**COMMUNITY BENEFIT**

Revision dates: August 15, 2014; March 1, 2016, March 1, 2017
Effective date: January 1, 2014

Community Benefits (CB) are services that provide assistance to individuals who require long-term supports and services so they may remain in the family residence, in their own home or in community residences. This program serves as an alternative to placement in a Nursing Facility (NF). Community Benefits do not provide 24-hour care and are intended as a supplement to an individual’s natural supports. Community Benefits are available to members meeting Nursing Facility Level of Care (NF LOC). The member’s Managed Care Organization (MCO) shall provide the Community Benefit as determined appropriate based on the Comprehensive Needs Assessment (CNA). Members eligible for the Community Benefit have the option of selecting Agency-Based Community Benefit (ABCB) or Self-Directed Community Benefit (SDCB).

Two eligibility components must be met prior to receiving CB: financial eligibility, determined by the Human Services Department/Income Support Division (HSD/ISD) and medical eligibility, determined by a MCO through a NF LOC evaluation conducted as part of the CNA.

Members who have a Full Medicaid category of eligibility may be eligible for CB if they meet the NF LOC and indicate they have a need for CB. These individuals should not contact the New Mexico Aging & Long Term Services Department, Aging and Disability Resource Center (ADRC) but instead request a CNA from their MCO to be assessed for CB. These individuals do not need an allocation to access CB (see Section 5 “Transitions of Care”).

REGISTRATION:

REGISTRATION FOR THE COMMUNITY BENEFIT FOR MEMBERS NOT OTHERWISE MEDICAID ELIGIBLE (NOME)

Describes the process to register individuals who request Community Benefit services and describes the allocation process.
The Aging and Long Term Services Department/Aging and Disability Resource Center (ALTSD/ADRC, referred to as ADRC from this point forward) manages the Centennial Care Central Registry by enrolling individuals, completing the pre-assessment, assigning the category of registration, and sending Exception requests to HSD/MAD/LTSSB. Any individual has the right to place his or her name on the Central Registry if: (1) it has been determined that the individual is not currently Medicaid eligible; (2) current Medicaid shows a termination date; or (3) the individual has applied for Medicaid and received a denial.

At the time of registration, if the individual has a Medicaid category of eligibility entitling the individual to full Medicaid benefits, the Aging and Disability Resource Center (ADRC) shall refer the individual to his or her managed care organization (MCO).

Any individual has the right to register/apply for multiple waivers at the same time. Individuals may place his or her name on the Central Registry by submitting a MAD 325, or by calling or appearing in person to the ADRC. An individual must be a resident of the State of New Mexico in order to be registered. Residency is determined based on the State’s eligibility Rule for Medicaid eligibility.

Individuals should note that the Central Registry records information such as: (1) the demographic information about the applicant; (2) the date of registration; and (3) the applicant’s specific long term care needs.

Individuals are also required to complete a pre-assessment which aids the ADRC staff in directing the applicant to the appropriate category of registration: Community Reintegration, Regular, Expedite, and Regular, or Community Reintegration. The registration types are defined as:

1. Community Reintegration (CRI) – provides individuals the opportunity to move out of a nursing facility (SNF) and back into the community for a registrant who is in a licensed skilled nursing facility (SNF) at the time of registration. In order to be eligible for CRI, the registrant must have resided in an SNF for 90 consecutive days. Within the 90 days, the registrant could have been hospitalized and returned to the NF, for the remainder of the 90 days. The 90 days which may include time the registrant was in a hospital, and returned to the SNF without a break in service. CRI provides individuals the opportunity to move out of an SNF and back into the community. The individual participating in the community reintegration process must be capable of comprehending the decisions being made or have a primary caregiver or legal surrogate that understands the options. The individual must not require Agency Based Community Benefit (ABCB) services 24 hours per day in his or her home on an ongoing basis. The intent of CRI is to assist the individual to become integrated into his/her community and be as independent as possible. The MCO must be able to ensure a reasonable level of health and safety for the member while ABCB services are being provided. ABCB services must be cost-effective and services provided under the ABCB must not exceed the average annual per capita costs of Nursing Facility services as determined by The Human Services Department (HSD). The HSD/Medical Assistance Division (MAD) can refuse ABCB services to individuals whose health and safety would be at risk in the community as deemed by the interdisciplinary team that includes the MCO, the primary care physician (PCP) and service providers, in conjunction with technical assistance from HSD/MAD.
CRI registration for the ABCB can be completed by calling the Aging and Disability Resource Center (ADRC). Once a continuous 90 day stay is confirmed by the HSD/MAD/LTSSB and funding is available, a community re-integration allocation is granted. The HSD/MAD/LTSSB sends the allocation packet to the registrant/representative. The allocation paperwork (PFOC) must be returned to the HSD/MAD/LTSSB within 45 calendar days or the allocation will be closed and the registrant will need to re-register on the Central Registry and wait for another allocation. If an extension is needed, HSD/MAD/LTSSB must be notified to grant the extension (see “The Allocation Process: Timelines for the Allocation Packet”).

Once the PFOC and HSD 100 are received by HSD/MAD/LTSSB, it is faxed to the local HSD/ISD office the allocation is processed (see “The Allocation Process: Processing PFOCs”). It is also faxed to the MCO. Once the allocation has been granted, it is the MCO’s responsibility to ensure services are authorized and in place prior to discharge, so the registrant may have leave the nursing home, if a safe and appropriate discharge is arranged. Ensure services are authorized and in place.

The MCO must contact the registrant within 5 business days of receipt of the PFOC to schedule an initial assessment to determine medical eligibility. The assessor explains the CRI process to the applicant/registrant/representative. If the registrant/representative wishes to remain in the institution, the Waiver Refusal Withdrawal Form must be completed, signed and faxed mailed to HSD/MAD/LTSSB. If the registrant/representative wishes to proceed with the eligibility process, the MCO proceeds with the medical eligibility process.

Once medical and financial eligibility is approved, ABCB services will be initiated.

2. Expedited (EXP) – a registrant who has an urgent need for care and whose health and safety is at extreme risk. To be eligible, the registrant must:
   a. be pre-assessed by the ADRC to require total assistance in at least three (3) categories of ADLs and
   b. and meet a minimum score a minimum of 48 points on the ADRC pre-assessment.

   a. If an individual who was receiving Community Benefits under a Full Medicaid category of assistance, has had his or her Full Medicaid eligibility terminated, he or she can call the ADRC and request an expedited registration.

   Individuals diagnosed as having Acquired Immunodeficiency Syndrome (AIDS) or AIDS-Related Complex (ARC) may be registered with an expedited category of registration. Once registered, the ADRC notifies the HSD/MAD Agency Based Community Benefit program manager, and an expedited allocation will be released. The MCO will conduct the Comprehensive Needs Assessment (CNA) and Nursing Facility Level of Care (NFLOC) to verify the AIDS or ARC diagnosis and assist with access to Community Benefits.
Individuals that no longer qualify for the Medically Fragile Waiver and are ventilator-dependent, may also be registered with an expedited category of registration. The University of New Mexico, Center for Development and Disability Medically Fragile Case Management Program (UNM/CDD-MFCMP) will notify the HSD/MAD Agency-Based Community Benefits program manager of the request to transition to Community Benefits and an expedited allocation will be released.

3. **Regular (REG)** – a registrant who does not meet the criteria for any of the other registration types, based upon the ADRC pre-assessment, CRI or EXP.

Individuals may request an Exception to their category of registration and request an Expedited allocation to the ADRC, under extreme circumstances. The ADRC will send the request to the HSD/MAD/LTSSB who will consider issuing an Expedited allocation. The following are examples of circumstances that may warrant an exception request for an Expedited allocation:

a. to ensure continuity of care, an individual was receiving Community Benefits under a Full Medicaid category of assistance and has had his or her Full Medicaid eligibility terminated. An individual must inform the ADRC that he or she has lost his or her Full Medicaid category of assistance, and was receiving Community Benefits. The request must be made to ADRC within six (6) months of termination of the Full Medicaid category of assistance,

b. an individual was in an approved NF for 90 consecutive days and who was not registered for a CRI allocation prior to discharge. The request must be made to ADRC within three (3) months after discharge from the NF,

c. an individual is residing in an Assisted Living Facility and can no longer afford the private pay;

d. an individual has been diagnosed as having Acquired Immunodeficiency Syndrome (AIDS) or Aids-Related Complex (ARC);

e. an individual who no longer qualifies for the Medically Fragile Waiver and is ventilator dependent; or

The HSD/MAD/LTSSB manages the allocation process by mailing Allocation Packets to registrants and forwarding completed allocation paperwork to HSD/ISD and to the MCO.

In order to facilitate the allocation process, the ADRC shall:

1. Maintain accurate registrant information in the Central Registry, including coding of
category of registration for each registrant; or and

3. Close/Deactivate a registration in accordance with the closing of an allocation as described herein.

HSD/MAD shall maintain a list of registrants with the category of registration, sorted by the date of registration.

3. If there is no response to the LOI Allocation Packet either after the original 45 calendar days or after the expiration of any granted extensions, HSD/MAD/LTSSB shall send a closure letter to the registrant’s mailing address on file.

Processing PFOCs:
Once HSD/MAD/LTSSB receives the PFOC and the HSD 100, HSD/MAD/LTSSB will sort and review the documents PFOCs to ensure that they are complete and signed by the registrant.

1. If the PFOC and/or HSD 100 are not complete and/or signed, the document(s) PFOC will be returned to the registrant, identifying the correct information required to process the document(s) PFOC, and providing the registrant up to thirty (30) calendar days to complete and return them PFOC. Failure to timely return the document(s) PFOC within the 30 calendar day time period will result in closure as described herein.
