Except as otherwise noted in the state plan, state developed fee schedule rates are the same for both governmental and private providers. The agency’s dental fee schedule rates were set as of July 1, 2019 and are effective for services provided on or after that date. All rates are published at [http://www.hsd.state.nm.us/providers/fee-schedules.aspx](http://www.hsd.state.nm.us/providers/fee-schedules.aspx). Notice of changes to rates will be made as required by 42 CFR 447.205.

II. Targeted Access Payments

The amount of supplemental targeted access payments is based on New Mexico’s most recent upper payment limit (UPL) demonstration for each quarter. The payment amount is calculated by taking uncompensated care (UC) payments made to the hospitals during CY19 and comparing them to the new hospital access payments that will be made to the facilities during CY20. The calculated difference will be paid to the hospitals if it falls within the UPL Gap of the respective hospital class as determined by the UPL demonstration. The targeted access payments are designed as a supplemental payment within existing and applicable limits in accordance with New Mexico’s most recent UPL demonstration for each of the quarters. The Human Services Department (HSD) will verify that all qualifying hospitals receiving targeted access payments have Medicaid fee-for-service utilization. HSD will provide demonstration that inpatient/outpatient hospital payments for the quarters are within the applicable fee-for-service UPL as defined in 42 CFR 447.272. Payments will not exceed the UPL. Eligibility for payments is limited to sole community provider (SCP) hospitals and the state teaching hospital. The targeted access payments will be made quarterly for only the CY20 period. Thereafter, targeted access payments will cease, and only hospital access payments will be made.
