42 CFR 433.33

6.3 State Financial Participation

- a) State funds are used in both assistance and administration

State funds are used to pay all of the non-Federal share of total expenditures under the plan.

There is local participation. State funds are used to pay not less than 40 percent of the non-Federal share of the total expenditures under the plan. There is a method of apportioning Federal and State funds among the political subdivisions of the State on an equalization or other basis which assures that lack of adequate funds from local sources will not result in lowering the amount, duration, scope or quality of care and services or level of administration under the plan in any part of the State.

- b) State and Federal funds are apportioned among the political subdivisions of the State on a basis consistent with equitable treatment of individuals in similar circumstances throughout the State.
