)(i), a participant-centered service plan (of care) is developed for each participant employing the procedures specified in Appendix D. All waiver services are furnished pursuant to the service plan. The service plan describes: (a) the waiver services that are furnished to the participant, their projected frequency and the type of provider that furnishes each service and (b) the other services (regardless of funding source, including State plan services) and informal supports that complement waiver services in meeting the needs of the participant. The service plan is subject to the approval of the Medicaid agency. Federal financial participation (FFP) is not claimed for waiver services furnished prior to the development of the service plan or for services that are not included in the service plan.

B. Inpatients. In accordance with 42 CFR §441.301(b)(1)(ii), waiver services are not furnished to individuals who are in-patients of a hospital, nursing facility or ICF/IID.

C. Room and Board. In accordance with 42 CFR §441.310(a)(2), FFP is not claimed for the cost of room and board except when: (a) provided as part of respite services in a facility approved by the State that is not a private residence or (b) claimed as a portion of the rent and food that may be reasonably attributed to an unrelated caregiver who resides in the same household as the participant, as provided in Appendix I.

D. Access to Services. The State does not limit or restrict participant access to waiver services except as provided in Appendix C.

E. Free Choice of Provider. In accordance with 42 CFR §431.151, a participant may select any willing and qualified provider to furnish waiver services included in the service plan unless the State has received approval to limit the number of providers under the provisions of §1915(b) or another provision of the Act.

F. FFP Limitation. In accordance with 42 CFR §433 Subpart D, FFP is not claimed for services when another third-party (e.g., another third party health insurer or other federal or state program) is legally liable and responsible for the provision and payment of the service. FFP also may not be claimed for services that are available without charge, or as free care to the community. Services will not be considered to be without charge, or free care, when (1) the provider establishes a fee schedule for each service available and (2) collects insurance information from all those served (Medicaid and non-Medicaid), and bills other legally liable third party insurers. Alternatively, if a provider certifies that a particular legally liable third party insurer does not pay for the service(s), the provider may not generate further bills for that insurer for that annual period.

G. Fair Hearing: The State provides the opportunity to request a Fair Hearing under 42 CFR §431 Subpart E, to individuals: (a) who are not given the choice of home and community-based waiver services as an alternative to institutional level of care specified for this waiver; (b) who are denied the service(s) of their choice or the provider(s) of their choice; or (c) whose services are denied, suspended, reduced, or terminated. Appendix F specifies the State's procedures to provide individuals the opportunity to request a Fair Hearing, including providing notice of action as required in 42 CFR §431.210.
H. Quality Improvement. The State operates a formal, comprehensive system to ensure that the waiver meets the assurances and other requirements contained in this application. Through an ongoing process of discovery, remediation and improvement, the State assures the health and welfare of participants by monitoring: (a) level of care determinations; (b) individual plans and services delivery; (c) provider qualifications; (d) participant health and welfare; (e) financial oversight and (f) administrative oversight of the waiver. The State further assures that all problems identified through its discovery processes are addressed in an appropriate and timely manner, consistent with the severity and nature of the problem. During the period that the waiver is in effect, the State will implement the Quality Improvement Strategy specified in Appendix H.

I. Public Input. Describe how the State secures public input into the development of the waiver:
The State secures public input on the development of the MF Waiver renewal through a variety of committees and methods. Input is received from the following: the Family Advisory Board (FAB); Home Health Agency Providers; the Professional Advisory Committee (PAC); the Managed Care Organizations (MCO) and fee-for-service providers; the Strategic Planning Committee; and the DOH/DDSD website that includes an email address for public communication. The FAB is a group of participants and families that meets monthly. The meeting is held in Albuquerque, New Mexico but the families may also attend via phone conference from multiple sites throughout the state. HSD attends all FAB meetings. The PAC meets at least annually to learn about the current successes and problems encountered and to make recommendations. This committee is comprised of: nursing educators; community physicians; MCO and fee-for-service representatives; staff from the Center for Developmental Disabilities (CDD); case managers; the Medically Fragile Waiver Manager; representatives from the Human Services Department (HSD); the UNM Case Management Program (UNMCMP) Operations Director; and others as identified as needed. The Strategic Planning Committee was formed to address whether the current system of care has sufficient statewide service delivery capacity to support individuals who are medically fragile and their families. The MCOs and fee-for-service providers have provided input as needed.

The Human Services Department (HSD) and the Department of Health (DOH) sought public input from Medically Fragile stakeholders: participants, participants families, and case managers through State wide public input sessions. Information regarding public input sessions was sent via mail to all stakeholders. Public input sessions were held on the following dates in the following cities:

February 25, 2016 – Las Cruces, NM
February 26, 2016 – Albuquerque, NM
March 10, 2016 – Farmington, NM

Public input was recorded. The presentation utilized during the public meetings was posted to the DOH Medically Fragile website.

In April 11, 2016, HSD sent out public notice to inform tribal leaders and tribal healthcare providers, and statewide interested parties through letters, emails, newspaper legal notices, and an HSD website posting of additional changes to the waiver renewal related to the CMS Federal Rule 2249-F/2296. A contact name, number and email was provided on the public notice for individuals who had questions or needed more information. HSD invited the public to send comments by close of business on________. HSD and DOH held a public hearing session on________ in Santa Fe.

Notices provided the web link to the full waiver application or transition plan website posting on the HSD webpage. A contact name, number and email was provided on the public notice for individuals who had questions or needed more information. Notices for Public Comment were published in the Las Cruces Sun and Albuquerque Journal on________. The Albuquerque Journal is distributed statewide.

Summary of Public Comments:

[TO BE COMPLETED UPON COMPLETION OF PUBLIC COMMENT PERIOD]

J. Notice to Tribal Governments. The State assures that it has notified in writing all federally-recognized Tribal Governments that maintain a primary office and/or majority population within the State of the State's intent to submit a Medicaid waiver request or renewal request to CMS at least 60 days before the anticipated submission date is provided by Presidential Executive Order 13175 of November 6, 2000. Evidence of the applicable notice is available through the Medicaid Agency.
K. **Limited English Proficient Persons.** The State assures that it provides meaningful access to waiver services by Limited English Proficient persons in accordance with: (a) Presidential Executive Order 13166 of August 11, 2000 (65 FR 50121) and (b) Department of Health and Human Services "Guidance to Federal Financial Assistance Recipients Regarding Title VI Prohibition Against National Origin Discrimination Affecting Limited English Proficient Persons" (68 FR 47311 - August 8, 2003). **Appendix B** describes how the State assures meaningful access to waiver services by Limited English Proficient persons.

7. **Contact Person(s)**

A. The Medicaid agency representative with whom CMS should communicate regarding the waiver is:

8. Authorizing Signature

This document, together with Appendices A through J, constitutes the State's request for a waiver under §1915(c) of the Social Security Act. The State assures that all materials referenced in this waiver application (including standards, licensure and certification requirements) are readily available in print or electronic form upon request to CMS through the Medicaid agency or, if applicable, from the operating agency specified in Appendix A. Any proposed changes to the waiver will be submitted by the Medicaid agency to CMS in the form of waiver amendments. Upon approval by CMS, the waiver application serves as the State's authority to provide home and community-based waiver services to the specified target groups. The State attests that it will abide by all provisions of the approved waiver and will continuously operate the waiver in accordance with the assurances specified in Section 5 and the additional requirements specified in Section 6 of the request.

Signature: 

State Medicaid Director or Designee

Submission Date: 

Note: The Signature and Submission Date fields will be automatically completed when the State Medicaid Director submits the application.

Last Name: Smith-Lesie

First Name: Nancy

Title: Medicaid Director

Agency: Human Services Department, Medical Assistance Division

Address: Ark Plaza

Address 2: 

Attachment #1: Transition Plan
Check the box next to any of the following changes from the current approved waiver. Check all boxes that apply.

- Replacing an approved waiver with this waiver.
- Combining waivers.
- Splitting one waiver into two waivers.
- Eliminating a service.
- Adding or decreasing an individual cost limit pertaining to eligibility.
- Adding or decreasing limits to a service or a set of services, as specified in Appendix C.
- Reducing the unduplicated count of participants (Factor C).
- Adding new, or decreasing, a limitation on the number of participants served at any point in time.
- Making any changes that could result in some participants losing eligibility or being transferred to another waiver under 1915(c) or another Medicaid authority.
- Making any changes that could result in reduced services to participants.

Specify the transition plan for the waiver:

There are no major changes to the waiver renewal application, therefore this section is not applicable.

Attachment #2: Home and Community-Based Settings Waiver Transition Plan
Specify the state's process to bring this waiver into compliance with federal home and community-based (HCB) settings requirements at 42 CFR 441.301(c)(4)-(5), and associated CMS guidance.

Consult with CMS for instructions before completing this item. This field describes the status of a transition process at the point in time of submission. Relevant information in the planning phase will differ from information required to describe attainment of milestones.

To the extent that the state has submitted a statewide HCB settings transition plan to CMS, the description in this field may reference that statewide plan. The narrative in this field must include enough information to demonstrate that this waiver complies with federal HCB settings requirements, including the compliance and transition requirements at 42 CFR 441.301 (c)(6), and that this submission is consistent with the portions of the statewide HCB settings transition plan that are germane to this waiver. Quote or summarize germane portions of the statewide HCB settings transition plan as required.

Note that Appendix C-5 HCB Settings describes settings that do not require transition; the settings listed there meet federal HCB setting requirements as of the date of submission. Do not duplicate that information here.

Update this field and Appendix C-5 when submitting a renewal or amendment to this waiver for other purposes. It is not necessary for the state to amend the waiver solely for the purpose of updating this field and Appendix C-5. At the end of the state's HCB settings transition process for this waiver, when all waiver settings meet federal HCB setting requirements, enter "Completed" in this field, and include in Section C-5 the information on all HCB settings in the waiver.
The Medically Fragile waiver was not included in New Mexico's State Wide Transition Plan (SWTP). The Medically Fragile Home and Community-Based Services program provides services for individuals diagnosed with a medically fragile condition, have a developmental disability, developmental delay, or are at risk for developmental delay before reaching 22 years of age and who require an ICF/IDD level of care. Participants receive services in their family home or their own home (home owned or leased by the participant, the participants' parents or legal guardians). Services under this waiver are not provided in either congregate living facilities, institutional settings or on the grounds of institutions. All settings under this waiver are presumed compliant with the rule and will not require any remediation. No further transition plan is required for this waiver. New Mexico's SWTP was submitted on February 29, 2016 and is pending CMS review at the time of this waiver submission.

Additional Needed Information (Optional)

Provide additional needed information for the waiver (optional):

Appendix A: Waiver Administration and Operation

1. State Line of Authority for Waiver Operation. Specify the state line of authority for the operation of the waiver (select one):

- The waiver is operated by the State Medicaid agency.
  Specify the Medicaid agency division/unit that has line authority for the operation of the waiver program (select one):
  - The Medical Assistance Unit.
    Specify the unit name:

  (Do not complete item A-2)

- Another division/unit within the State Medicaid agency that is separate from the Medical Assistance Unit.
  Specify the division/unit name. This includes administrations/divisions under the umbrella agency that has been identified as the Single State Medicaid Agency.

  (Complete item A-2-a).

- The waiver is operated by a separate agency of the State that is not a division/unit of the Medicaid agency.
  Specify the division/unit name:
  Department of Health, Developmental Disabilities Supports Division (DOH/DDSD)

In accordance with 42 CFR §431.10, the Medicaid agency exercises administrative discretion in the administration and supervision of the waiver and issues policies, rules and regulations related to the waiver. The interagency agreement or memorandum of understanding that sets forth the authority and arrangements for this policy is available through the Medicaid agency to CMS upon request. (Complete item A-2-b).

Appendix A: Waiver Administration and Operation

2. Oversight of Performance.
   a. Medicaid Director Oversight of Performance When the Waiver is Operated by another Division/Unit within the State Medicaid Agency. When the waiver is operated by another division/administration within
the umbrella agency designated as the Single State Medicaid Agency. Specify (a) the functions performed by that division/administration (i.e., the Developmental Disabilities Administration within the Single State Medicaid Agency), (b) the document utilized to outline the roles and responsibilities related to waiver operation, and (c) the methods that are employed by the designated State Medicaid Director (in some instances, the head of umbrella agency) in the oversight of these activities:

As indicated in section 1 of this appendix, the waiver is not operated by another division/unit within the State Medicaid agency. Thus this section does not need to be completed.

b. Medicaid Agency Oversight of Operating Agency Performance. When the waiver is not operated by the Medicaid agency, specify the functions that are expressly delegated through a memorandum of understanding (MOU) or other written document, and indicate the frequency of review and update for that document. Specify the methods that the Medicaid agency uses to ensure that the operating agency performs its assigned waiver operational and administrative functions in accordance with waiver requirements. Also specify the frequency of Medicaid agency assessment of operating agency performance:

Department of Health (DOH)/Developmental Disabilities Supports Division (DDSD) operates the Medically Fragile (MF) Waiver, and Human Services Department/Medical Assistance Division (HSD/MAD) is responsible for the oversight of the waiver. DOH monitors program quality and compliance with program requirements through participation in the DOH/Developmental Disabilities Supports Quality Improvement (DDSQI) Steering Committee as described in Appendix H of this application. As part of this process, DOH collects and aggregates data including: number of participants served; number of services and supports offered; number of providers participating; number, types and resolutions of participant complaints and fair hearings; number, types and resolutions of critical incidents reported; whether level of care (LOC) reviews have been conducted and approved as required; whether service and support plans and budgets are completed and authorized, as required; and whether Freedom of Choice (FOC) has been provided, as requested.

HSD oversees DOH with respect to its operational responsibilities using multiple methods as described below:

- The Joint Powers Agreement (JPA) between HSD and DOH sets forth provisions for operating the MF Waiver, for which HSD holds DOH accountable for various responsibilities relative to this application. HSD/MAD monitors DOH for compliance with the JPA, to ensure that DOH has fulfilled its operational responsibilities and performed the functions listed in the section A-7 chart. HSD/MAD monitors these activities, in part, through monthly meetings and provides access to Medicaid data to the DOH for its use as described above. As part of its oversight, HSD requires DOH to report on waiver activities at these monthly meetings. For any area of non-compliance, DOH is required to submit a plan of correction to HSD.

- As explained in Appendix H, HSD/MAD also oversees DOH’s operational responsibilities through the DDSQI Steering Committee which reviews the MF Waiver Quality Improvement Strategy (QIS). The DDSQI Steering Committee meets quarterly to review trended data collected through a variety of means by HSD and DOH. The DDSQI Steering Committee identifies areas of program improvement and key steps for the development and implementation of action plans to address the areas. The DDSQI Steering Committee reports back the results of program improvement and action plan activities to HSD at least quarterly. HSD’s role is to attend all DDSQI Steering Committee meetings, receive the reports, and ensure program improvements and action plan activities are completed.

- Either as part of the DDSQI Steering Committee meetings, or as a separate review, as needed, HSD/MAD reviews the following: aggregate operational data that must be tracked and reported by DOH; action plans developed by DOH and the DDSQI Steering Committee in order to address areas of improvement identified through the data review; and the effectiveness of the action plans to improve the program. Through its DDSQI Steering Committee participation and QIS review process, HSD/MAD provides oversight to DOH to ensure the JPA is implemented, operational responsibilities of DOH are met, and functions specified in the section A-7 chart are performed.

- HSD also serves with DOH on various waiver specific and cross-waiver workgroups related to development and implementation of policies and procedures related to home and community-based services (HCBS) waivers.

In all oversight activities, HSD collaborates with DOH to review and analyze findings, develop strategies for
improvement, and make timely changes to the MF Waiver program, as indicated. If HSD/MAD identifies any issues that are inconsistent with Medicaid requirements at any time, HSD/MAD ensures that DOH corrects the problem through program improvement activities such as verbal direction, letters of direction, and implementation of formal corrective action plans.

Appendix A: Waiver Administration and Operation

3. Use of Contracted Entities. Specify whether contracted entities perform waiver operational and administrative functions on behalf of the Medicaid agency and/or the operating agency (if applicable) (select one):

- Yes. Contracted entities perform waiver operational and administrative functions on behalf of the Medicaid agency and/or operating agency (if applicable).
  Specify the types of contracted entities and briefly describe the functions that they perform. Complete Items A-5 and A-6:
  Contracted entity referenced in Appendix A-7 refer to the Third-Party Assessor (TPA) Contractor.

  The TPA Contractor: reviews required Level of Care (LOC) assessments and determines medical eligibility for participants transferring from existing waivers and for individuals who are newly allocated to the waiver; and conducts utilization reviews (prior authorization of waiver services) and approvals for Individual Service Plans (ISPs) and budgets to ensure that waiver requirements are met. Any third party contractor that conducts level of care and assessments and determines medical eligibility for the waiver cannot be enrolled as a waiver provider.

- No. Contracted entities do not perform waiver operational and administrative functions on behalf of the Medicaid agency and/or the operating agency (if applicable).

Appendix A: Waiver Administration and Operation

4. Role of Local/Regional Non-State Entities. Indicate whether local or regional non-state entities perform waiver operational and administrative functions and, if so, specify the type of entity (Select One):

- Not applicable

- Applicable - Local/regional non-state agencies perform waiver operational and administrative functions.
  Check each that applies:
  
  Local/Regional non-state public agencies perform waiver operational and administrative functions at the local or regional level. There is an interagency agreement or memorandum of understanding between the State and these agencies that sets forth responsibilities and performance requirements for these agencies that is available through the Medicaid agency.

  Specify the nature of these agencies and complete items A-5 and A-6:

- Local/Regional non-governmental non-state entities conduct waiver operational and administrative functions at the local or regional level. There is a contract between the Medicaid agency and/or the operating agency (when authorized by the Medicaid agency) and each local/regional non-state entity that sets forth the responsibilities and performance requirements of the local/regional entity. The contract(s) under which private entities conduct waiver operational functions are available to CMS upon request through the Medicaid agency or the operating agency (if applicable).

  Specify the nature of these entities and complete items A-5 and A-6:
Appendix A: Waiver Administration and Operation

5. Responsibility for Assessment of Performance of Contracted and/or Local/Regional Non-State Entities. Specify the state agency or agencies responsible for assessing the performance of contracted and/or local/regional non-state entities in conducting waiver operational and administrative functions:
HSD/MAD contracts with the TPA Contractor and assesses the Contractor's performance in conducting its respective waiver operational and administrative functions based on the contract.

Appendix A: Waiver Administration and Operation

6. Assessment Methods and Frequency. Describe the methods that are used to assess the performance of contracted and/or local/regional non-state entities to ensure that they perform assigned waiver operational and administrative functions in accordance with waiver requirements. Also specify how frequently the performance of contracted and/or local/regional non-state entities is assessed:
TPA Contractor:
The TPA is responsible for the following waiver operational and administrative functions: level of care evaluation; review of participant service plans; prior authorization of waiver services; and utilization management, quality assurance and quality improvement activities.

HSD/MAD utilizes monthly TPA reports to ensure the Contractor is compliant with the terms of the contract for the performance and operation of level of care and SSP/budget reviews, and specific monthly audits to monitor level of care performance. The Contractor is also required to attend monthly meetings with HSD/MAD's TPA contact manager whereby any waiver-related contract compliance issues may be identified and monitored to resolution. On an annual basis, HSD/MAD reviews and approves the Contractor's quality improvement/quality management work plan, evaluation and results to ensure compliance with quality management activities related to the waiver. In addition, HSD/MAD utilizes customer service and complaint data, Fair Hearings data, input from the monthly Family Advisory Board meetings to assess the Contractor's performance.

DOH provides HSD/MAD with any data, complaints or other information DOH has obtained from any source regarding the TPA Contractor's performance.

If any problems are identified, HSD/MAD may require a state-directed corrective action plan from the TPA and monitor its implementation. The TPA may also impose its own internal corrective action plan, or performance improvement plan, prior to a state-directed CAP being placed. HSD/MAD shares oversight findings with DOH.

Appendix A: Waiver Administration and Operation

7. Distribution of Waiver Operational and Administrative Functions. In the following table, specify the entity or entities that have responsibility for conducting each of the waiver operational and administrative functions listed (check each that applies):
In accordance with 42 CFR §431.10, when the Medicaid agency does not directly conduct a function, it supervises the performance of the function and establishes and/or approves policies that affect the function. All functions not performed directly by the Medicaid agency must be delegated in writing and monitored by the Medicaid Agency.
Note: More than one box may be checked per item. Ensure that Medicaid is checked when the Single State Medicaid Agency (1) conducts the function directly; (2) supervises the delegated function; and/or (3) establishes and/or approves policies related to the function.

Appendix A: Waiver Administration and Operation

Quality Improvement: Administrative Authority of the Single State Medicaid Agency

As a distinct component of the State’s quality improvement strategy, provide information in the following fields to detail the State’s methods for discovery and remediation.

a. Methods for Discovery: Administrative Authority

The Medicaid Agency retains ultimate administrative authority and responsibility for the operation of the waiver program by exercising oversight of the performance of waiver functions by other state and local/regional non-state agencies (if appropriate) and contracted entities.

i. Performance Measures

For each performance measure the State will use to assess compliance with the statutory assurance, complete the following. Performance measures for administrative authority should not duplicate measures found in other appendices of the waiver application. As necessary and applicable, performance measures should focus on:

- Uniformity of development/execution of provider agreements throughout all geographic areas covered by the waiver
- Equitable distribution of waiver openings in all geographic areas covered by the waiver
- Compliance with HCB settings requirements and other new regulatory components (for waiver actions submitted on or after March 17, 2014)

Where possible, include numerator/denominator.

For each performance measure, provide information on the aggregated data that will enable the State to analyze and assess progress toward the performance measure. In this section provide information on the method by which each source of data is analyzed statistically/deductively or inductively, how themes are identified or conclusions drawn, and how recommendations are formulated, where appropriate.

Performance Measure:

The number and percent of delegated functions specified as contractual requirements in the TPA contract with which the TPA Contractor is compliant. Numerator: Number of contractual requirements that the TPA Contractor is compliant with on an annual basis. Denominator: All contractual requirements identified in the contract as the responsibility of the TPA Contractor.

- Specifying: Additional data collection, analysis, and aggregation will be done, as necessary, to address unusual issues that may arise.

---

ii. If applicable, in the textbox below provide any necessary additional information on the strategies employed by the State to discover/identify problems/issues within the waiver program, including frequency and parties responsible.

As noted in Appendix A: 2.b., HSD/MAD monitors DOH for compliance with the JPA via an annual sub recipient monitoring tool to ensure that DOH has fulfilled its operational responsibilities, based on the JPA. HSD.DOH monitors these activities through bi-weekly meetings and review of actions taken by the operating agency.

b. Methods for Remediation/Fixing Individual Problems
   
i. Describe the State’s method for addressing individual problems as they are discovered. Include information regarding responsible parties and GENERAL methods for problem correction. In addition, provide information on the methods used by the State to document these items.

Remediation and improvement strategies vary, based on the findings. When problems and areas for improvement related to HSD/MAD’s administrative authority are identified by HSD/MAD, processes are in place to ensure that appropriate and timely action is taken whether the situation is in regard to participants, providers and vendors of services and supports, contractors, or the State’s systems. Methods for fixing identified problems with functions performed by DOH include verbal direction, letters of direction, and formal corrective action plans. Documentation is kept on all actions taken. In some instances, policy and/or regulatory changes may be required. In all cases, if HSD/MAD or DOH identifies any issues that are inconsistent with Medicaid requirements at any time, HSD/MAD ensures that DOH corrects the problem and
that compliance with the Assurance is met. Problems with functions performed by the TPA Contractor as identified by various discovery methods will result in HSD/MAD placing the TPA Contractor on corrective action, and/or sanctions will be implemented, including possible contract termination.

ii. Remediation Data Aggregation

Remediation-related Data Aggregation and Analysis (including trend identification)

C. Timelines

When the State does not have all elements of the Quality Improvement Strategy in place, provide timelines to design methods for discovery and remediation related to the assurance of Administrative Authority that are currently non- operational.

- No
- Yes

Please provide a detailed strategy for assuring Administrative Authority, the specific timeline for implementing identified strategies, and the parties responsible for its operation.

Appendix B: Participant Access and Eligibility

B-1: Specification of the Waiver Target Group(s)

a. Target Group(s). Under the waiver of Section 1902(a)(10)(B) of the Act, the State limits waiver services to one or more groups or subgroups of individuals. Please see the instruction manual for specifics regarding age limits. In accordance with 42 CFR §441.301(b)(6), select one or more waiver target groups, check each of the subgroups in the selected target group(s) that may receive services under the waiver, and specify the minimum and maximum (if any) age of individuals served in each subgroup:

<table>

</tbody>
</table>

b. **Additional Criteria.** The State further specifies its target group(s) as follows:

In addition to the Aged or Disabled, or Both - Specific Recognized Subgroups target group indicated in B-1.a. above, the individual must: 1) have a developmental disability (according to the New Mexico state definition; and 2) meet ICF/IID level of care; and 3) have a medically fragile condition that meets the definition below; and 4) meet financial eligibility. An individual must meet all four (4) criteria to be eligible for this waiver.

1. Medically Fragile - This subgroup is further defined as follows: individuals who have been diagnosed with a medically fragile condition before reaching age 22; who have a developmental disability or developmental delay, or who are at risk for developmental delay; and who have a medically fragile condition defined as a chronic physical condition, which results in a prolonged dependency on medical care for which daily skilled (nursing) intervention is medically necessary and is characterized by one or more of the following: a life-threatening condition, characterized by reasonably frequent periods of acute exacerbation, which require frequent medical supervision and/or physician consultation, and which, in the absence of such supervision or consultation, would require hospitalization; frequent, time-consuming administration of specialized treatments which are medically necessary; or dependence on medical technology such that without the technology a reasonable level of health could not be maintained. Examples include, but are not limited to, ventilators, dialysis machines, enteral or parenteral nutrition support and continuous oxygen.

2. Developmentally Disabled – The individual must have a developmental disability and mental retardation or a specific related condition. Related conditions are limited to cerebral palsy, autism, seizure disorder, chromosomal disorders (e.g., Down Syndrome), syndrome disorders, inborn errors of metabolism, and developmental disorders of brain formation.

Developmental disability is defined as a severe chronic disability, other than mental illness that: a) is attributable to a mental or physical impairment, including the result of trauma to the brain or a combination of mental and physical impairment; b) is manifested before the person reaches the age of twenty-two (22); c) is expected to continue indefinitely; d) results in a substantial functional limitation in three or more of the following areas of major life activity: self-care, receptive and expressive language, learning, mobility, self-direction, capacity of independent living, and economic self-sufficiency; and e) reflects the person’s need for a combination and sequence of special or interdisciplinary treatment, generic or other support and services that are of lifelong or extended duration and are individually planned and coordinated.

c. **Transition of Individuals Affected by Maximum Age Limitation.** When there is a maximum age limit that applies to individuals who may be served in the waiver, describe the transition planning procedures that are undertaken on behalf of participants affected by the age limit *(select one):*

- Not applicable. There is no maximum age limit
- The following transition planning procedures are employed for participants who will reach the waiver's maximum age limit.
Appendix B: Participant Access and Eligibility

B-2: Individual Cost Limit (1 of 2)

a. Individual Cost Limit. The following individual cost limit applies when determining whether to deny home and community-based services or entrance to the waiver to an otherwise eligible individual (select one). Please note that a State may have only ONE individual cost limit for the purposes of determining eligibility for the waiver:

- No Cost Limit. The State does not apply an individual cost limit. Do not complete Item B-2-b or item B-2-c.
- Cost Limit in Excess of Institutional Costs. The State refuses entrance to the waiver to any otherwise eligible individual when the State reasonably expects that the cost of the home and community-based services furnished to that individual would exceed the cost of a level of care specified for the waiver up to an amount specified by the State. Complete Items B-2-b and B-2-c.

The limit specified by the State is (select one):

- A level higher than 100% of the institutional average.
  Specify the percentage:

- Other
  Specify:

- Institutional Cost Limit. Pursuant to 42 CFR 441.301(a)(3), the State refuses entrance to the waiver to any otherwise eligible individual when the State reasonably expects that the cost of the home and community-based services furnished to that individual would exceed 100% of the cost of the level of care specified for the waiver. Complete Items B-2-b and B-2-c.
- Cost Limit Lower Than Institutional Costs. The State refuses entrance to the waiver to any otherwise qualified individual when the State reasonably expects that the cost of home and community-based services furnished to that individual would exceed the following amount specified by the State that is less than the cost of a level of care specified for the waiver.

  Specify the basis of the limit, including evidence that the limit is sufficient to assure the health and welfare of waiver participants. Complete Items B-2-b and B-2-c.

The cost limit specified by the State is (select one):

- The following dollar amount:
  Specify dollar amount:

  The dollar amount (select one)

  - Is adjusted each year that the waiver is in effect by applying the following formula:
    Specify the formula:
May be adjusted during the period the waiver is in effect. The State will submit a waiver amendment to CMS to adjust the dollar amount.

The following percentage that is less than 100% of the institutional average:

Specify percent: 

Other:

Specify:

Appendix B: Participant Access and Eligibility

B-2: Individual Cost Limit (2 of 2)

Answers provided in Appendix B-2-a indicate that you do not need to complete this section.

b. Method of Implementation of the Individual Cost Limit. When an individual cost limit is specified in Item B-2-a, specify the procedures that are followed to determine in advance of waiver entrance that the individual's health and welfare can be assured within the cost limit:

c. Participant Safeguards. When the State specifies an individual cost limit in Item B-2-a and there is a change in the participant's condition or circumstances post-entrance to the waiver that requires the provision of services in an amount that exceeds the cost limit in order to assure the participant's health and welfare, the State has established the following safeguards to avoid an adverse impact on the participant (check each that applies):

- The participant is referred to another waiver that can accommodate the individual's needs.
- Additional services in excess of the individual cost limit may be authorized.

Specify the procedures for authorizing additional services, including the amount that may be authorized:

Other safeguard(s)

Specify:

Appendix B: Participant Access and Eligibility

B-3: Number of Individuals Served (1 of 4)

a. Unduplicated Number of Participants. The following table specifies the maximum number of unduplicated participants who are served in each year that the waiver is in effect. The State will submit a waiver amendment to CMS to modify the number of participants specified for any year(s), including when a modification is necessary due to legislative appropriation or another reason. The number of unduplicated participants specified in this table is basis for the cost-neutrality calculations in Appendix J:

Table: B-3-a

<table>
<thead>
<tr>
<th>Waiver Year</th>
<th>Unduplicated Number of Participants</th>
</tr>
</thead>
</table>

https://wms-mmdd.cdsvec.com/WMS/faces/protected/35/print/PrintSelector.jsp

<tr>
<td>Year 5</td>
<td>331</td>
</tr>
</tbody>
</table>

b. Limitation on the Number of Participants Served at Any Point in Time. Consistent with the unduplicated number of participants specified in Item B-5-a, the State may limit to a lesser number the number of participants who will be served at any point in time during a waiver year. Indicate whether the State limits the number of participants in this way: (select one):

- The State does not limit the number of participants that it serves at any point in time during a waiver year.
- The State limits the number of participants that it serves at any point in time during a waiver year.

The limit that applies to each year of the waiver period is specified in the following table:

<table>
<thead>
<tr>
<th>Waiver Year</th>
<th>Maximum Number of Participants Served At Any Point During the Year</th>

<td></td>
</tr>
</tbody>
</table>

Appendix B: Participant Access and Eligibility

B-3: Number of Individuals Served (2 of 4)

c. Reserved Waiver Capacity. The State may reserve a portion of the participant capacity of the waiver for specified purposes (e.g., provide for the community transition of institutionalized persons or furnish waiver services to individuals experiencing a crisis) subject to CMS review and approval. The State (select one):

- Not applicable. The state does not reserve capacity.
- The State reserves capacity for the following purpose(s).

Appendix B: Participant Access and Eligibility

B-3: Number of Individuals Served (3 of 4)

d. Scheduled Phase-In or Phase-Out. Within a waiver year, the State may make the number of participants who are served subject to a phase-in or phase-out schedule (select one):

- The waiver is not subject to a phase-in or a phase-out schedule.
- The waiver is subject to a phase-in or phase-out schedule that is included in Attachment #1 to Appendix B-3. This schedule constitutes an intra-year limitation on the number of participants who are served in the waiver.
e. Allocation of Waiver Capacity.

Select one:

- Waiver capacity is allocated/managed on a statewide basis.
- Waiver capacity is allocated to local/regional non-state entities.

Specify: (a) the entities to which waiver capacity is allocated; (b) the methodology that is used to allocate capacity and how often the methodology is reevaluated; and, (c) policies for the reallocation of unused capacity among local/regional non-state entities.

f. Selection of Entrants to the Waiver. Specify the policies that apply to the selection of individuals for entrance to the waiver:

It is the policy of the DOH/DDSD MF Waiver program to consider all applications to the MF Waiver, but only applicants who meet the Pre-Assessment Screening Tool determination and who are deemed potentially eligible are placed on the Central Registry. As stated in Appendix B-1-b, to be eligible for the MF Waiver, an applicant/recipient must meet the level of care required for medical fragility and for admission to an ICF/MR and meet all other applicable financial and non-financial eligibility requirements. Regulations are found at 8.100.130 NMAC and 8.290.400 NMAC.

The process for the selection of entrants to the waiver is:
1. Individual completes and submits an application. At this point, he/she can apply for ICF/MR placement, the MF Waiver or both.
2. If the individual checked the box on the application for the MF Waiver, a pre-assessment determination is completed to make sure the individual has a developmental disability and a medically fragile condition (this is considered a screening and is not determination of eligibility). At this point, level of care is NOT assessed and eligibility is NOT confirmed. If the individual does not have a developmental disability or does not have a medically fragile condition, he/she is referred to a more appropriate resource and closed on the Central Registry. If the individual does have a developmental disability and a medically fragile condition, then he/she is placed on the Central Registry until an opening on the MF Waiver becomes available.
3. Once funding becomes available on the MF Waiver, an allocation letter is sent to the next individual at the top of the Central Registry by date of application. At this point, the individual is offered the choice between the MF Waiver and ICF/MR placement again but also given the choice to select the Mi Via Waiver. If the individual picks Mi Via – the eligibility determination process proceeds according to that Waiver. If the individual picks the MF Waiver, then the eligibility determination process begins for both medical/clinical and financial criteria. Eligibility is not confirmed at this point.
4. For the individual that selects the MF Waiver, the completed LOC packet is submitted to the TPA Contractor for verification of clinical/medical eligibility and the family works with ISD to confirm financial eligibility. Once both are confirmed, the individual is officially eligible - the family and case manager then proceed to the service planning phase.

Appendix B: Participant Access and Eligibility

B-3: Number of Individuals Served - Attachment #1 (4 of 4)

Answers provided in Appendix B-3-d indicate that you do not need to complete this section.

Appendix B: Participant Access and Eligibility

B-4: Eligibility Groups Served in the Waiver

a. 1. State Classification. The State is a (select one):
   - §1634 State
   - SSI Criteria State
209(b) State

2. Miller Trust State.
   Indicate whether the State is a Miller Trust State (select one):
   - No
   - Yes

b. Medicaid Eligibility Groups Served in the Waiver. Individuals who receive services under this waiver are eligible under the following eligibility groups contained in the State plan. The State applies all applicable federal financial participation limits under the plan. Check all that apply:

   Eligibility Groups Served in the Waiver (excluding the special home and community-based waiver group under 42 CFR §435.217)

   - Low income families with children as provided in §1931 of the Act
   - SSI recipients
   - Aged, blind or disabled in 209(b) states who are eligible under 42 CFR §435.121
   - Optional State supplement recipients
   - Optional categorically needy aged and/or disabled individuals who have income at:

   Select one:
   - 100% of the Federal poverty level (FPL)
   - % of FPL, which is lower than 100% of FPL.

   Specify percentage:

   Working individuals with disabilities who buy into Medicaid (BBA working disabled group as provided in §1902(a)(10)(A)(ii)(XIII) of the Act)
   Working individuals with disabilities who buy into Medicaid (TWWIIA Basic Coverage Group as provided in §1902(a)(10)(A)(ii)(XV) of the Act)
   Working individuals with disabilities who buy into Medicaid (TWWIIA Medical Improvement Coverage Group as provided in §1902(a)(10)(A)(ii)(XVI) of the Act)
   Disabled individuals age 18 or younger who would require an institutional level of care (TEFRA 134 eligibility group as provided in §1902(e)(3) of the Act)
   Medically needy in 209(b) States (42 CFR §435.330)
   Medically needy in 1634 States and SSI Criteria States (42 CFR §435.320, §435.322 and §435.324)
   Other specified groups (include only statutory/regulatory reference to reflect the additional groups in the State plan that may receive services under this waiver)

   Specify:

   Special home and community-based waiver group under 42 CFR §435.217) Note: When the special home and community-based waiver group under 42 CFR §435.217 is included, Appendix B-5 must be completed
   - No. The State does not furnish waiver services to individuals in the special home and community-based waiver group under 42 CFR §435.217. Appendix B-5 is not submitted.
   - Yes. The State furnishes waiver services to individuals in the special home and community-based waiver group under 42 CFR §435.217.

   Select one and complete Appendix B-5.
   - All individuals in the special home and community-based waiver group under 42 CFR §435.217
Only the following groups of individuals in the special home and community-based waiver group under 42 CFR §435.217

Check each that applies:

✓ A special income level equal to:

Select one:

- 300% of the SSI Federal Benefit Rate (FBR)
  A percentage of FBR, which is lower than 300% (42 CFR §435.236)

  Specify percentage: __________

  A dollar amount which is lower than 300%.

  Specify dollar amount: __________

Aged, blind and disabled individuals who meet requirements that are more restrictive than the SSI program (42 CFR §435.121)
Medically needy without spenddown in States which also provide Medicaid to recipients of SSI (42 CFR §435.320, §435.322 and §435.324)
Medically needy without spend down in 209(b) States (42 CFR §435.330)
Aged and disabled individuals who have income at:

Select one:

- 100% of FPL
- % of FPL, which is lower than 100%.

  Specify percentage amount: __________

Other specified groups (include only statutory/regulatory reference to reflect the additional groups in the State plan that may receive services under this waiver)

Specify:

Appendix B: Participant Access and Eligibility
B-5: Post-Eligibility Treatment of Income (1 of 7)

In accordance with 42 CFR §441.303(e), Appendix B-5 must be completed when the State furnishes waiver services to individuals in the special home and community-based waiver group under 42 CFR §435.217, as indicated in Appendix B-4. Post-eligibility applies only to the 42 CFR §435.217 group.

a. Use of Spousal Impoverishment Rules. Indicate whether spousal impoverishment rules are used to determine eligibility for the special home and community-based waiver group under 42 CFR §435.217:

Note: For the five-year period beginning January 1, 2014, the following instructions are mandatory. The following box should be checked for all waivers that furnish waiver services to the 42 CFR §435.217 group effective at any point during this time period.

✓ Spousal impoverishment rules under §1924 of the Act are used to determine the eligibility of individuals with a community spouse for the special home and community-based waiver group. In the case of a participant with a community spouse, the State uses spousal post-eligibility rules under §1924 of the Act.
Spousal impoverishment rules under §1924 of the Act are used to determine the eligibility of individuals with a community spouse for the special home and community-based waiver group.

In the case of a participant with a community spouse, the State elects to (select one):

- Use spousal post-eligibility rules under §1924 of the Act.
  (Complete Item B-5-b (SSI State) and Item B-5-d)
- Use regular post-eligibility rules under 42 CFR §435.726 (SSI State) or under §435.735 (209b State)
  (Complete Item B-5-b (SSI State). Do not complete Item B-5-d)
- Spousal impoverishment rules under §1924 of the Act are not used to determine eligibility of individuals with a community spouse for the special home and community-based waiver group. The State uses regular post-eligibility rules for individuals with a community spouse.
  (Complete Item B-5-b (SSI State). Do not complete Item B-5-d)

Appendix B: Participant Access and Eligibility

B-5: Post-Eligibility Treatment of Income (2 of 7)

Note: The following selections apply for the time periods before January 1, 2014 or after December 31, 2018.

b. Regular Post-Eligibility Treatment of Income: SSI State.

The State uses the post-eligibility rules at 42 CFR 435.726 for individuals who do not have a spouse or have a spouse who is not a community spouse as specified in §1924 of the Act. Payment for home and community-based waiver services is reduced by the amount remaining after deducting the following allowances and expenses from the waiver participant’s income:

i. Allowance for the needs of the waiver participant (select one):

   - The following standard included under the State plan

   Select one:

   - SSI standard
   - Optional State supplement standard
   - Medically needy income standard
   - The special income level for institutionalized persons

   (select one):

   - 300% of the SSI Federal Benefit Rate (FBR)
   - A percentage of the FBR, which is less than 300%
     Specify the percentage: ____________
   - A dollar amount which is less than 300%.
     Specify dollar amount: ____________
   - A percentage of the Federal poverty level
     Specify percentage: ____________
   - Other standard included under the State Plan
Specify:

The following dollar amount

Specify dollar amount: If this amount changes, this item will be revised.

• The following formula is used to determine the needs allowance:

Specify:

The maintenance needs allowance is equal to the individual's total income as determined under the post-eligibility process which includes income that is placed in a Miller trust.

Other

Specify:

ii. Allowance for the spouse only (select one):

• Not Applicable

The state provides an allowance for a spouse who does not meet the definition of a community spouse in §1924 of the Act. Describe the circumstances under which this allowance is provided:

Specify:

Specify the amount of the allowance (select one):

• SSI standard
• Optional State supplement standard
• Medically needy income standard
• The following dollar amount:

Specify dollar amount: If this amount changes, this item will be revised.

The amount is determined using the following formula:

Specify:

iii. Allowance for the family (select one):

• Not Applicable (see instructions)
• AFDC need standard
• Medically needy income standard
• The following dollar amount:

Specify dollar amount: The amount specified cannot exceed the higher of the need standard for a family of the same size used to determine eligibility under the State's approved AFDC plan or the
medically needy income standard established under 42 CFR §435.811 for a family of the same size. If this amount changes, this item will be revised.

☐ The amount is determined using the following formula:

Specify:

☐ Other

Specify:

iv. Amounts for incurred medical or remedial care expenses not subject to payment by a third party, specified in 42 §CFR 435.726:

a. Health insurance premiums, deductibles and co-insurance charges
b. Necessary medical or remedial care expenses recognized under State law but not covered under the State's Medicaid plan, subject to reasonable limits that the State may establish on the amounts of these expenses.

Select one:

☐ Not Applicable (see instructions) Note: If the State protects the maximum amount for the waiver participant, not applicable must be selected.

☐ The State does not establish reasonable limits.

☐ The State establishes the following reasonable limits

Specify:

Appendix B: Participant Access and Eligibility

B-5: Post-Eligibility Treatment of Income (3 of 7)

Note: The following selections apply for the time periods before January 1, 2014 or after December 31, 2018.

c. Regular Post-Eligibility Treatment of Income: 209(B) State.

Answers provided in Appendix B-4 indicate that you do not need to complete this section and therefore this section is not visible.

Appendix B: Participant Access and Eligibility

B-5: Post-Eligibility Treatment of Income (4 of 7)

Note: The following selections apply for the time periods before January 1, 2014 or after December 31, 2018.

d. Post-Eligibility Treatment of Income Using Spousal Impoverishment Rules

The State uses the post-eligibility rules of §1924(d) of the Act (spousal impoverishment protection) to determine the contribution of a participant with a community spouse toward the cost of home and community-based care if it determines the individual's eligibility under §1924 of the Act. There is deducted from the participant's monthly income a personal needs allowance (as specified below), a community spouse's allowance and a family allowance as
specified in the State Medicaid Plan. The State must also protect amounts for incurred expenses for medical or remedial care (as specified below).

i. Allowance for the personal needs of the waiver participant

(select one):
- SSI standard
- Optional State supplement standard
- Medically needy income standard
- The special income level for institutionalized persons
- A percentage of the Federal poverty level

Specify percentage: 

The following dollar amount:

Specify dollar amount: 
If this amount changes, this item will be revised

* The following formula is used to determine the needs allowance:

Specify formula:

The maintenance needs allowance is equal to the individual’s total income as determined under the post-eligibility process which includes income that is placed in a Miller trust.

Other

Specify:

ii. If the allowance for the personal needs of a waiver participant with a community spouse is different from the amount used for the individual’s maintenance allowance under 42 CFR §435.726 or 42 CFR §435.735, explain why this amount is reasonable to meet the individual’s maintenance needs in the community.

Select one:

* Allowance is the same
- Allowance is different.

Explanation of difference:

iii. Amounts for incurred medical or remedial care expenses not subject to payment by a third party, specified in 42 CFR §435.726:

a. Health insurance premiums, deductibles and co-insurance charges
b. Necessary medical or remedial care expenses recognized under State law but not covered under the State’s Medicaid plan, subject to reasonable limits that the State may establish on the amounts of these expenses.

Select one:

* Not Applicable (see instructions) Note: If the State protects the maximum amount for the waiver participant, not applicable must be selected.
The State does not establish reasonable limits.
The State uses the same reasonable limits as are used for regular (non-spousal) post-eligibility.

Appendix B: Participant Access and Eligibility

B-5: Post-Eligibility Treatment of Income (5 of 7)

Note: The following selections apply for the five-year period beginning January 1, 2014.

Answers provided in Appendix B-5-a indicate the selections in B-5-b also apply to B-5-e.

Appendix B: Participant Access and Eligibility

B-5: Post-Eligibility Treatment of Income (6 of 7)

Note: The following selections apply for the five-year period beginning January 1, 2014.

Answers provided in Appendix B-4 indicate that you do not need to complete this section and therefore this section is not visible.

Appendix B: Participant Access and Eligibility

B-5: Post-Eligibility Treatment of Income (7 of 7)

Note: The following selections apply for the five-year period beginning January 1, 2014.

The State uses the post-eligibility rules of §1924(d) of the Act (spousal impoverishment protection) to determine the contribution of a participant with a community spouse toward the cost of home and community-based care. There is deducted from the participant's monthly income a personal needs allowance (as specified below), a community spouse's allowance and a family allowance as specified in the State Medicaid Plan. The State must also protect amounts for incurred expenses for medical or remedial care (as specified below).

Answers provided in Appendix B-5-a indicate the selections in B-5-d also apply to B-5-g.

Appendix B: Participant Access and Eligibility

B-6: Evaluation/Reevaluation of Level of Care

As specified in 42 CFR §441.302(c), the State provides for an evaluation (and periodic reevaluations) of the need for the level(s) of care specified for this waiver, when there is a reasonable indication that an individual may need such services in the near future (one month or less), but for the availability of home and community-based waiver services.

a. Reasonable Indication of Need for Services. In order for an individual to be determined to need waiver services, an individual must require: (a) the provision of at least one waiver service, as documented in the service plan, and (b) the provision of waiver services at least monthly or, if the need for services is less than monthly, the participant requires regular monthly monitoring which must be documented in the service plan. Specify the State's policies concerning the reasonable indication of the need for services:

i. Minimum number of services.

The minimum number of waiver services (one or more) that an individual must require in order to be determined to need waiver services is: 1

ii. Frequency of services. The State requires (select one):
b. Responsibility for Performing Evaluations and Reevaluations. Level of care evaluations and reevaluations are performed (select one):

- Directly by the Medicaid agency
- By the operating agency specified in Appendix A
- By an entity under contract with the Medicaid agency.

Specify the entity:

Evaluations and reevaluations are performed by the TPA Contractor. HSD/MAD establishes or approves the TPA Contractor’s scope of work including forms, tools, processes, criteria, updates to criteria, as appropriate, and timeframes to be used. HSD/MAD provides oversight for the level of care (LOC) process through a variety of contract management responsibilities.

- Other
  Specify:

c. Qualifications of Individuals Performing Initial Evaluation: Per 42 CFR §441.303(c)(1), specify the educational/professional qualifications of individuals who perform the initial evaluation of level of care for waiver applicants:

The educational/professional qualifications of persons performing initial evaluations of LOC for MF Waiver applicants include licensed physicians, physician assistants, clinical nurse practitioners, and registered nurses. If a registered nurse completes the Medically Fragile Long-Term Care Assessment Abstract (DOH 378), then a licensed physician, physician assistant or clinical nurse practitioner is required to review and sign upon approval.

d. Level of Care Criteria. Fully specify the level of care criteria that are used to evaluate and reevaluate whether an individual needs services through the waiver and that serve as the basis of the State's level of care instrument/tool. Specify the level of care instrument/tool that is employed. State laws, regulations, and policies concerning level of care criteria and the level of care instrument/tool are available to CMS upon request through the Medicaid agency or the operating agency (if applicable), including the instrument/tool utilized.

The ICF/IID LOC criteria are consistent with CFR 435.1009. The Medically Fragile Long-Term Care Assessment Abstract (LTCAA-DOH 378) includes not only the ICF/MR eligibility criteria but also the criteria for medical fragility, as measured in the LOC determination. To be eligible for the MF Waiver program, participants must meet both the ICF/IID LOC criteria and the medical fragility criteria. The nurse reviewer applies the information derived from the assessment instrument against the ICF/IID LOC.

The ICF/MR LOC criteria is comprised of these factors:
- Sensory Motor Development:
- Mobility Capacity for mobility appropriate to the participants developmental age; not limited to ambulation.
- Toileting Ability of participant to toilet him/herself appropriate to his/her developmental age.
- Hygiene Ability to perform hygiene skills appropriate to his/her developmental age.
- Dressing Ability to dress him/herself appropriate to his/her developmental age.

- Affective Development: Ability to express his/her emotions.

- Speech & Language Development:
- Expressive Ability of participant to communicate with others appropriate to his/her developmental age
- Receptive Ability to comprehend what is said to him/her appropriate to his/her developmental age

https://wms-mmdl.cdsved.com/WMS/faces/protected/35/print/PrintSelector.jsp
Auditory Functioning: Ability to hear and/or benefit from a hearing device.

Cognitive Development: Ability to reason, remember, problem solve or transfer skills.

Social Development:
Interpersonal Ability to establish relationships.
Social Participation Ability to participate in social and recreational activities.

Independent Living Skills:
Interpersonal Ability to perform household skills.
Community Skills Ability to participate in community activities utilizing skills such as street survival, money exchange, ordering in restaurants, running errands and attending recreational events.

Adaptive Behaviors:
Harmful Behaviors Behaviors the participant exhibits that are harmful to him/herself or others and require staff intervention.
Disruptive Behaviors Behaviors the participant exhibits that are disruptive to others and require staff intervention. Socially Unacceptable, Stereotypic Behaviors Socially unacceptable behaviors the participant exhibits such as inappropriate touching, fondling or masturbation, inappropriate kissing, licking, squeezing or hugging others, talking to close to other faces, directing profane, hostile language at others, refusing to wear clothing or object attachment.
Uncooperative Behaviors Uncooperative behaviors the participant exhibits which require staff intervention.

e. Level of Care Instrument(s). Per 42 CFR §441.303(c)(2), indicate whether the instrument/tool used to evaluate level of care for the waiver differs from the instrument/tool used to evaluate institutional level of care (select one):
   - The same instrument is used in determining the level of care for the waiver and for institutional care under the State Plan.
   - A different instrument is used to determine the level of care for the waiver than for institutional care under the State plan.

Describe how and why this instrument differs from the form used to evaluate institutional level of care and explain how the outcome of the determination is reliable, valid, and fully comparable.

f. Process for Level of Care Evaluation/Reevaluation: Per 42 CFR §441.303(c)(1), describe the process for evaluating waiver applicants for their need for the level of care under the waiver. If the reevaluation process differs from the evaluation process, describe the differences:

The Medically Fragile Case Manager (MFCM) is a registered nurse who initiates the Level of Care (LOC) evaluation packet consisting of a Comprehensive Individual Assessment (CIA), the Medically Fragile Long-Term Care Assessment Abstract (LTCAA-DOH 378), History and Physical (H&P) and medical documentation. The LOC process begins when a MFCM meets with the participant/participant representative to obtain medical, functional, social and developmental information for the CIA. The MFCM is responsible for obtaining a H&P from the primary care physician (PCP). The Human Services Division (HSD) notifies the participant/participant representative to set up an interview for determination of financial eligibility. Once all steps as stated above have been completed and documents obtained, the Abstract is completed using the following tools:

   - Medically Fragile Long-Term Care Assessment Abstract (Form DOH 378)
   - Instructions for Completing the Medically Fragile Long-Term Care Assessment Abstract (Form DOH 378);
   - Comprehensive Individual Assessment/Family-Centered Review (CIA); and
   - Medically Fragile Criteria used to determine medical eligibility.

The Abstract along with the current H&P and CIA are compiled in a formal packet that is submitted for internal review at the case management agency. The case management agency reviews and sends the packet to the TPA Contractor for LOC determination. The TPA Contractor is responsible for providing written notification to the case management agency of its determination. If there is a denial or reduction in LOC, the letter would include an appeal process. The case management agency is responsible for notifying the participant/participant representative of the LOC determination.

The participant/participant representative completes the financial eligibility with HSD. Upon receipt of LOC
approval and confirmation of financial eligibility, the process for development and implementation of an Individual Service Plan (ISP) begins.

The reevaluation process is the same as the initial evaluation process.

g. **Reevaluation Schedule.** Per 42 CFR §441.303(c)(4), reevaluations of the level of care required by a participant are conducted no less frequently than annually according to the following schedule (select one):

- Every three months
- Every six months
- Every twelve months
- Other schedule
  Specify the other schedule:

h. **Qualifications of Individuals Who Perform Reevaluations.** Specify the qualifications of individuals who perform reevaluations (select one):

- The qualifications of individuals who perform reevaluations are the same as individuals who perform initial evaluations.
- The qualifications are different.
  Specify the qualifications:

i. **Procedures to Ensure Timely Reevaluations.** Per 42 CFR §441.303(c)(4), specify the procedures that the State employs to ensure timely reevaluations of level of care (specify):

The TPA Contractor uses a report tracking system to ensure that LOC reevaluations are completed on an annual basis and according to the timeliness requirements. Report tracking is done via a database system. The TPA Contractor enters all pertinent dates into the database that applies to any date specific requirement. This system triggers when notifications are to be sent out as well as the date the notification is sent out to ensure timely notifications. As part of its TPA contract compliance review, HSD monitors LOC reevaluations and medical eligibility decisions for timeliness of LOC reviews via various compliance timelines.

j. **Maintenance of Evaluation/Reevaluation Records.** Per 42 CFR §441.303(c)(3), the State assures that written and/or electronically retrievable documentation of all evaluations and reevaluations are maintained for a minimum period of 3 years as required in 45 CFR §92.42. Specify the location(s) where records of evaluations and reevaluations of level of care are maintained:

LOC evaluation and reevaluation records are maintained at the office of the TPA Contractor for ten (10) years. Duplicate evaluation and reevaluation records are maintained at the office of the case management agency for ten (10) years or a period of seven (7) years after the person reaches the age of maturity (21), whichever period of time is greater.

**Appendix B: Evaluation/Reevaluation of Level of Care**

**Quality Improvement: Level of Care**

*As a distinct component of the State’s quality improvement strategy, provide information in the following fields to detail the State’s methods for discovery and remediation.*

**a. Methods for Discovery: Level of Care Assurance/Sub-assurances**

*The state demonstrates that it implements the processes and instrument(s) specified in its approved waiver for evaluating/reevaluating an applicant's/waiver participant's level of care consistent with level of care provided in a hospital, NF or ICF/IID.*

i. **Sub-Assurances:**
a. **Sub-assurance:** An evaluation for LOC is provided to all applicants for whom there is reasonable indication that services may be needed in the future.

**Performance Measures**

For each performance measure the State will use to assess compliance with the statutory assurance (or sub-assurance), complete the following. Where possible, include numerator/denominator.

For each performance measure, provide information on the aggregated data that will enable the State to analyze and assess progress toward the performance measure. In this section provide information on the method by which each source of data is analyzed statistically/deductively or inductively, how themes are identified or conclusions drawn, and how recommendations are formulated, where appropriate.

**Performance Measure:**
The percentage of new MF Waiver applicants with completed LOC evaluations.
Numerator: Number of LOC evaluations performed. Denominator: Number of new waiver applicants.

**Data Source (Select one):**
Other
If 'Other' is selected, specify:

b. Sub-assurance: The levels of care of enrolled participants are reevaluated at least annually or as specified in the approved waiver.

Performance Measures

For each performance measure the State will use to assess compliance with the statutory assurance (or sub-assurance), complete the following. Where possible, include numerator/denominator.

For each performance measure, provide information on the aggregated data that will enable the State to analyze and assess progress toward the performance measure. In this section provide information on the method by which each source of data is analyzed statistically/deductively or inductively, how themes are identified or conclusions drawn, and how recommendations are formulated, where appropriate.

Performance Measure:
The percentage of waiver participants with at least 12 months continuous enrollment who have received LOC reevaluations. Numerator: Number of annual LOC reevaluations performed. Denominator: Number of waiver participants with continuous enrollment of at least 12 months.

ii. If applicable, in the textbox below provide any necessary additional information on the strategies employed by the State to discover/identify problems/issues within the waiver program, including frequency and parties responsible.
Formal quality improvement processes are in place, as described in detail in the DDSQI Steering Committee description and structure in Appendix H.

b. Methods for Remediation/Fixing Individual Problems
i. Describe the State’s method for addressing individual problems as they are discovered. Include information regarding responsible parties and GENERAL methods for problem correction. In addition, provide information on the methods used by the State to document these items.
Remediation and improvement strategies vary, based on the findings. When problems and areas for improvement related to LOC are identified by HSD/MAD, processes are in place to ensure that appropriate and timely action is taken. In addition, the DDSQI Steering Committee routinely collects, aggregates, analyzes, and trends LOC data, as described in Appendix H. Irregularities and/or areas of concern are discussed and remediation strategies are developed.

Methods for fixing identified problems include verbal direction, letters of direction, and formal corrective action plans; documentation is kept on all actions taken. In some instances, policy and/or regulatory changes are required. In all cases, if DOH identifies at any time any issues that are inconsistent with Medicaid requirements related to LOC, HSD/MAD ensures that the problem is corrected and that compliance with the Assurance is met.

ii. Remediation Data Aggregation

Specify: Additional data collection, analysis, and aggregation will be done, as necessary, to address unusual or urgent issues that may arise.

c. Timelines
When the State does not have all elements of the Quality Improvement Strategy in place, provide timelines to design methods for discovery and remediation related to the assurance of Level of Care that are currently non-operational.

- No
- Yes

Please provide a detailed strategy for assuring Level of Care, the specific timeline for implementing identified strategies, and the parties responsible for its operation.

Appendix B: Participant Access and Eligibility

B-7: Freedom of Choice

**Freedom of Choice.** As provided in 42 CFR §441.302(d), when an individual is determined to be likely to require a level of care for this waiver, the individual or his or her legal representative is:

i. informed of any feasible alternatives under the waiver; and

ii. given the choice of either institutional or home and community-based services.

**a. Procedures.** Specify the State's procedures for informing eligible individuals (or their legal representatives) of the feasible alternatives available under the waiver and allowing these individuals to choose either institutional or waiver services. Identify the form(s) that are employed to document freedom of choice. The form or forms are available to CMS upon request through the Medicaid agency or the operating agency (if applicable).

The applicant is offered freedom of choice with the initial contact at the time of allocation. The MF Waiver Manager sends out the Letter of Interest which includes a Primary Freedom of Choice (PFOC) form for the applicant to complete and return. The applicant is provided information about the services that are available under the waiver and that prior to enrollment into the waiver program, he/she has a choice of home and community-based services (HCBS) and institutional services - Intermediate Care Facility for the Mentally Retarded (ICF/IID). If the applicant chooses HCBS, then the applicant is given a choice between the MF Waiver or the Mi Via Self-Directed Waiver.

After the individual is confirmed to be eligible for the MF Waiver, the participant/participant representative meets with the Case Manager who explains, orally and in writing, about the available MF Waiver services and various other options. The participant/participant representative is given a Family Handbook that contains information about MF Waiver services, all other waivers, and ICF/MR placement. The participant/participant representative is informed by the Case Manager, orally and in writing, of the available MF Waiver services in order to make an informed choice of services.

Upon selection of the requested MF Waiver services and prior to the Interdisciplinary Team (IDT) meeting, the participant/participant representative is encouraged to contact the agencies and interview potential providers of these services. Once the participant/participant representative selects waiver services and providers, he/she signs the Secondary Freedom of Choice (SFOC) form for each waiver service that has been selected. The SFOC form includes notification to the participant regarding his/her free choice of providers and only lists the approved MF Waiver agencies for each service.

**b. Maintenance of Forms.** Per 45 CFR §92.42, written copies or electronically retrievable facsimiles of Freedom of Choice forms are maintained for a minimum of three years. Specify the locations where copies of these forms are maintained.

Records of freedom of choice are maintained by the Medically Fragile Case Management Program (MFCMP) agency that is located at the Center for Development and Disability at the University of New Mexico (UNM) in the participant's file and are available to the State upon request. These records are maintained by the case management agency for a period of ten (10) years, or for seven (7) years after the person reaches the age of maturity (21), whichever period of time is greater.

Appendix B: Participant Access and Eligibility

B-8: Access to Services by Limited English Proficiency Persons
Access to Services by Limited English Proficient Persons. Specify the methods that the State uses to provide meaningful access to the waiver by Limited English Proficient persons in accordance with the Department of Health and Human Services "Guidance to Federal Financial Assistance Recipients Regarding Title VI Prohibition Against National Origin Discrimination Affecting Limited English Proficient Persons" (68 FR 47311 - August 8, 2003):

Informational materials are available in English and Spanish. Spanish-speaking individuals are available at the HSD/ISD offices and at HSD and DOH statewide toll-free numbers. Statewide disability resource agencies, such as the Governor's Commission on Disabilities, and New Mexicans with Disabilities Information Center, have bi-lingual staff available. The provider agencies are required to communicate in the language that is functionally required by the participant.

Informational materials will be translated into the prevalent non-English language. The State defines prevalent non-English language as the language spoken by approximately 5 percent (%) or more of the participant population.

Appendix C: Participant Services

Appendix C: Participant Services

C-1/C-3: Service Specification

State laws, regulations and policies referenced in the specification are readily available to CMS upon request through the Medicaid agency or the operating agency (if applicable).

Service Type:
- Statutory Service

Service:
- Case Management

Alternate Service Title (if any):

HCBS Taxonomy:

Category 1:                               Sub-Category 1:

Category 2:                               Sub-Category 2:
Category 3: 

Sub-Category 3:

Category 4: 

Sub-Category 4:

Complete this part for a renewal application or a new waiver that replaces an existing waiver. Select one:

- Service is included in approved waiver. There is no change in service specifications.
- Service is included in approved waiver. The service specifications have been modified.
- Service is not included in the approved waiver.

Service Definition (Scope):
Case Management services assist participants in gaining access to needed waiver and other State Plan services, as well as medical, social, educational and other services, regardless of the funding source for the services. Case Management serves as a means for achieving participant wellness and autonomy through advocacy, communication, education, identification of service resources and service facilitation. Case Management services are best offered in a climate that allows direct communication between the case manager, the participant, the family and appropriate service personnel, in order to optimize the outcome for all concerned.

The Case Manager is responsible for the initial evaluation and reevaluations. The Case Manager helps identify appropriate providers and facilities throughout the continuum of services, while ensuring that available resources are being used in a timely and cost-effective manner in order to obtain value for both the participant and the reimbursement source. The Case Manager monitors, reports and participates, as appropriate, in modifying service delivery when indicated. At least every other month, the Case Manager conducts a face-to-face contact with the participant and on a monthly basis conducts a telephonic or electronic contact with the participant and/or the participant’s representative.

Case Management services include:
- Identifying medical, social, educational, family and community support resources;
- Scheduling and coordinating timely Interdisciplinary Team (IDT) meetings to develop and modify the Individual Service Plan (ISP) annually and as needed by any team member;
- Documenting contacts with the participant and providers responsible for delivery of services to the participant;
- Verifying eligibility on an annual basis;
- Ensuring the Medically Fragile Long-Term Care Assessment Abstract (LTCAA) is completed and signed by the physician, physician assistant or clinical nurse practitioner (CNP);
- Timely submission of the level of care (LOC) packet including the LTCAA to the TPA Contractor for prior authorization;
- Ensuring the Waiver Review Form (MAD 046) is submitted, timely, annually and as needed;
- Initiating an ongoing monitoring process that provides for evaluation of delivery, effectiveness, appropriateness of services and support provided to the participant as identified in the ISP;
- Performing an annual participant satisfaction survey; and
- Coordinating services provided though the MF Waiver and other sources (State Plan, Family Infant Toddler (FIT), Commercial Insurance, Educational and Community).

Specify applicable (if any) limits on the amount, frequency, or duration of this service:

- Service is included in approved waiver. There is no change in service specifications.
- Service is included in approved waiver. The service specifications have been modified.
- Service is not included in the approved waiver.

Service Definition (Scope):
Home Health Aide services provide total care or assist a participant in all activities of daily living. Total care is defined as: the provision of bathing (bed, sponge, tub, or shower), shampoo (sink, tub, or bed), care of nails and skin, oral hygiene, toileting and elimination, safe transfer techniques and ambulation, normal range of motion and positioning, adequate oral nutrition and fluid intake. The Home Health Aide services assist the participant in a manner that promotes an improved quality of life and a safe environment for the participant. Home Health Aide services can be provided outside the participant's home. State Plan Home Health Aide services are intermittent and provided primarily on a short-term basis; whereas, in the MF Waiver, Home Health Aide services are provided hourly, for participants who need this service on a more long-term basis. Home Health Aides may provide basic non-invasive nursing assistant skills within the scope of their practice. Home Health Aides perform an extension of therapy services, bowel and bladder care, ostomy site care, personal care, ambulation and exercise, household services essential to health care at home, assisting with medications that are normally self-administered, reporting changes in patient conditions and needs, and completing appropriate records.

Home Health Aide services are covered under the State Plan as expanded EPSDT benefits for waiver participants under the age of 21.

Specify applicable (if any) limits on the amount, frequency, or duration of this service:

**HCBS Taxonomy:**

Category 1:  Sub-Category 1:

Category 2:  Sub-Category 2:

Category 3:  Sub-Category 3:

Category 4:  Sub-Category 4:

Complete this part for a renewal application or a new waiver that replaces an existing waiver. Select one:

- Service is included in approved waiver. There is no change in service specifications.
- Service is included in approved waiver. The service specifications have been modified.
- Service is not included in the approved waiver.

Service Definition (Scope):
Respite services are provided to participants unable to care for themselves that are furnished on a short-term basis to allow the primary caregiver a limited leave of absence in order to reduce stress, accommodate caregiver illness, or meet a sudden family crisis or emergency. By permitting the caregiver a specific and limited break from the daily routine of providing care, burnout is avoided and the primary caregiver receives a source of support and encouragement to continue home care services.

Respite may be provided in the following locations: participant’s home or private place of residence, the private residence of a respite care provider, specialized foster care home. The participant and/or participant representative has the option and gives final approval of where the respite services are provided. The agency(s) are required to coordinate all services with the participant and/or the participant representative.

Respite services include: medical and non-medical health care; personal care bathing; showering; skin care; grooming; oral hygiene; bowel and bladder care; catheter and supra-pubic catheter care; preparing or assisting in preparation of meals and eating; as appropriate, administering enteral feedings; providing home management skills; changing linen; making beds; washing dishes; shopping; errands; and calls for maintenance; assisting with enhancing self-help skills; promoting use of appropriate interpersonal communication skills and language; working independently without constant supervision/observation; providing body positioning, ambulation and transfer skills; arranging for transportation to medical or therapy services; assisting in arranging health care needs and follow-up as directed by the primary care giver, physician, and case manager; ensuring the health and safety of the recipient at all times.

Specify applicable (if any) limits on the amount, frequency, or duration of this service:
Respite services are furnished up to a maximum of fourteen (14) days or 336 hours per annualized budget.

Service Delivery Method (check each that applies):

Extended State Plan Service □

Service Title:
Nutritional Counseling

HCBS Taxonomy:

Category 1:
Sub-Category 1:

Category 2:
Sub-Category 2:

Category 3:
Sub-Category 3:

Category 4:
Sub-Category 4:

Complete this part for a renewal application or a new waiver that replaces an existing waiver. Select one:

- Service is included in approved waiver. There is no change in service specifications.
- Service is included in approved waiver. The service specifications have been modified.
- Service is not included in the approved waiver.

Service Definition (Scope):
Nutritional Counseling is designed to meet the unique food and nutrition requirements of participants with developmental disabilities and/or chronic conditions(s) which allow them to be eligible for the MF Waiver. These Nutritional Counseling services differ from the State Plan nutritional assessment and counseling services in that the State Plan service is limited to pregnant women and children under 21 years of age who are receiving EPSDT services. Under the State Plan, these services must be provided under the direction of a physician.
Services covered by this waiver are provided to participants who do not fall within the scope of State Plan coverage and who may require nutritional counseling, with specific illnesses such as: failure to thrive; gastroesophageal reflux; dysmotility of the esophagus and stomach; or who require specialized formulas, or receive tube feedings or parenteral nutrition. These services can be delivered in the home.

The MF Waiver includes assessment of the participant’s nutritional needs, regimen development, and/or revisions of the participant’s nutritional plan, counseling and nutritional intervention and observation and technical assistance related to implementation of the nutritional plan. These services advise and help participants obtain appropriate nutritional intake by integrating information from the nutritional assessment with information on food, other sources of nutrients, and meal preparation consistent with cultural backgrounds and socioeconomic status.

Specify applicable (if any) limits on the amount, frequency, or duration of this service:

Service Title:
Skilled Therapy for Adults

HCBS Taxonomy:

Category 1: Sub-Category 1:

Category 2: Sub-Category 2:

Category 3: Sub-Category 3:

Category 4: Sub-Category 4:

Complete this part for a renewal application or a new waiver that replaces an existing waiver. Select one:
- Service is included in approved waiver. There is no change in service specifications.
- Service is included in approved waiver. The service specifications have been modified.
- Service is not included in the approved waiver.

Service Definition (Scope):
Skilled therapy services include Physical Therapy, Occupational Therapy or Speech and Language Therapy. Adults access therapy services under the State Plan for acute and temporary conditions that are expected to improve significantly in a reasonable and generally predictable period of time. Waiver services are provided when the limits of State Plan skilled therapy services are exhausted. The scope and nature of these services do not otherwise differ from the services furnished under the State Plan.

Skilled Maintenance Therapy services specifically include:
Physical Therapy: Physical Therapy services promote gross/fine motor skills, facilitate independent functioning and/or prevent progressive disabilities. Specific services may include: professional assessment(s), evaluation(s) and monitoring for therapeutic purposes; physical therapy treatments and interventions; training regarding physical therapy activities, use of equipment and technologies or any other aspect of the individual’s physical therapy services; designing, modifying or monitoring use of related environmental modifications; designing, modifying, and monitoring use of related activities supportive to the ISP goals and objectives; and consulting or collaborating with other service providers or family members, as directed by the participant.
Occupational Therapy: Occupational Therapy Services promote fine motor skills, coordination, sensory integration, and/or facilitate the use of adaptive equipment or other assistive technology. Specific services may include: teaching of daily living skills; development of perceptual motor skills and sensory integrative functioning; design, fabrication, or modification of assistive technology or adaptive devices; provision of assistive technology services; design, fabrication, or applying selected orthotic or prosthetic devices or selecting adaptive equipment; use of specifically designed crafts and exercise to enhance function; training regarding occupational therapy activities; and consulting or collaborating with other service providers or family members, as directed by the participant.

Speech Language Therapy: Speech Language Therapy services preserve abilities for independent function in communication; facilitate oral motor and swallowing function; facilitate use of assistive technology, and/or prevent progressive disabilities. Specific services may include: identification of communicative or oropharyngeal disorders and delays in the development of communication skills; prevention of communicative or oropharyngeal disorders and delays in the development of communication skills; development of eating or swallowing plans and monitoring their effectiveness; use of specifically designed equipment, tools, and exercises to enhance function; design, fabrication, or modification of assistive technology or adaptive devices; provision of assistive technology services; adaptation of the participant’s environment to meet his/her needs; training regarding speech language therapy activities; and consulting or collaborating with other service providers or family members, as directed by the participant.

Skilled Therapy services are covered under the State Plan as expanded EPSDT benefits for waiver participants under the age of 21.

- Service is included in approved waiver. There is no change in service specifications.
- Service is included in approved waiver. The service specifications have been modified.
- Service is not included in the approved waiver.

Service Definition (Scope):
Behavior Support Consultation is the provision of assessment, treatment, evaluation and follow-up services to assist the participant, parents, family members and/or primary caregivers with coping skills which promote maintaining the participant in a home environment. Behavior Support Consultation: 1) informs and guides the participant's providers with the services and supports as they relate to the participant's behavior and his/her medically fragile condition; 2) identifies support strategies to ameliorate contributing factors with the intention of enhancing functional capacities, adding to the provider's competency to predict, prevent and respond to interfering behavior and potentially reducing interfering behavior(s); 3) supports effective implementation based on a functional assessment; 4) collaborates with medical and ancillary therapies to promote coherent and coordinated services addressing behavioral issues and to limit the need for psychotherapeutic medications; and 5) monitors and adapts support strategies based on the response of the participant and his/her service and support providers. Based on the participant's ISP, services are delivered in an integrated/natural setting or in a clinical setting.

Specify applicable (if any) limits on the amount, frequency, or duration of this service:
Service Delivery Method (check each that applies):

- Participant-directed as specified in Appendix E
- Provider managed

Specify whether the service may be provided by (check each that applies):

Provider Category:
Agency

Provider Type:
Behavioral Support Consultant Agency

Provider Qualifications

License (specify):
Licensure: A mental health professional that wants to provide BSC services must possess one of the following licenses approved by a New Mexico licensing board:
- Psychiatrist; Clinical Psychologist; Independent Social Worker (LISW);
- Professional Clinical Mental Health Counselor (LPCC);
- Professional Art Therapist (LPAT);
- Marriage and Family Therapist (LMFT);
- Mental Health Counselor (LMHC);
- Master Social Worker (LMSW);
- Psychiatric Nurse; or Psychologist Associate (PA).

Certificate (specify):

Other Standard (specify):
Behavior Support Consultation may be provided through a corporation, partnership or sole proprietor. Regardless of whether a corporation, partnership or sole proprietor the agency must assure that all direct services are provided by individuals who meet the following qualifications, whether working as an owner, employee or subcontractor. All Behavioral Support Consultant agencies must be approved MF Waiver providers through the Provider Enrollment process carried out jointly by DOH and HSD. Providers of Behavior Support Consultation must have a minimum of one year of experience working with medical fragility or developmental disabilities. All Behavior Support Consultants must maintain current New Mexico licensure with their professional field licensing body.

C-1/C-3: Service Specification

State laws, regulations and policies referenced in the specification are readily available to CMS upon request through the Medicaid agency or the operating agency (if applicable).

**Service Type:**

Other Service

As provided in 42 CFR §440.180(b)(9), the State requests the authority to provide the following additional service not specified in statute.

**Service Title:**

Private Duty Nursing

**HCBS Taxonomy:**

**Category 1:**

**Sub-Category 1:**

**Category 2:**

**Sub-Category 2:**

**Category 3:**

**Sub-Category 3:**

**Category 4:**

**Sub-Category 4:**

Complete this part for a renewal application or a new waiver that replaces an existing waiver. Select one:

- Service is included in approved waiver. There is no change in service specifications.
- Service is included in approved waiver. The service specifications have been modified.
- Service is not included in the approved waiver.

**Service Definition (Scope):**

Private Duty Nursing is the provision of nursing services on a continuous or full-time basis, as defined in 42 CFR 440.80, and provided by licensed nurses within the scope of State law. Private Duty Nursing services are provided to a participant at home and include activities, procedures, and treatment for a physical condition, physical illness, or chronic disability. Services include medication management; administration and teaching; aspiration precautions; feeding tube management; gastrostomy and jejunostomy; skin care; weight management; urinary catheter management; bowel and bladder care; wound care; health education; health screening; infection control; environmental management for safety; nutrition management; oxygen management; seizure management and precautions; anxiety reduction; staff supervision; and behavior and self-care assistance.

Private Duty Nursing services are covered under the State Plan as expanded EPSDT benefits for waiver participants under the age of 21.

Specify applicable (if any) limits on the amount, frequency, or duration of this service:

Complete this part for a renewal application or a new waiver that replaces an existing waiver. Select one:

- Service is included in approved waiver. There is no change in service specifications.
- Service is included in approved waiver. The service specifications have been modified.
- Service is not included in the approved waiver.

Service Definition (Scope):
Specialized Medical Equipment and Supplies include: (a) devices, controls or appliances specified in the plan of care that enable participants to increase their ability to perform activities of daily living; (b) devices, controls, or appliances that enable the participant to perceive, control, or communicate with the environment in which they live; (c) items necessary for life support or to address physical conditions along with ancillary supplies and equipment necessary to the proper functioning of such items; (d) such other durable and non-durable medical equipment not available under the State Plan that is necessary to address participant functional limitations; and (e) necessary medical supplies not available under the State Plan. Items reimbursed with waiver funds are in addition to any medical equipment and supplies furnished under the State Plan and exclude those items that are not of direct medical or remedial benefit to the participant. The costs of maintenance and upkeep of equipment are included in the cost of equipment and supplies. All items shall meet applicable standards of manufacture, design, and installation. Medical equipment and supplies that are furnished by the State Plan are not covered in the Specialized Medical Equipment and Supplies. This service does not include nutritional or dietary supplements, disposable diapers or bed pads, or disposable wipes.

Specify applicable (if any) limits on the amount, frequency, or duration of this service:
Limited to $1,000 per ISP year

Appendix C: Participant Services

C-1: Summary of Services Covered (2 of 2)

b. Provision of Case Management Services to Waiver Participants. Indicate how case management is furnished to waiver participants (select one):

- Not applicable - Case management is not furnished as a distinct activity to waiver participants.
- Applicable - Case management is furnished as a distinct activity to waiver participants.

Check each that applies:

☑ As a waiver service defined in Appendix C-3. Do not complete item C-1-c.
☐ As a Medicaid State plan service under §1915(i) of the Act (HCBS as a State Plan Option). Complete item C-1-c.
☐ As a Medicaid State plan service under §1915(g)(1) of the Act (Targeted Case Management).
Complete item C-1-c.
☐ As an administrative activity. Complete item C-1-c.

c. Delivery of Case Management Services. Specify the entity or entities that conduct case management functions on behalf of waiver participants:
Appendix C: Participant Services

C-2: General Service Specifications (1 of 3)

a. Criminal History and/or Background Investigations. Specify the State's policies concerning the conduct of criminal history and/or background investigations of individuals who provide waiver services (select one):

- No. Criminal history and/or background investigations are not required.
- Yes. Criminal history and/or background investigations are required.

Specify: (a) the types of positions (e.g., personal assistants, attendants) for which such investigations must be conducted; (b) the scope of such investigations (e.g., state, national); and, (c) the process for ensuring that mandatory investigations have been conducted. State laws, regulations and policies referenced in this description are available to CMS upon request through the Medicaid or the operating agency (if applicable):

The Department of Health (DOH) Caregivers Criminal History Screening (CCHS) Act requires that persons whose employment or contractual service includes direct care or routine and unsupervised physical or financial access to any care recipient served by that provider, must consent to a nationwide and statewide criminal history screening to ensure to the highest degree possible the prevention of abuse, neglect, or financial exploitation of individuals receiving services. This requirement does not pertain to independent health care professionals, licensed or Medicaid-certified in good standing, who are not otherwise associated with the care provider as an administrator, operator, or employee, and who are involved in the treatment or management of the medical care of a care recipient such as attending or treating physicians or other health care professionals providing consultation or ancillary services.

This screening collects information concerning a person's arrests, indictments, or other formal criminal charges, and any dispositions arising there from, including convictions, dismissals, acquittals, sentencing, and correctional supervision. If the person's nationwide criminal history record reflects a disqualifying conviction and results in a final determination of disqualification, then this person cannot be hired or continue to be employed.

b. Abuse Registry Screening. Specify whether the State requires the screening of individuals who provide waiver services through a State-maintained abuse registry (select one):

- No. The State does not conduct abuse registry screening.
- Yes. The State maintains an abuse registry and requires the screening of individuals through this registry.

Specify: (a) the entity (entities) responsible for maintaining the abuse registry; (b) the types of positions for which abuse registry screenings must be conducted; and, (c) the process for ensuring that mandatory screenings have been conducted. State laws, regulations and policies referenced in this description are available to CMS upon request through the Medicaid agency or the operating agency (if applicable):

The Department of Health (DOH) has established and maintains an electronic registry of all unlicensed persons who, while employed by a provider, have been determined to have engaged in a substantiated incident of abuse, neglect, or exploitation of a person receiving services from a provider and have met the severity standard for the substantiated incident. Health care providers are required to check this registry prior to hiring an unlicensed care provider, and to maintain documentation in that person's personnel file to reflect that this inquiry has taken place.

The Employee Abuse Registry Act is available for review, and can be found in Sections 27-7A-1 through 27-7A-8 NMSA 1978. Regulations are found at 7.1.12 NMAC, and 8.11.6.1 NMAC.

Additionally, the Adult Protective Services Department of ALTSD and the Department of Health report substantiated incidences of abuse, neglect or exploitation of a person receiving services from a licensed individual health care provider directly to that person's licensure board. Each board has protocols established to investigate and resolve such reports.
By statute, New Mexico providers must conduct screenings and document that screening has occurred. Documentation is required to be maintained in the employ's personnel record. DOH/Division of Health Improvement (DHI) monitors provider compliance with regulations governing the Employee Abuse Registry to ensure that screening has been conducted and properly documented. DOH/DHI reviews providers at a minimum of every three (3) years. If DOH/DHI determines that a provider is out of compliance, a verification review is conducted following the provider's completion of a Corrective Action Plan (CAP).

Appendix C: Participant Services

C-2: General Service Specifications (2 of 3)

c. Services in Facilities Subject to §1616(e) of the Social Security Act. Select one:

- No. Home and community-based services under this waiver are not provided in facilities subject to §1616(e) of the Act.
- Yes. Home and community-based services are provided in facilities subject to §1616(e) of the Act. The standards that apply to each type of facility where waiver services are provided are available to CMS upon request through the Medicaid agency or the operating agency (if applicable).

Appendix C: Participant Services

C-2: General Service Specifications (3 of 3)

d. Provision of Personal Care or Similar Services by Legally Responsible Individuals. A legally responsible individual is any person who has a duty under State law to care for another person and typically includes: (a) the parent (biological or adoptive) of a minor child or the guardian of a minor child who must provide care to the child or (b) a spouse of a waiver participant. Except at the option of the State and under extraordinary circumstances specified by the State, payment may not be made to a legally responsible individual for the provision of personal care or similar services that the legally responsible individual would ordinarily perform or be responsible to perform on behalf of a waiver participant. Select one:

- No. The State does not make payment to legally responsible individuals for furnishing personal care or similar services.
- Yes. The State makes payment to legally responsible individuals for furnishing personal care or similar services when they are qualified to provide the services.

Specify: (a) the legally responsible individuals who may be paid to furnish such services and the services they may provide; (b) State policies that specify the circumstances when payment may be authorized for the provision of extraordinary care by a legally responsible individual and how the State ensures that the provision of services by a legally responsible individual is in the best interest of the participant; and, (c) the controls that are employed to ensure that payments are made only for services rendered. Also, specify in Appendix C-1/C-3 the personal care or similar services for which payment may be made to legally responsible individuals under the State policies specified here.

e. Other State Policies Concerning Payment for Waiver Services Furnished by Relatives/Legal Guardians.

Specify State policies concerning making payment to relatives/legal guardians for the provision of waiver services over and above the policies addressed in Item C-2-d. Select one:

- The State does not make payment to relatives/legal guardians for furnishing waiver services.
- The State makes payment to relatives/legal guardians under specific circumstances and only when the relative/guardian is qualified to furnish services.

Specify the specific circumstances under which payment is made, the types of relatives/legal guardians to whom payment may be made, and the services for which payment may be made. Specify the controls that are employed
to ensure that payments are made only for services rendered. Also, specify in Appendix C-1/C-3 each waiver service for which payment may be made to relatives/legal guardians.

- Relatives/legal guardians may be paid for providing waiver services whenever the relative/legal guardian is qualified to provide services as specified in Appendix C-1/C-3.

Specify the controls that are employed to ensure that payments are made only for services rendered.

- Other policy.

Specify:

---

f. Open Enrollment of Providers. Specify the processes that are employed to assure that all willing and qualified providers have the opportunity to enroll as waiver service providers as provided in 42 CFR §431.51:

Provider enrollment is a continuous, open enrollment. Enrollment requirements and procedures and applications for enrollment are available on the DOH/DDSD website. Interested providers may also request information and a provider enrollment application at any time by contacting, via telephone, DOH/DDSD provider enrollment staff. DOH/DDSD staff will meet with interested providers to provide technical assistance on the application process and review criteria. In addition, DOH/DDSD issues a formal call for providers when provider capacity does not meet the demands of the waiver.

Once the completed provider enrollment application is approved by DOH, it is forwarded to HSD/MAD for final approval. All provider enrollment applications must be approved by HSD/MAD prior to the provision of waiver services. The timeframe for processing new and renewal provider agreements is eight (8) weeks once a completed application is received.

Appendix C: Participant Services

Quality Improvement: Qualified Providers

As a distinct component of the State’s quality improvement strategy, provide information in the following fields to detail the State’s methods for discovery and remediation.

a. Methods for Discovery: Qualified Providers

The state demonstrates that it has designed and implemented an adequate system for assuring that all waiver services are provided by qualified providers.

i. Sub-Assurances:

a. Sub-Assurance: The State verifies that providers initially and continually meet required licensure and/or certification standards and adhere to other standards prior to their furnishing waiver services.

Performance Measures

For each performance measure the State will use to assess compliance with the statutory assurance, complete the following. Where possible, include numerator/denominator.

For each performance measure, provide information on the aggregated data that will enable the State to analyze and assess progress toward the performance measure. In this section provide information on the method by which each source of data is analyzed statistically/deductively or inductively, how
themes are identified or conclusions drawn, and how recommendations are formulated, where appropriate.

Performance Measure:
The percentage of enrolled licensed/certified providers who meet licensure/certification requirements prior to furnishing waiver services. Numerator: Number of newly enrolled licensed/certified providers who meet licensure/certification standards. Denominator: Total number of newly enrolled licensed/certified providers.

ii. If applicable, in the textbox below provide any necessary additional information on the strategies employed by the State to discover/identify problems/issues within the waiver program, including frequency and parties responsible. Formal quality improvement processes are in place, as described in detail in the DDSQI Steering Committee description and structure in Appendix H.

b. Methods for Remediation/Fixing Individual Problems
i. Describe the State’s method for addressing individual problems as they are discovered. Include information regarding responsible parties and GENERAL methods for problem correction. In addition, provide information on the methods used by the State to document these items. Remediation and improvement strategies vary, based on the findings. When problems and areas for improvement are identified by the State related to qualified providers, processes are in place to ensure that appropriate and timely action is taken.

Methods for addressing and correcting identified problems include verbal direction, letters of direction, formal corrective action plans; documentation is kept on all actions taken. In some instances, policy and/or regulatory changes are required. In all cases, if DOH identifies at any time any issues that are inconsistent with Medicaid requirements related to provider qualifications, HSD/MAD ensures that the problem is corrected and that compliance with the Assurance is met.

ii. Remediation Data Aggregation

c. Timelines
When the State does not have all elements of the Quality Improvement Strategy in place, provide timelines to design methods for discovery and remediation related to the assurance of Qualified Providers that are currently non-operational.

⊙ No
⊙ Yes
Please provide a detailed strategy for assuring Qualified Providers, the specific timeline for implementing identified strategies, and the parties responsible for its operation.

Appendix C: Participant Services

C-3: Waiver Services Specifications

Section C-3 'Service Specifications' is incorporated into Section C-1 'Waiver Services.'

Appendix C: Participant Services

C-4: Additional Limits on Amount of Waiver Services

a. **Additional Limits on Amount of Waiver Services.** Indicate whether the waiver employs any of the following additional limits on the amount of waiver services (select one).

- **Not applicable** - The State does not impose a limit on the amount of waiver services except as provided in Appendix C-3.
- **Applicable** - The State imposes additional limits on the amount of waiver services.

When a limit is employed, specify: (a) the waiver services to which the limit applies; (b) the basis of the limit, including its basis in historical expenditure/utilization patterns and, as applicable, the processes and methodologies that are used to determine the amount of the limit to which a participant's services are subject; (c) how the limit will be adjusted over the course of the waiver period; (d) provisions for adjusting or making exceptions to the limit based on participant health and welfare needs or other factors specified by the state; (e) the safeguards that are in effect when the amount of the limit is insufficient to meet a participant's needs; (f) how participants are notified of the amount of the limit. (check each that applies)

- **Limit(s) on Set(s) of Services.** There is a limit on the maximum dollar amount of waiver services that is authorized for one or more sets of services offered under the waiver.

_Furnish the information specified above._

Private Duty Nursing and Home Health Aide: These services are only available for participants age 21 and older because participants under 21 receive these services through the State Plan. Any combination of these services is allowed, but must not exceed the following limits within the participant's acuity level:

- **Level I:** Up to 173 hours per month or 2080 hours annually. This limit is based upon coverage equivalent to one Full-Time Employee (40 hours/week) worth of support and historical utilization for the population of participants with level of support Level I.
- **Level II:** Up to 130 hours per month or 1560 hours annually. This limit is based upon coverage equivalent to 30 hours per week worth of support and historical utilization for the population of participants with level of support Level II.
- **Level III:** Up to 87 hours per month or 1040 hours annually. This limit is based upon coverage equivalent to 20 hours per week worth of support and historical utilization for the population of participants with level of support Level III.

The case manager verbally notifies the participant/participant representatives of these limits each year when meeting with the individual and family to prepare for the annual meeting to develop the Individual Service Plan (ISP).

These limits are reviewed by DOH & HSD annually based upon utilization and annual survey of family needs; depending upon results these limits may be adjusted in future Waiver years.

This is a waiver designed for participants living in their home environment with primary caregiver(s). This/these caregivers are responsible for the participant at all times. The services offered in this Waiver are designed to support the primary caregiver(s) and provide short period of relief from constant care giving responsibilities. Safeguards for participants whose needs exceed that which can be provided
within the budget caps (below) and limits above include:
1) a carefully planned and managed annual MF Waiver budget;
2) the MF Waiver case manager coordinates with the state plan to request and obtain additional support services when MF Waiver services have been exhausted and there is a demonstrated need for more services. (There is a long history of the State Plan approving in home care in these instances.);
3) participant may choose to transition to another Waiver that offers residential services, on a space available basis;
4) as a last resort, the individual may transition to an ICF/IID when the caregiver(s) is no longer above to support the individual at home.

**Prospective Individual Budget Amount.** There is a limit on the maximum dollar amount of waiver services authorized for each specific participant.

*Furnish the information specified above.*

☐ **Budget Limits by Level of Support.** Based on an assessment process and/or other factors, participants are assigned to funding levels that are limits on the maximum dollar amount of waiver services.

*Furnish the information specified above.*

Each participant is assigned to a funding level based on his/her level of support needs. Completion of the Long-Term Care Assessment Abstract (LTCAA) results in a point total which indicates acuity: Level I (8-18 points), Level II (19-23 points) and Level III (24-31 points). A capped dollar amount is applied to each level of support; all Medically Fragile Waiver services the individual is to receive must fit within this capped dollar amount (see C.1.a). The Case Manager verbally notifies the participant/participant representatives of these limits each year when meeting with the individual and family to prepare for the annual meeting to develop the Individual Service Plan (ISP).

The capped dollar amount and level of support has been used since the early 1990’s. This method has been successful in meeting the needs of the participants. However, it was based upon a percentage of the ICF/MR average costs at the time. Annually the average cost of providing Waiver services is reviewed to determine if it is necessary to adjust the budget limits for each level of support in order to continue to meet the participant’s medical needs and assure health and safety. Budget caps have been increased historically based upon increases in rates in order to assure that the quantity of services that can be purchased through the budgets are not reduced. When changes are made to rate and/or budget caps, HSD publishes the proposed changes and holds public hearings to receive input from the public.

As described in Appendix B-1-b, a participant’s level of medical fragility is determined by a set of eight (8) parameters. These parameters ensure that a medically fragile condition exists and contribute to the determination of the level of support that is required by the participant. The parameters reflect the amount of care a participant requires from his/her caregiver on a daily/24 hour basis.

Annual capped dollar amounts are as follows; the total cost of all services cannot total an amount in excess of these caps:

<table>
<thead>
<tr>
<th>Age</th>
<th>Level I</th>
<th>Level II</th>
<th>Level III</th>
</tr>
</thead>
<tbody>
<tr>
<td>21 &amp; over</td>
<td>$70,000</td>
<td>$60,000</td>
<td>$48,000</td>
</tr>
<tr>
<td>Under 21</td>
<td>$25,000</td>
<td>$25,000</td>
<td>$25,000</td>
</tr>
</tbody>
</table>

Because participants under age 21 receive the bulk of their services through the State Plan, there is a single budget cap for that age group.

This is a waiver designed for participants living in their home environment with a primary caregiver(s). This/these caregivers are responsible for the participant at all times. The services offered in this Waiver are designed to support the primary caregiver(s) and provide a short period of relief from constant caregiving responsibilities. Safeguards for participants whose needs exceed that which can be provided within the budget caps above include:

1) a carefully planned and managed annual MF Waiver budget;
2) the MF Waiver case manager coordinates with the State Plan to request and obtain additional support
services when MF Waiver services have been exhausted and there is a demonstrated need for more services (there is a long history of the State Plan approving in-home care in these instances); 3) participant may choose to transition to another Waiver that offers residential services, on a space available basis; 4) as a last resort, the individual may transition to an ICF/IID when the caregiver(s) is no longer able to support the individual at home.

☑ Other Type of Limit. The State employs another type of limit.

Describe the limit and furnish the information specified above.

Appendix C: Participant Services

C-5: Home and Community-Based Settings

Explain how residential and non-residential settings in this waiver comply with federal HCB Settings requirements at 42 CFR 441.301(c)(4)-(5) and associated CMS guidance. Include:

1. Description of the settings and how they meet federal HCB Settings requirements, at the time of submission and in the future.

2. Description of the means by which the state Medicaid agency ascertains that all waiver settings meet federal HCB Setting requirements, at the time of this submission and ongoing.

Note instructions at Module 1, Attachment #2. HCB Settings Waiver Transition Plan for description of settings that do not meet requirements at the time of submission. Do not duplicate that information here.

The Medically Fragile Home and Community-Based Services program provides services for individuals diagnosed with a medically fragile condition, have a developmental disability, developmental delay, or are at risk for developmental delay before reaching 22 years of age and who require an ICF/IDD level of care. Participants receive services in their family home or their own home (home owned or leased by the participant, the participants' parents or legal guardians). Services under this waiver are not provided in either congregate living facilities, institutional settings or on the grounds of institutions.

The state determined that the following services and settings are in compliance with the federal waiver HCB settings requirements: case management, home health aide, respite, nutritional counseling, and skilled therapy for adults, behavioral support consultation, private duty nursing, and specialized medical equipment and supplies. All settings under this waiver are presumed compliant with the rule and will not require any remediation.

No further transition plan is required for this waiver.

Appendix D: Participant-Centered Planning and Service Delivery

D-1: Service Plan Development (1 of 8)

State Participant-Centered Service Plan Title:

Individual Service Plan (ISP)

a. Responsibility for Service Plan Development. Per 42 CFR §441.301(b)(2), specify who is responsible for the development of the service plan and the qualifications of these individuals (select each that applies):

☑ Registered nurse, licensed to practice in the State
☐ Licensed practical or vocational nurse, acting within the scope of practice under State law
☐ Licensed physician (M.D. or D.O)
☐ Case Manager (qualifications specified in Appendix C-1/C-3)
☐ Case Manager (qualifications not specified in Appendix C-1/C-3).

Specify qualifications:
Appendix D: Participant-Centered Planning and Service Delivery

D-1: Service Plan Development (2 of 8)

b. Service Plan Development Safeguards. Select one:

- Entities and/or individuals that have responsibility for service plan development may not provide other direct waiver services to the participant.
- Entities and/or individuals that have responsibility for service plan development may provide other direct waiver services to the participant.

The State has established the following safeguards to ensure that service plan development is conducted in the best interests of the participant. Specify:

Appendix D: Participant-Centered Planning and Service Delivery

D-1: Service Plan Development (3 of 8)

c. Supporting the Participant in Service Plan Development. Specify: (a) the supports and information that are made available to the participant (and/or family or legal representative, as appropriate) to direct and be actively engaged in the service plan development process and (b) the participant's authority to determine who is included in the process.

During the initial steps in the development of the Individual Service Plan (ISP), the Case Manager engages the participant/participant representative in developing the ISP. At the initial meeting with the Case Manager, the participant/participant representative is given the Family Handbook which contains information about ISP development. During the Case Manager’s meetings with the participant/participant representative before the Interdisciplinary Team (IDT) meeting, the Case Manager explains the waiver process and encourages his/her leadership and full participation in the service plan meetings.

Working together, the Case Manager and participant/participant representative identify the participant’s strengths, and assist the participant in identifying his/her dreams, goals, preferences and outcomes for service.

The Case Manager:
- Explains the supports and services available in the waiver that are necessary to obtain the goals and outcomes;
- Explains the risks associated with the outcomes and services identified and possible options to mitigate the risks;
- Provides information and linkage for enhancing natural supports;
- Explains the rights and responsibilities of the participant/participant representative;
- Provides a list of the specific service providers available in the participant’s area from which the participant may select his/her providers;
- Explains the team process and the composition of the team;
- Encourages the participant/participant representative to include others of his/her choice as team members;
- Supports the participant to lead the team meeting; and
Advocates for the participant on an ongoing basis.

The participant/participant representative has the authority to determine who is included in the ISP process and is encouraged to make his/her own choices and decisions regarding services. He/she has control over how his/her budget is expended. The participant/participant representative may request an IDT meeting at anytime during the ISP cycle.

Appendix D: Participant-Centered Planning and Service Delivery

D-1: Service Plan Development (4 of 8)

d. Service Plan Development Process. In four pages or less, describe the process that is used to develop the participant-centered service plan, including: (a) who develops the plan, who participates in the process, and the timing of the plan; (b) the types of assessments that are conducted to support the service plan development process, including securing information about participant needs, preferences and goals, and health status; (c) how the participant is informed of the services that are available under the waiver; (d) how the plan development process ensures that the service plan addresses participant goals, needs (including health care needs), and preferences; (e) how waiver and other services are coordinated; (f) how the plan development process provides for the assignment of responsibilities to implement and monitor the plan; and, (g) how and when the plan is updated, including when the participant's needs change. State laws, regulations, and policies cited that affect the service plan development process are available to CMS upon request through the Medicaid agency or the operating agency (if applicable):

An initial ISP for services must be completed within ninety (90) days of receipt of the allocation letter from the Medically Fragile (MF) Waiver program.

Interdisciplinary Team (IDT) meetings are held to develop the person-centered Individual Service Plan (ISP). The planning meetings are held at least annually and as needed for change of condition or circumstance and are scheduled at times and locations convenient to the participant/participant representative.

The Case Manager obtains information about the participant’s strengths, capacities, preferences, desired outcomes and risk factors. This information is gained through a review of the level of care (LOC) assessment; through interviews between the Case Manager and participant/participant representative; and through the person-centered planning process that takes place between the Case Manager and participant/participant representative to develop the ISP.

Assessments

Assessment activities that occur prior to the IDT meeting include the Comprehensive Individual Assessment/Family Centered Review (CIA), participant history and physical by primary care physician (PCP), review of other pertinent medical historical documents, and the LOC determination. These assessments assist in the development of an accurate and functional plan. The CIA is conducted in preparation of the LOC determination process which addresses medical fragility and developmental disability factors. Assessments occur on an annual basis or as needed, during significant changes in circumstance. The Case Manager then makes results available to the participant/participant representative. All parties ensure that the ISP addresses the information and/or concerns identified through the assessment process.

At the annual IDT meeting, the participant’s ISP is developed with input from each member of the team. The ISP may be revised during the year to address any life changes (medical or social). Specifically, the ISP addresses: activities of daily living assistance needs, health care needs, equipment needs, relationships in the home and community, personal safety and provider responsibilities. The ISP must address areas of need, as recognized in the CIA.

Pre-Planning

During the pre-planning process, the Case Manager provides the participant/participant representative with information about the MF Waiver. The Case Manager provides information about the range and scope of service choices and options, as well as the rights, risks, and responsibilities associated with the MF Waiver. The Case Manager then gives the participant/participant representative a Family Handbook that contains information about the MF Waiver, community resources, and ways to interface with providers, physicians and support groups. The handbook also has tips on organizing day-to-day activities to accommodate the medical needs of the participant. The Case Manager is responsible for completing the CIA and obtaining other medical assessments.
needed for the ISP; completing the annual LOC re-determination process; and referring the participant/participant representative to HSD for financial eligibility determination annually and as needed.

Interdisciplinary Team (IDT) Meeting
The Case Manager works with the participant/participant representative to identify service providers to participate in the IDT meeting. State approved providers are selected from a list provided by the Case Manager. The Case Manager encourages the participant/participant representative to meet with the provider agencies and specific providers before making a choice of agency or specific provider. The participant/participant sets the date and time of the IDT meeting. The Case Manager works with the participant/participant representative to plan the IDT meeting and encourages him/her to lead the IDT meeting to the extent possible.

During the IDT meeting, the Case Manager assists the participant/participant representative in ensuring that the ISP addresses the participant's goals, health, safety and risks along with addressing the information and/or concerns identified through the assessment process. The Case Manager writes up the ISP as identified in the IDT meeting. Each provider develops care activities and strategies for each outcome, goal, and objective identified at the IDT meeting. The Case Manager assures the ISP budget is within the Capped Dollar Amount (CDA) before submitting the MF Waiver budget (MAD 946). Implementation of the ISP begins when provider service plans have been received by the Case Manager and participant, and the plan and budget have been approved by the Third-Party Assessor (TPA) Contractor. The State does not use temporary, interim service plans to get services initiated until a more detailed service plan can be finalized.

The Case Manager ensures for each participant that:

- The planning process addresses the participant's needs and personal goals in medical supports needed at home for health and wellness;
- Services selected address the participant's needs as identified during the assessment process. Needs not addressed in the ISP are addressed through resources outside the MF Waiver Program;
- The outcomes of the assessment process for assuring health and safety are considered in the plan;
- Services do not duplicate or supplant those available to the participant through the Medicaid State Plan or other public programs;
- Services are not duplicated in more than one service code;
- The parties responsible for implementing the plan are identified and listed within the document;
- The back-up plans are complete; and
- The ISP is submitted to the TPA Contractor in compliance with the MF Waiver Service Standards.

Non-waiver services, i.e.: EPSDT services, durable medical equipment, therapies and medical specialists services are coordinated by the Case Manager with the managed care organizations, Medicaid school-based services providers and Early Intervention teams.

The ISP is updated if personal goals, needs and/or life circumstances change that may or may not result in a change of the LOC. Revisions may be requested by the participant. Each member of the IDT may request an IDT meeting to address changes and/or challenges. The Case Manager contacts the participant/participant representative to initiate revisions to the budget. The Case Manager initiates the scheduling of IDT meetings and assures the IDT meeting is in compliance with the MF Waiver Service Standards.

Monitoring
The Case Manager is responsible for monitoring the ISP pre-planning and development process. The case management agency conducts internal quality improvement monitoring of service plans. The ISP is monitored monthly via phone, electronically, and face-to-face by the Case Manager. The ISP is reviewed with the IDT members at least every six (6) months for the initial ISP and no less than every twelve (12) months for the annual reassessment. The ongoing ISP review includes a formal method of checking and documenting that services and supports are provided to the medically fragile participant as identified in the ISP. This review also determines if the goals and objectives of the ISP are being achieved and remain appropriate and realistic.

The Case Manager meets with these teams at least annually and as needed to discuss the needs of the participant and the participant's progress/lack of progress to determine what, if any, additional needs are to be addressed.

Appendix D: Participant-Centered Planning and Service Delivery
D-1: Service Plan Development (5 of 8)

e. Risk Assessment and Mitigation. Specify how potential risks to the participant are assessed during the service plan development process and how strategies to mitigate risk are incorporated into the service plan, subject to participant needs and preferences. In addition, describe how the service plan development process addresses backup plans and the arrangements that are used for backup.

The Medically Fragile (MF) Waiver reflects a strong commitment throughout the planning process to supporting the participant/participant representative and family in the decision to have the participant in a home environment with a primary caregiver. However, the State must assure the participant’s safety, and the Case Manager is required to work with the participant/participant representative in developing a plan that addresses risks that have been identified during the participant’s LOC assessment, Comprehensive Individual Assessment/Family Center Review (CIA) and Individual Service Plan (ISP) development process.

The MF Waiver provider always involves the participant/participant representative with identifying risk areas and ensuring the back-up plan addresses risks so that his/her preferences are incorporated during the planning process.

The LOC packet (Medically Fragile Long-Term Care Assessment Abstract [LTCAA]), CIA, History & Physical (H&P), and other pertinent medical documentation address the participant’s medical fragility factors and developmental disabilities factors.

The assessment process allows the Case Manager, participant/participant representative and other professionals (PDNs, physicians, and therapists) to identify potential risk areas to be addressed in the ISP and considered in developing the back-up plan. A back-up plan unique to the individual’s circumstance is developed and incorporated into the ISP. Examples of back-up plans include a plan for substitute staffing or access to physician or emergency services. Back-up plans are required for primary caregivers.

The Home Health Agency is also responsible for developing a back-up plan in conjunction with the participant/participant representative. All waiver providers are required to have a back-up plan. The Case Manager monitors the use and effectiveness of back-up plans during monthly contacts to mitigate any future health and safety risks and equipment needs.

Appendix D: Participant-Centered Planning and Service Delivery

D-1: Service Plan Development (6 of 8)

f. Informed Choice of Providers. Describe how participants are assisted in obtaining information about and selecting from among qualified providers of the waiver services in the service plan.

At the initial meeting with the participant/participant representative, the Case Manager describes every type of service offered in the MF Waiver along with services that are available through the State Plan and in the community. The participant/participant representative receives a Family Handbook that contains information about the MF Waiver, State Plan and community services.

The State requires the Case Manager to ensure that the participant/participant representative is given freedom of choice between available qualified providers. This is accomplished by giving both written and verbal contact information for each qualified provider so that the individual/family may contact the provider to interview them about their services. Individuals/families are encouraged to use contact information to arrange such interviews by phone or in person, but are not required to do so. Individuals/families may also wish to confer with other individuals/families they know about their experiences with various providers prior to making a choice. In order to avoid undue influence on individual/family choice, Case Managers are cautioned to only provide factual information about qualified providers such as length of time they have been providing services to the MF Waiver population, counties the provider serves, or whether they offer a special area of expertise. Individuals/families may also request information from the Division of Health Improvement regarding the findings of the providers’ recent compliance survey. When DOH/DHI reviews Case Management Providers for compliance with state requirements, they look for evidence that written contact information for each qualified provider was provided to the participant/participant representative.
Appendix D: Participant-Centered Planning and Service Delivery

D-1: Service Plan Development (7 of 8)

g. Process for Making Service Plan Subject to the Approval of the Medicaid Agency. Describe the process by which the service plan is made subject to the approval of the Medicaid agency in accordance with 42 CFR §441.301(b)(1)(i):

HSD/MAD contracts with a Third-Party Assessor (TPA) Contractor for approval of MF Waiver ISPs and Waiver Review forms (MAD 046). After completing its own quality review, the case management agency submits the ISP and the MAD 046 to the TPA Contractor for approval. This process is duplicated when an ISP or MAD 046 needs revision. The TPA Contractor conducts internal audits quarterly on a representative random sample of service plans to validate that utilization management functions are performed in an accurate and timely manner for the MF Waiver. Findings are reported to the State. HSD/MAD reviews a representative sample of the TPA Contractor's service plan approvals during the annual contract compliance review. If HSD/MAD identifies any issues that are inconsistent with Medicaid requirements at any time, HSD/MAD ensures that the TPA Contractor corrects the problem within the contractually required timeframes.

Appendix D: Participant-Centered Planning and Service Delivery

D-1: Service Plan Development (8 of 8)

h. Service Plan Review and Update. The service plan is subject to at least annual periodic review and update to assess the appropriateness and adequacy of the services as participant needs change. Specify the minimum schedule for the review and update of the service plan:

- Every three months or more frequently when necessary
- Every six months or more frequently when necessary
- Every twelve months or more frequently when necessary
- Other schedule

Specify the other schedule:

i. Maintenance of Service Plan Forms. Written copies or electronic facsimiles of service plans are maintained for a minimum period of 3 years as required by 45 CFR §92.42. Service plans are maintained by the following (check each that applies):

- Medicaid agency
- Operating agency
- Case manager
- Other

Specify:

Appendix D: Participant-Centered Planning and Service Delivery

D-2: Service Plan Implementation and Monitoring

a. Service Plan Implementation and Monitoring. Specify: (a) the entity (entities) responsible for monitoring the implementation of the service plan and participant health and welfare; (b) the monitoring and follow-up method(s) that are used; and, (c) the frequency with which monitoring is performed.

The case management agency is the entity responsible for monitoring the implementation of the service plan and the participant's health and welfare. The MF Waiver is a medically driven, community-based program and provides case management services by RNs. The Case Manager and participant/participant representative work together face-to-face and electronically initially and ongoing to assess, plan, implement, evaluate, and monitor the implementation of
service plan delivery, health and welfare. The role of the Case Manager has developed over the years as a comprehensive, dynamic, individualized and family-centered approach. The responsibilities of the Case Manager include coordination, management and oversight of all activities related to the participant's care in a predominantly rural and culturally diverse state. The Case Manager performs as the initiator and facilitator of community services and resources relative to the participant's and family's needs. The Case Manager promotes community awareness of individuals who are medically fragile, as well as developmentally disabled. The Case Manager conducts at least every other month face-to-face contact with the participant and telephonic or electronic contact with the participant and/or the participant's representative every month. The Case Manager and participant/participant representative review all services implemented and identified in the Individual Service Plan (ISP) and other services being provided for desired outcomes. The Case Manager maintains ongoing contacts with waiver providers, community providers, and state agencies as a necessary part of monitoring and coordination of services. The Case Manager follows up with the appropriate agency when the participant, participant representative or Case Manager has concerns about services being delivered. The Case Manager participates in the resolution of problems as needed. The Case Manager is required to review the ISP at least annually, or more often, if needed, to assess if the desired outcomes are being achieved and that the participant/family’s priorities are being addressed. The Case Manager and participant/participant representative work together to determine the waiver services which will be included in the service plan. The Case Manager also assists the participant/participant representative to identify needed EPSDT services. When the services identified are benefits with the State Plan, a referral is made. The Case Manager assists the participant/participant representative to identify services available through the waiver. Once the type of service is identified, the participant/participant representative is given a Secondary Freedom of Choice (SFOC) to choose the provider agency. Once the provider agency is selected, the Case Manager makes the referral. The participant/participant representative interviews the prospective provider and has the right to accept or deny the provider prior to the start of services. The participant/participant representative has the right to decline services from a provider at any time. The Case Manager is available to assist the participant/participant representative in evaluating risk verses benefit when declining services and following up with the provider agency to try and resolve problems between the participant/participant representative as needed.

Due to the national and state shortage of nurses and therapists, occasionally there are no service providers available. The Case Manager works with specific agencies in the recruitment of specific providers. Health and welfare is not compromised because a primary caregiver is available. The primary caregiver is not always the participant representative. The participant representative is responsible for training the primary caregiver in coordination with the participant's physician(s). Frequently, all members of the family over eighteen (18) years of age are appropriate, qualified primary caregivers. In an effort to support primary caregivers, the utilization of home health aides (HHAs) has proven to be helpful. The HHA may provide services of activities of daily living such as bathing, ambulating, lifting and other duties within the scope of a HHA which relieves the family of the physical stress. This allows the primary caregiver to, for example, take a nap, read, or bathe, knowing the participant is being monitored and his/her needs are being met, but yet the primary caregiver is still available in case skilled needs suddenly arise. The limitations of the HHAs are that they may not give medications, skilled treatments, or be independent caregivers. In addition, a qualified designated primary caregiver must be available in the home while the HHA is on duty. The primary caregiver is ultimately responsible for providing the in-home care. The primary caregiver also has a back-up plan that is referenced in the ISP. The home health agency has provided the primary caregiver the agency back-up plan to follow when a provider fails to show or there is a change in schedule. The primary caregiver is the person responsible for confirming home health agency staff hours worked and signing provider time sheets from the home health agency.

At least every three (3) years, the DOH/Division of Health Improvement (DHI) is responsible for assuring through auditing:
1) Services are furnished in accordance with the service plan;
2) Back-up plans are effective;
3) Participant health and welfare is assured;
4) Participants exercise free choice of providers;
5) Participants have access to waiver services as identified in the ISP; and
6) Documentation is present that information has been received on how to report abuse, neglect, and exploitation.

The MF Waiver Manager is responsible for assuring through auditing at least bi-annually:
1) Participants have access to waiver services as identified in the service plan;
and
2) Participants have access to non-waiver services as identified in the service plan, including access to health services.
The MF Waiver Manager collects information about monitoring results from DOH/DHI surveys. This data is reported to HSD upon completion of each audit. In addition, the case management agency conducts quarterly internal quality reviews and reports its findings on a quarterly basis to the State.

When problems are identified through audits, DOH/DHI requires a plan of correction be implemented. When problems are identified by the MF Waiver Manager, the Manager ensures prompt follow-up and remediation through verbal or written direction or requests that a focused survey be conducted by DOH/DHI.

b. Monitoring Safeguards. Select one:

- Entities and/or individuals that have responsibility to monitor service plan implementation and participant health and welfare may not provide other direct waiver services to the participant.
- Entities and/or individuals that have responsibility to monitor service plan implementation and participant health and welfare may provide other direct waiver services to the participant.

The State has established the following safeguards to ensure that monitoring is conducted in the best interests of the participant. Specify:

---

Appendix D: Participant-Centered Planning and Service Delivery

Quality Improvement: Service Plan

As a distinct component of the State’s quality improvement strategy, provide information in the following fields to detail the State’s methods for discovery and remediation.

a. Methods for Discovery: Service Plan Assurance/Sub-assurances

The state demonstrates it has designed and implemented an effective system for reviewing the adequacy of service plans for waiver participants.

i. Sub-Assurances:

a. Sub-assurance: Service plans address all participants’ assessed needs (including health and safety risk factors) and personal goals, either by the provision of waiver services or through other means.

Performance Measures

For each performance measure the State will use to assess compliance with the statutory assurance (or sub-assurance), complete the following. Where possible, include numerator/denominator.

For each performance measure, provide information on the aggregated data that will enable the State to analyze and assess progress toward the performance measure. In this section provide information on the method by which each source of data is analyzed statistically/deductively or inductively, how themes are identified or conclusions drawn, and how recommendations are formulated, where appropriate.

Performance Measure:
Percentage of service plans (new and annual recertifications) that adequately address needs identified through the LOC assessment. Numerator: Number of service plans determined to adequately address needs identified through the LOC assessment. Denominator: Total number of service plans developed.

b. **Sub-assurance:** The State monitors service plan development in accordance with its policies and procedures.

**Performance Measures**

For each performance measure the State will use to assess compliance with the statutory assurance (or sub-assurance), complete the following. Where possible, include numerator/denominator.

For each performance measure, provide information on the aggregated data that will enable the State to analyze and assess progress toward the performance measure. In this section provide information on the method by which each source of data is analyzed statistically/deductively or inductively, how themes are identified or conclusions drawn, and how recommendations are formulated, where appropriate.
Performance Measure:
Percentage of service plans developed in accordance with state policies and procedures. Numerator: Number of service plans in the provider agency that are developed in accordance with state policies and procedures. Denominator: Number of service plans in the provider agency.

**Data Source** (Select one):
Record reviews, off-site

c. Sub-assurance: Service plans are updated/revised at least annually or when warranted by changes in the waiver participant’s needs.

Performance Measures

For each performance measure the State will use to assess compliance with the statutory assurance (or sub-assurance), complete the following. Where possible, include numerator/denominator.

For each performance measure, provide information on the aggregated data that will enable the State to analyze and assess progress toward the performance measure. In this section provide information on the method by which each source of data is analyzed statistically/deductively or inductively, how themes are identified or conclusions drawn, and how recommendations are formulated, where appropriate.

Performance Measure:
Percentage of service plans that were reviewed annually or revised, as warranted, by changes in participant’s needed for participants with continuous enrollment of 12 months. Numerator: Number of service plans reviewed/updated for participants with continuous enrollment of 12 months. Denominator: Total number of participants with continuous enrollment of 12 months and/or a change in needs.

d. Sub-assurance: Services are delivered in accordance with the service plan, including the type, scope, amount, duration and frequency specified in the service plan.

Performance Measures

For each performance measure the State will use to assess compliance with the statutory assurance (or sub-assurance), complete the following. Where possible, include numerator/denominator.

For each performance measure, provide information on the aggregated data that will enable the State to analyze and assess progress toward the performance measure. In this section provide information on the method by which each source of data is analyzed statistically/deductively or inductively, how themes are identified or conclusions drawn, and how recommendations are formulated, where appropriate.

Performance Measure:
Percentage of MF Waiver participants receiving services consistent with their service plan, including the type, scope, amount, duration, and frequency of service. Numerator: Number of MF Waiver participants in the provider agency who are receiving services consistent with their ISP. Denominator: Total number of MF Waiver participant ISPs in the provider agency.

ii. If applicable, in the textbox below provide any necessary additional information on the strategies employed by the State to discover/identify problems/issues within the waiver program, including frequency and parties responsible.

Formal quality improvement processes are in place, as described in detail in the DDSQI Steering Committee description and structure in Appendix H.

### b. Methods for Remediation/Fixing Individual Problems

i. Describe the State’s method for addressing individual problems as they are discovered. Include information regarding responsible parties and GENERAL methods for problem correction. In addition, provide information on the methods used by the State to document these items.

Remediation and improvement strategies vary, based on the findings. When problems and areas for improvement related to service plans are identified by the State, processes are in place to ensure that appropriate and timely action is taken. In addition, the DDSQI Steering Committee routinely collects, aggregates, analyzes, and trends service plan data, as described in Appendix H. Irregularities and/or areas of concern are discussed and remediation strategies are developed.

Methods for fixing identified problems include verbal direction, letters of direction, formal corrective action plans; documentation is kept on all actions taken. In some instances, policy and/or regulatory changes are required. In all cases, if DOH identifies at any time any issues that are inconsistent with Medicaid requirements related to service plans, HSD/MAD ensures that the problem is corrected and that compliance with the Assurance is met.

### ii. Remediation Data Aggregation

**Remediation-related Data Aggregation and Analysis (including trend identification)**
