2 AWARD SUMMARY

2.1 MAXIMUM NUMBER OF AWARDS ANTICIPATED AND MAXIMUM AWARD AMOUNT

2.1.1 Award Amount. The total award amount available for FY 2020 is $307,000. Grant amounts will be determined by each grant application.

2.1.2 Maximum Number of Awards. The maximum number of awards is contingent on the number received and the amount of grant funding available.

2.1.3 Maximum Number Submissions. An eligible Applicant may request awards for multiple qualified residency positions in one or more eligible programs. A Sponsoring Institution should submit one application that includes all eligible residency programs for which an award is being requested.

2.2 PAYMENT TERMS
GME Expansion Grants are funded through state general appropriations. Awarded Applicant shall receive payments through HSD. Payments to Awarded Applicants are anticipated to begin Spring 2020. HSD is not bound by any award estimates in the RFA.

Funding may be reduced or terminated if funds allocated to HSD for the year of this program should become reduced, depleted, or unavailable during the Contract Term. If HSD determines an Awarded Applicant has failed to perform or failed to conform to Grant Conditions, HSD may retract or reduce the grant amount for the Awarded Applicant.

Grant funds must be expended by the end of the Grant Period. Grantees shall return any unexpended funds after the end of the grant term, at the time of submission of the Final Financial Report.

2.3 PRIORITY OF FUNDING ALLOCATION

For this RFA, primary care means primary care specialists who will practice in hospital or community-based primary care settings. The definition does not include programs whose graduates are trained to practice primarily in in-patient medical environments or support those that continue training as medical subspecialists.

A residency “Program” is defined as the specialty for which an Applicant is seeking developmental support. For instance, if the goal is to expand family medicine physician training, the application is for expanding a Family Medicine Residency Program.

HSD may prioritize applications that emphasize the following: (1) developing new or expanded programs with specialties of general psychiatry, family medicine, general pediatric medicine, primary care, and general internal medicine; (2) increasing positions for medical specialties having shortages within the state, with preference being given to the aforementioned primary care specialties; and, (3) increasing primary care positions in medically underserved areas within the state.

Physician shortages exist throughout the state, including in primary care. Demand is expected to outpace supply, with the shortage severity expected to increase throughout the projection period. Thus, GME Expansion Grants will be prioritized based on the criteria outlined below:

• Family Medicine Residency Programs: Expand an existing or establish a new Family Medicine Training Track, including rural tracks
• General Psychiatry Residency Programs: Expand an existing or establish a new General Psychiatry Training Track, including rural tracks
• General Pediatrics Residency Programs: Expand an existing or establish a new General Pediatrics Training Track, including rural tracks
• General Internal Medicine Residency Programs: Expand an existing or establish a new General Internal Medicine Training Track, including rural tracks

Additionally, funding preferences will be given to:
• Federally Qualified Health Center Applicants;
• Applicants providing services in rural or frontier communities; and,
• Applicants providing services in underserved populations (e.g. disparate access to primary care, poor health status, addressing health disparities, and other locally-determined concerns).

2.4 GRANT PERIOD
The Grant Period is one-year or multi-year, depending on the needs of the Applicant and availability of funds (Grant Period).

2.5 APPLICATION TIMELINE

The application process for this RFA is anticipated to proceed according to the timeline below. HSD reserves the right to revise this timeline or any portion of this RFA by publishing an addendum.

6 PROGRAM BACKGROUND
In 2019, Governor Michelle Lujan Grisham enacted House Bill 480, which established the GME Expansion Grant Program. Tasked with program implementation, HSD may provide GME Expansion Grants that:

- establish new GME training programs with first-year positions;
- fund unfilled, accredited first-year positions within a GME training program;
- expand the number of first-year positions within an existing GME training program;
- fund existing GME training programs;
- provide one-time planning grants to GME training programs

The law also creates a volunteer board that will make funding recommendations to HSD Secretary. The inaugural GME Expansion Review Board & Advisory Meeting occurred in September 2019. Members have adopted a statewide 5-year GME expansion strategic plan, and during the next five years it is anticipated GME primary care programs will grow from 8 to 13 (63% increase). Additionally, the number of primary care residents in training will grow from 142 to 268 (89% increase) and the number of graduates each year will grow from 48 to 84 (starting in 2025), representing a 75% increase.

For this RFA, primary care means primary care specialists who will practice in hospital or community-based primary care settings. The definition does not include programs whose graduates are trained to practice primarily in in-patient medical environments or support those that continue training as medical subspecialists.

Total funding and technical assistance can be for a term of one year or multiple years, depending on needs of each individual Applicant. Funding amounts will be determined based upon applications received and commensurate with reasonable costs of ACGME program development and pre-start operations.

7 USE OF AWARD FUNDS

7.1 ALLOWABLE COSTS
Program funds may be used to:
1) Plan for and develop new- or expand existing- Accreditation Council of Graduate Medical Education (ACGME) programs within the specified primary care specialties;
2) Cover staff, technical assistance, and other related costs associated with ACGME application development for new programs; and/or,
3) Fund start-up operating costs prior to launch of a new program.

7.2 PROHIBITED COSTS
Programs are prohibited from expending funds on the following:
- Resident salaries.
- Salaries/stipends and benefits payments for residents subsidized by the military, Public Health Service, or other federal agencies.
- Salaries/stipends and benefits that are calculated at a higher pay rate than that which an individual (or similar position) normally receives at the Sponsoring Institution or participating site.
7.3 FINAL AWARD BUDGET AND CHANGE REQUESTS

7.3.1 Final Award Budget. Each GME program selected for a grant award shall provide HSD with a Final Award Budget detailing the uses of award funds during each year of the Grant Period. The budget must include only GME Expansion Grant funds.

7.3.2 Budget Changes to the Other Direct Resident Costs Category. Any increase in Other Direct Resident Costs requires prior approval from HSD, followed by Grantee submission of a revised budget.

7.3.3 Budget Changes to the Resident Compensation or Professional Liability Insurance Categories. Expenditures greater than approved amounts are allowable, provided that all expenditures are within allowable cost categories and that overall expenditures do not exceed total grant award. For any increase greater than 10% in these budget categories, Grantee must submit a revised budget to HSD.

7.4 LAST DAY OF EXPENDITURES

GME Expansion Grants award funding must be expended by the final day of the Grant Period.

7.5 RETURN OF UNEXPENDED FUNDS

Grantees shall return any unexpended funds after the end of the Grant Period, at the time of submission of the Final Financial Report.

8 SELECTION FOR FUNDING

8.1 APPLICATION SCREENING

HSD, the GME Expansion Review Board, and Advisory Group shall review Applications to determine if they adhere to the grant program requirements and the funding priorities. An application must meet the requirements of the RFA and be submitted with proper authorization to qualify for further consideration. HSD will notify Applicants eliminated through the screening process within 30 business days of the submission deadline.

8.2 RECOMMENDATION FOR FUNDING

The GME Expansion Review Board shall make funding recommendations to HSD Secretary, who will make the ultimate decision.

8.3 VERIFICATION OF FILLED AWARDED POSITIONS IS REQUIRED
Awarded Applicants seeking program expansion must submit verification to HSD that awarded residency positions have been filled to qualify for disbursement of awards. HSD will communicate with Awarded Applicant to collect the documents required to complete the verification process. HSD anticipates that Applicants will submit such information after the annual National Residency Matching Program (NRMP) results are released. Positions not filled during the Match or Supplemental Offer and Assistance Program (SOAP) may be filled outside the match, as allowable under the NRMP policy. HSD will accept verification for positions filled outside the Match, but verification must be received within 30 business days after the position(s) has been filled.

8.4 FAILURE TO FILL AWARDED POSITIONS

If an Awarded Applicant seeking program expansion fails to verify to HSD that the awarded residency positions have been filled, Applicant shall forfeit the award for any unverified positions.

8.5 FINAL AWARD BUDGET IS REQUIRED

A Final Award Budget must be submitted to and approved by HSD (instructions and a template for submission will be provided).

9 APPLICANT RESPONSIBILITIES

Applicant shall comply with all federal, state and local laws, statutes, ordinances, rules and regulations and the orders and decrees of any court or administrative bodies or tribunals in any matter affecting the performance of the Contract, including, if applicable, workers compensation laws, compensation statutes and regulations, and licensing laws and regulations. When requested to do so by HSD, Applicant shall furnish HSD with satisfactory proof of its compliance.

10.1 APPLICATION FORMAT AND CONTENT

Applications must include the following four requirements:

Requirement 1: An Abstract that will serve as a summary of key information. Applicants are encouraged to use the Abstract included in Appendix B.

Requirement 2: A narrative of not more than 20 total pages (Times New Roman font, 12-point, double-spaced and one-inch margins) that captures the information requested from the sections to be described within this RFA. Each section should be clearly labeled, and pages beyond the 20-page limit will not be considered. Appendices and attachments do not count towards the 20-page limit.
Requirement 3: A budget indicating the uses of grant funds for residency development purposes. Applicants may use the template provided in Appendix D or submit in a different format so long as information requested is provided.

Workplan should cover a minimum of twelve months, and- supplementing the organizational chart- include a diagram that illustrates the structure for implementing, coordinating, overseeing and reporting on the different components of the plan and activities for the project. Applicants may use the sample project workplan provided in Appendix C or submit in a different format so long as information requested is provided.

An Applicant may request pre-application technical assistance to determine if developing a residency is practical or desirable according to federal and state funding options, accreditation potential, facilities adequacy, or other reasons prior to submitting a response to this RFA. Once an application is reviewed by the GME Expansion Review Board and Advisory Group and approved by HSD Secretary, contracts for GME development will be negotiated by HSD within 30 business days and be finalized within 90 business days, if possible.

Applications will be reviewed as they are received in an open cycle, meaning there is no deadline for submission. However, grants will be considered on a first come, first served basis. If sufficient funds are not available for a specific application the Applicant may recall the approved application or request that it be held by HSD until funds are available.

Provide a narrative including, but not limited to, the following components of a Needs and Assets Assessment, indicating where Applicant is in the process of conducting such assessment:

1. If a needs assessment has been done, please include as an attachment.
2. Describe the process and partners that came together to develop a residency program.
3. Describe how resources requested will result in a written plan for development agreed upon by all collaborators.
4. Review the status of the organization applying for the funds and its eligibility for: GME payments from Medicare, Medicaid, Teaching Health Center grants, or other GME payments. If these are part of the proposed Assessment, please explain.
5. Describe the capacity of existing providers to serve as Program Director, Site Director, Faculty, and the availability of subspecialists and services necessary to consider residency program development.
6. Describe access to inpatient rotations or blocks and specialty mix.
7. Assess the clinical Environment, including but not limited to facilities.

Residency Program Planning Description

The Applicant shall submit a narrative stating how the proposed plan will work to establish a primary care residency program through implementation of a new program, expansion of an existing program, or another model. For example, if the Applicant is applying for Program Planning funds please outline the project focus.

ACGME accreditation includes having a Sponsoring Institution which is responsible for ensuring the training program meets all required quality standards. An existing Sponsoring Institution may be utilized by expanding its existing programs or a new Sponsoring Institution may be established. Funds can be made available for these planning purposes. Other considerations in the planning process include:

- Resident Employment
- Residency Model Technical Assistance
  - New Independent Residency or Sponsoring Institution
  - Expansion of an Existing Residency Primary Care Program
  - Creating a new Rural Training Track. This model includes an urban and rural collaboration in the training of residents to ensure that all training requirements are met.
  - Clinical Delivery Model - Residency programs require multiple partnerships for successful implementation. Inpatient relationships
  - Other

Stage 2: ACGME Application Development

The Applicant shall submit a narrative stating whether it seeks HSD assistance in the development of its ACGME application.

- Sponsoring Institution application development assistance, if necessary
- Program application development assistance
- Program Application pre-submission review
- ACGME Application Process Assistance.

**Stage 3: Pre-Operations (time between program approval and beginning of residency training)**

The Applicant shall submit a narrative stating whether it seeks assistance in program pre-operations. During this time, there is typically a Program Director on site, faculty and administrative staff but no residents. This period is typically used for faculty development, curriculum refinement, community information and involvement, resident software installation and learning, collaboration refinement, etc. There are significant non-reimbursed costs associated with a start-up period that could last two years. Please describe the start-up time and efforts in application, including but not limited to faculty needs (e.g. additional faculty needed, recruitment, training and faculty and staff development, conference attendance, etc.) where grant funding could be helpful.

**10.3 APPLICATION BUDGET**

The Budget should tie directly to the workplan. Applicants should estimate time and effort associated with completing the workplan objective and tasks within the timeframes presented. Non-staff time would be focused on technical assistance or needs directly related to residency program development costs as opposed to health service operations. Definitions for each item in the sample budget are included in Appendix A. Applicants may add other items and eliminate those in the sample that are not relevant to the proposal or workplan.

Applicants with any existing proformas or budgets should include those documents as attachments. Budgets should incorporate costs including, but not limited to, direct costs of program implementation (e.g. resident and faculty salaries, benefits and related administrative costs, DIO, Program Director, and Program Coordinator salary, subscription, dues, and licenses). Applicants requesting support for the development of a financial statement regarding program cost should indicate such request.

**10.4 FINANCIAL VIABILITY**

10.4.1 *Existing GME Program:* Provide financial statements and audits of the GME program going back two fiscal years. Under revenue, include grant funding and all other sources of income that supported the program. Under expenditures, include all expenditures related to operation of the program, regardless of funding source.

10.5.2 Expanding Existing Programs: Documentation of request for and national accreditor approval of additional residency positions.
- Provide evidence of Applicant’s request to- and approval from- ACGME for the increase in number of program positions. If the request and approval are for a temporary increase, provide a plan, including timetable, for obtaining national accreditor approval for a permanent increase in number of program positions.
- If a request for approval of program expansion has not been submitted to ACGME at the time of this Application, Applicant must submit a draft of the letter of request that Applicant intends to submit to the accrediting body and specify the planned date of submission. Applicant must specify the expected date of national accreditor approval for the expansion. HSD will consult with Awarded Applicants to determine by when national accreditation for the expanded program must be in effect.

In the event any issues cannot be resolved, the dispute resolution process provided for in New Mexico statute shall be used by HSD and Awarded Applicant to attempt to resolve any claim for breach of Awarded Applicant.

12.35 SEVERABILITY AND STRICT PERFORMANCE

The invalidity, illegality, or unenforceability of any provisions of the Contract shall in no way affect the validity, legality, or enforceability of any other provisions. Each and every right granted to HSD and Awarded Applicant hereunder or under any other document delivered hereunder or in connection herewith, or allowed them by law or equity, shall be cumulative and may be exercised from time to time. Failure by HSD or Awarded Applicant at any time to require strict performance of any contractual provision or obligation contained herein shall not constitute a waiver or diminish the rights of either party thereafter to demand strict compliance. HSD’s review, approval, acceptance of, or payment for any of the services provided in the Contract shall not be construed to operate as a waiver of any of its rights under the Contract, or of any cause of action arising out of the performance of the services required by the Contract.
