### **SECTION I. EXECUTIVE SUMMARY**

### The Mission of the Human Services Department

To reduce the impact of poverty on people living in New Mexico by providing support services that help families break the cycle of dependency on public assistance.

### Overview of the Department

The New Mexico Human Services Department (HSD) strives to address the concerns that impact all New Mexicans. This includes the state's Native American population, living both on and off tribal lands. HSDs priorities include providing access for individuals to our programs and to strengthen our relationships and partnerships with New Mexico Indian Tribes, Nations and Pueblos.

HSD manages a \$5.82 billion dollar budget of state and federal funds and administers services to more than 800,000 low-income New Mexicans in the following programs.

- Medicaid and Children's Health Insurance Program (CHIP)
- Supplemental Nutrition Assistance Program (SNAP)
- SNAP Education Program (SNAP-Ed)
- Temporary Assistance for Needy Families (TANF)
- The Emergency Food Assistance Program (TEFAP)
- School Commodity Foods Program
- Meals for Homeless People
- General Assistance for low-income individuals with disabilities
- Community Services Block Grant (CSBG)
- Refugee Resettlement Program (RRS)
- Low-Income Home Energy Assistance Program (LIHEAP)
- Child Support Establishment and Enforcement
- Behavioral Health Services (mental illness, substance abuse and compulsive gambling)

The programs are administered through four Program Divisions:

Medical Assistance Division (MAD)

Income Support Division (ISD)

Child Support Enforcement Division (CSED)

Behavioral Health Services Division (BHSD)

HSD is also a key member of the <u>NM Behavioral Health Collaborative</u> and works across state agencies to collaborate on behavioral health issues.

Susana Martinez, Governor

Brent Earnest, HSD Cabinet Secretary

### SECTION II. CONTACT INFORMATION

### Human Services Department Tribal Liaisons

To promote collaboration and communication between the Department and the Tribes, in 2009 HSD created three Native American Liaison positions serving in the Office of the Secretary, the Medical Assistance Division, and in the Behavioral Health Services Division. Tribal Liaisons interact closely with tribal communities, facilitate consultations and collaborations, and are a direct resource to tribal leadership, Indian Health Service, tribal programs and urban Indian programs. Liaisons strive to improve communication and strengthen collaborations that lead to more effective government-to-government consultations.

### SECTION III. AGENCY POLICY PROMOTING STATE-TRIBAL RELATIONS

In 2009 Senate Bill 196 was signed into law, thus enacting the State-Tribal Collaboration Act (STCA). The STCA is a statutory commitment of New Mexico state government to work with Tribes on a government-to-government basis to better collaborate and communicate on issues of mutual concern. These state agencies and others subsequently created the Healthy New Mexico Tribal-State Workgroup to develop its State-Tribal Collaboration Policy. In 2009 the HSD Cabinet Secretary, and all succeeding Secretaries, have signed the HSD STC Policy into effect on behalf of the Department. The Policy provides direction to employees in developing effective and positive state-tribal relationships through training and orientation to the STCA. HSD has instituted department-wide training required for management staff on the HSD Consultation, Collaboration and Communication Policy and the State-Tribal Collaboration Act.

### SECTION IV. PROGRAMS AND SERVICES

### MEDICAL ASSISTANCE DIVISION (MAD), CENTENNIAL CARE

On January 1, 2014 new health coverage options became available to qualifying Native Americans through Centennial Care and Medicaid Expansion. For Native Americans in New Mexico, the Medicaid program works hand-in-hand with the Indian Health Service and Tribal and Urban (ITU) health clinics to provide access to medical services. Most Native Americans currently on Medicaid are not required, but can choose, to be in Centennial Care. They may stay in Fee-for-Service Medicaid, depending on their current Medicaid services, or choose a managed care organization (MCO) with Centennial Care. Native Americans can always go to ITU clinics and hospitals for healthcare services whether they are in Fee-for-Service Medicaid or whether they choose Centennial Care. In July 2015 there were 117,049 Native Americans enrolled in Medicaid.

Addendum C - Native American Enrollment Data

### **BEHAVIORAL HEALTH SERVICES DIVISION (BHSD)**

The purpose of the Behavioral Health Services Division (BHSD) is to lead the management of the public behavioral health service system through its role as the state mental health and substance abuse authority, through its role in the New Mexico Behavioral Health Collaborative (Collaborative), and through the purchase of adult behavioral health services in the state managed health care system.

Addendum D - Native American Programs Funding Allocations

### **INCOME SUPPORT DIVISION (ISD)**

The Income Support Division (ISD) assists eligible low-income families through cash, food, medical, energy assistance, and supportive services so they can achieve self-sufficiency. ISD determines and maintains eligibility for New Mexico Native American participants and enters into agreements to better serve the Native American population nearest their location. Addendum E - Native American Recipients by Program

### CHILD SUPPORT ENFORCEMENT DIVISION (CSED)

CSED administers the Child Support Enforcement Program (CSEP) for New Mexico; CSEP is a federal-state partnership created to establish and enforce the support obligations owed by parents to their children. CSED helps locate missing parents, establishes legal paternity, and oversees child support orders. CSED is in full support of tribes and pueblos wishing to develop and operate their own Tribal Child Support IV-D Programs and will provide technical assistance. CSED also provides child support services to tribes and pueblos across New Mexico upon request. Addendum F - Child Support Collections

### **ADDENDA**

Addendum A HSD Organizational Chart

• Addendum B New Mexico Human Services Department State-Tribal Consultation,

Collaboration and Communication Policy

### State-Tribal Consultation, Collaboration and Communication Policy

### Section i. Background

- A. in 2003, the Governor of the State of New Mexico and 21 out of 22 Indian Tribes of New Mexico adopted the 2003 Statement of Policy and Process (Statement), to "establish and promote a relationship of cooperation, coordination, open communication and good will, and [to] work in good faith to amicably and fairly resolve issues and differences." The Statement directs State agencies to interact with the Tribal governments and provides that such interaction "shall be based on a government-to-government relationship" aimed at furthering the purposes of meaningful government-to-government consultation.
- B. in 2005, Governor Richardson issued Executive Order 2005-004 mandating that the Executive State agencies adopt pilot tribal consultation plans with the input of the 22 New Mexico Tribes.
- C. The New Mexico Health and Human Services Tribal Consultation meeting was held on November 17-18, 2005 to carry out Governor Richardson's Executive Order 2005-004 calling for a statewide adoption of pilot tribal consultation plans to be implemented with the 22 Tribes within the State of New Mexico. This meeting was a joint endeavor of the five executive state agencies comprised of the Aging and Long-Term Services Department, the Children, Youth and Families Department, the Department of Health, the Human Services Department and the Indian Affairs Department. A State-Tribal Work Plan was developed and sent out to the Tribes on June 7, 2006 for review pursuant to the Tribal Consultation meeting.
- D. On March 19, 2009, Governor Bill Richardson signed SB196, the State Tribal Coliaboration Act (hereinafter "STCA") into iaw. The STCA reflects a statutory commitment of the state to work with Tribes on a government-to-government basis. The STCA establishes in state statute the intergovernmental relationship through several interdependent components and provides a consistent approach through which the State and Tribes can work to better coliaborate and communicate on issues of mutual concern.
- E. In Fall 2009, the Healthy New Mexico Group, comprised of the Aging and Long Term Services Department, the Children, Youth and Families Department, the Department of Health, the Department of Veterans' Services, the Human Services Department, the Indian Affairs Department, and the Office of African American Affairs, met with representatives from the Tribes to develop and overarching Policy that, pursuant to the STCA:
  - Promotes effective collaboration and communication between the Agency and Tribes;
  - 2. Promotes positive government-to-government relations between the State and Tribes;
  - 3. Promotes cultural competence in providing effective services to American indians/Alaska Natives;
  - 4. Establishes a method for notifying employees of the Agency of the provisions of the STCA and the Policy that the Agency adopts.
- F. The Policy meets the intent of the STCA and defines the Agency's commitment to collaborate and communicate with Tribes.

### Section II. Purposes

Through this Policy, the Agency will seek to improve and/or maintain partnerships with Tribes. The purpose of the Policy is to use or build-upon previously agreed-upon processes when the Agency initiates programmatic actions that have tribal implications.

### Section III. Principles

- A. Recognize and Respect Sovereignty The State and Tribes are sovereign governments. The recognition and respect of sovereignty is the basis for government-to-government relations and this Policy. Sovereignty must be respected and recognized in government-to-government consultation, communication and collaboration between the Agency and Tribes. The Agency recognizes and acknowledges the trust responsibility of the Federal Government to federally recognized Tribes.
- B. Government-to-Government Relations. The Agency recognizes the Importance of collaboration, communication and cooperation with Tribes. The Agency further recognizes that Agency programmatic actions may have tribal implications or otherwise affect American Indians/Alaska Natives. Accordingly, the Agency recognizes the value of dialogue between Tribes and the Agency with specific regard to those programmatic actions.
- C. Efficiently Addressing Tribal Issues and Concerns The Agency recognizes the value of Tribes' input regarding Agency programmatic actions. Thus, it is important that Tribes' interests are reviewed and considered by the Agency in its programmatic action development process.
- D. Collaboration and Mutual Resolution The Agency recognizes that good faith, mutual respect, and trust are fundamental to meaningful collaboration and communication policies. As they arise, the Agency shall strive to address and mutually resolve concerns with impacted Tribes.
- E. Communication and Positive Relations The Agency shall strive to promote positive government-to-government relations with Tribes by: (1) interacting with Tribes in a spirit of mutual respect; (2) seeking to understand the varying Tribes' perspectives; (3) engaging in communication, understanding and appropriate dispute resolution with Tribes; and (4) working through the government-to-government process to attempt to achieve a mutually-satisfactory outcome.
- F. Informal Communication The Agency recognizes that formal consultation may not be required in all situations or interactions. The Agency may seek to communicate with and/or respond to Tribes outside the consultation process. These communications do not negate the authority of the Agency and Tribes to pursue formal consultation.
- G. Health Care Delivery and Access Providing access to health care is an essential public health responsibility and is crucial for improving the health status of all New Mexicans, including American Indians/Alaska Natives in rural and urban areas. American Indians/Alaska Natives often lack access to programs dedicated to their specific health needs. This is due to several factors prevalent among American Indians/Alaska Natives, including but not limited to, lack of resources, geographic isolation, and health disparities. The Agency's objective is to work collaboratively with Tribes to insure adequate and quality health service delivery in all tribal communities, as well as with individual American Indians/Alaska Natives in urban areas or otherwise outside tribal communities.
- H. Distinctive Needs of American Indians/Alaska Natives Compared with other Americans, American Indians/Alaska Natives experience on overall lower health status and rank at, or near, the bottom of other social, educational and economic indicators. American indians/Alaska Natives have a life expectancy that is four years less than the overall U.S. population and they have higher mortality rates involving diabetes, alcoholism, cervical cancer, suicide, heart disease, and tuberculosis. They also experience higher rates of behavioral health issues, including substance abuse. The Agency will strive to ensure with Tribes the

accountability of resources, including a fair and equitable allocation of resources to address these health disparities. The Agency recognizes that a community-based and culturally appropriate approach to health and human services is essential to maintain and preserve American Indian/Alaska Native cultures.

- i. Establishing Partnerships in order to maximize the use of limited resources, and in areas of mutual interests and/or concerns, the Agency seeks partnerships with Tribes and other interested entities, including academic institutions and Indian organizations. The Agency encourages Tribes to aid in advocating for state and federal funding for tribal programs and services to benefit all of the State's American Indians/Alaska Natives.
- J. intergovernmental Coordination and Collaboration
  - 1. interacting with federal agencies. The Agency recognizes that the State and Tribes may have issues of mutual concern where it would be beneficial to coordinate with and involve federal agencies that provide services and funding to the Agency and Tribes.
  - 2. Administration of similar programs. The Agency recognizes that under Federal tribal self-governance and self-determination laws, Tribes are authorized to administer their own programs and services which were previously administered by the Agency. Although the Agency's or Tribe's program may have its own federally approved plan and mandates, the Agency shall strive to work in cooperation and have open communication with Tribes through a two-way dialogue concerning these program areas.
- K. Cultural and Linguistic Competency The Agency shall strive for its programmatic actions to be culturally relevant and developed and implemented with cultural and linguistic competence.

### Section IV. Definitions

- A. The following definitions shall apply to this Policy:
  - 1. American Indian/Alaska Native Pursuant the STCA, this means:
    - a) Individuals who are members of any federally recognized indian tribe, nation or pueblo;
    - b) individuals who would meet the definition of "Indian" pursuant to 18 USC 1153; or
    - c) Individuals who have been deemed eligible for services and programs provided to American Indians and Alaska Natives by the United States public health service, the Bureau of Indian Affairs or other federal programs.
  - 2. Collaboration Collaboration is a recursive process in which two or more parties work together to achieve a common set of goals. Collaboration may occur between the Agency and Tribes, their respective agencies or departments, and may involve Indian organizations, if needed. Collaboration is the timely communication and joint effort that lays the groundwork for mutually beneficial relations, Including identifying issues and problems, generating improvements and solutions, and providing follow-up as needed.
  - 3. Communication Verbal, electronic or written exchange of information between the Agency and Tribes.
  - 4. Consensus Consensus is reached when a decision or outcome is mutually-satisfactory to the Agency and the Tribes affected and adequately addresses the concerns of those affected. Within this process it is understood that consensus, while a goal, may not always be achieved.

- 5. Consultation Consultation operates as an enhanced form of communication that emphasizes trust and respect. It is a decision making method for reaching agreement through a participatory process that: (a) involves the Agency and Tribes through their official representatives, (b) actively solicits input and participation by the Agency and Tribes; and (c) encourages cooperation in reaching agreement on the best possible decision for those affected. It is a shared responsibility that allows an open, timely and free exchange of information and opinion among parties that, in turn, may lead to mutual understanding and comprehension. Consultation with Tribes is uniquely a government-to-government process with two main goals: (a) to reach consensus in decision-making; and (b) whether or not consensus is reached, to have considered each other's perspectives and honored each other's sovereignty.
- 6. Cultural Competence Refers to an ability to interact effectively with people of different cultures. Cultural competence comprises four components: (a) awareness of one's own cultural worldview, (b) appreciation of cultural differences, (c) knowledge of different cultural practices and worldviews, and (d) honing cross-cultural skills. Developing cultural competence improves one's ability to understand, communicate with, provide services and resources to, and effectively interact with people across cultures.
- 7. Culturally Relevant Describes a condition where programs or services are provided according to the clients' cultural backgrounds.
- 8. Government Government Describes the Intergovernmental relationship between the State, Tribes and the Federal government as sovereigns.
- Indian Organizations Organizations, predominantly operated by American Indians/Alaska Natives, that represent or provide services to American Indians and/or Alaska Natives living on and/or off tribai iands and/or in urban areas.
- 10. Internal Agency Operation Exemption Refers to certain internal agency operations and processes not subject to this Policy. The Agency has the authority and discretion to determine what internal operations and processes are exempt from this Policy.
- 11. Internal Tribal Government Operations Exemption Refers to certain internal tribal government operations not subject to this Policy. Each Tribe has the authority and discretion to determine what internal operations and processes are exempt from this Policy.
- 12. Linguistic Competence Refers to one's capacity to communicate effectively and convey information in a manner that is understood by culturally diverse audiences.
- 13. Participation Describes an ongoing activity that allows interested parties to engage one another through negotiation, compromise and problem solving to reach a desired outcome.
- 14. Programmatic Action Actions related to the development, Implementation, maintenance or modification of policies, rules, programs, services, legislation or regulations by the Agency, other than exempt internal agency operations, that are within the scope of this Policy.
- 15. Tribal Advisory Body A duly appointed group of individuals established and organized to provide advice and recommendations on matters relative to Agency programmatic action.
- 16. Tribal implications Refers to when a programmatic action by the Agency will have substantial direct effect(s) on American indians/Alaska Natives, one or more Tribes, or on the relationship between the State and Tribes.

- 17. Tribal Liaison Refers to an individual designated by the Agency, who reports directly to the Office of the Agency Head, to:
  - a) Assist with developing and ensuring the implementation of this Policy;
  - b) Serve as a contact person responsible for maintaining ongoing communication between the Agency and affected Tribes; and
  - c) Ensure that training is provided to staff of the Agency as set forth in Subsection B of Section 4 of the STCA.
- 18. Tribal Officials Elected or duly appointed officials of Tribes or authorized intertribal organizations.
- 19. Tribes Means any federally recognized indian nation, tribe or pueblo located wholly or partially within the boundaries of the State of New Mexico. It is understood that "Tribes" in

the plural form means that or those tribe(s) upon which programmatic actions have tribal implications.

20. Work Groups – Formal bodies and task forces established for a specific purpose through joint effort by the Agency and Tribes. Work Groups can be established to address or develop more technical aspects of programmatic action separate or in conjunction with the formal consultation process. Work groups shall, to the extent possible, consist of members from the Agency and participating Tribes.

### Section V. General Provisions

### A. Coliaboration and Communication

To promote effective collaboration and communication between the Agency and Tribes relating to this Policy, and to promote cultural competence, the Agency shall utilize, as appropriate: Tribal Liaisons, Tribal Advisory Bodies, Work Groups and Informal Communication.

- 1. The Role of Tribal Liaisons. To promote State-Tribe interactions, enhance communication and resolve potential issues concerning the delivery of Agency services to American indians/Alaska Natives, Tribal Liaisons shall work with Tribal Officials and Agency staff and their programs to develop policies or implement program changes. Tribal Liaisons communicate with Tribal Officials through both formal and informal methods of communication to assess:
  - a) issues or areas of tribal interest relating to the Agency's programmatic actions;
  - b) Tribal interest in pursuing collaborative or cooperative opportunities with the Agency; and
  - c) the Agency's promotion of cultural competence in its programmatic actions
- 2. The Role of Tribal Advisory Bodies. The Agency may solicit advice and recommendations from Tribal Advisory Bodies to collaborate with Tribes in matters of policy development prior to engaging in consultation, as contained in this Policy. The Agency may convene Tribal Advisory Bodies to provide advice and recommendations on departmental programmatic actions that have tribal implications. input derived from such activities is not defined as this Policy's consultation process.

3. The Role of Work Groups. The Agency Head may collaborate with Tribal Officials to appoint an agency-tribal work group to develop recommendations and provide input on Agency programmatic actions as they might impact Tribes or American Indians/Alaska Natives. The Agency or the Work Group may develop procedures for the organization and implementation of work group functions. (See, e.g., the sample procedures at Attachment A.)

### 4. informal Communication.

- a) Informal Communication with Tribes. The Agency recognizes that consultation meetings may not be required in all situations or interactions involving State-Tribal relations. The Agency recognizes that Tribal Officials may communicate with appropriate Agency employees outside the consultation process, including with Tribal Liaisons and Program Managers, in order to ensure programs and services are delivered to their constituents. While less formal mechanisms of communication may be more effective at times, this does not negate the Agency's or the Tribe's ability to pursue formal consultation on a particular issue or policy.
- b) informal Communication with Indian Organizations. The State-Tribal relationship is based on a government-to-government relationship. However, in certain instances, communicating with Indian Organizations can benefit and assist the Agency, as well. Through this Policy, the Agency recognizes that it may solicit recommendations, or otherwise collaborate and communicate with these organizations.

### **B.** Consultation

Consultation shall be between the Agency Head and Tribal Officials or their delegated representatives who possess authority to negotiate on their behalf.

- Applicability Tribal consultation is most effective and meaningful when conducted before taking
  action that impacts Tribes and American Indians/Alaska Natives. The Agency acknowledges that a
  best case scenario may not always exist, and that the Agency and Tribes may not have sufficient time
  or resources to fully consult on a relevant issue. If a process appropriate for consultation has not
  aiready begun, through this Policy, the Agency seeks to initiate consultation as soon as possible
  thereafter.
- 2. Focus The principle focus for government –to-government consultation is with Tribes through their Tribal Officials. Nothing herein shall restrict or prohibit the ability or willingness of Tribal Officials and the Agency Head to meet directly on matters that require direct consultation. The Agency recognizes that the principle of intergovernmental collaboration, communication and cooperation is a first step in government-to-government consultation, and is in accordance with the STCA.
- 3. Areas of Consultation The Agency, through reviewing proposed programmatic actions, shall strive to assess whether such actions may have Tribal Implications, as well as whether consultation should be implemented prior to making its decision or implementing its action. In such instances where Tribal Implications are identified, the Agency shall strive to pursue government-to-government consultation with relevant Tribal Officials. Tribal Officials also have the discretion to decide whether to pursue and/or engage in the consultation process regarding any proposed programmatic action not subject to the Internal Agency Operation Exemption.
- 4. Initiation Written notification requesting consultation by and Agency or Tribe shall serve to initiate the consultation process. Written notification, at the very least, should:

- a) identify the proposed programmatic action to be consulted upon.
- b) identify personnel who are authorized to consult on behalf of the Agency or Tribe.
- Process The Agency, in order to engage in consultation, may utilize duly-appointed work groups, as set forth in the previous section, or otherwise the Agency Head or a duly-appointed representative may meet directly with Tribal Officials, or set forth other means of consulting with impacted Tribes as the situation warrants.
  - a) Consultation shall be between the Agency Head and Tribal Officials or their delegated representatives with authority to negotiate on their behalf.
  - b) The Agency will make a good faith effort to invite for consultation all perceive impacted Tribes.

### 6. Limitations on Consultation -

- a) This Policy shall not diminish any administrative or legal remedies otherwise available by law to the Agency or Tribe.
- b) The Policy does not prevent the Agency and Tribes from entering into Memoranda of Understanding, intergovernmental Agreements, Joint Powers Agreement, professional service contracts, or other established administrative procedures and practices allowed or mandated by Federal, State or Tribal laws or regulations.
- c) Final Decision Making Authority: The Agency retains the final decision-making authority with respect to actions undertaken by the Agency and within Agency jurisdiction. In no way should this Policy impede the Agency's ability to manage its operations.

### Section Vi. Dissemination of Policy

Upon adoption of this Policy, the Agency will determine and utilize an appropriate method to distribute the Policy to all its employees.

### Section VII. Amendments and Review of Policy

The Agency shall strive to meet periodically with Tribes to evaluate the effectiveness of this policy, including the Agency's promotion of cultural competency. This Policy is a working document and may be revised as needed.

### Section Vill. Effective Date

This Policy became effective on December 18, 2009 and has been updated by the Agency Head.

### Section IX. Sovereign immunity

The Policy shall not be construed to waive the sovereign immunity of the State of New Mexico or any Tribe, or to create a right of action by or against the State of New Mexico or a Tribe, or any State or Tribal Official, for failing to comply with this Policy. The Agency shall have the authority and discretion to designate Internal operations and processes that are excluded from the Policy, and recognizes that Tribes are afforded the same right.

Section XI. Closing Statement/Signatures

The New Mexico Human Services Department hereby adopts the State-Tribal Consultation, Collaboration and Communication Policy.

Kathryn Falls, Cabinet Secretary Human Services Department

Date

### **ATTACHMENT A**

### Sample Procedures for State-Tribal Work Groups

DISCLAIMER: The following liiustration serves only as sample procedures for State-Tribal Work Groups. The inclusion of this Attachment does not mandate the adoption of these procedures by a work group. Whether these, or alternative procedures, are adopted remains the sole discretion of the Agency Head and/or as duly-delegated to the Work Group.

- A. Membership The Work Group should be composed of members duly appointed by the Agency and as appropriate, participating Tribes, for specified purpose(s) set forth upon the Work Group's conception. Continued membership and replacements to Work Group participants may be subject to protocol developed by the Work Group, or otherwise by the designating authority or authorities.
- B. Operating Responsibility The Work Group should determine lines of authority, responsibilities, definition of issues, delineation of negotiable and non-negotiable points, and the scope of recommendations it is to disseminate to the Agency and Tribes to review, if such matters have not been established by the delegating authority or authorities.
  - C. Meeting Notices Written notices announcing meetings should Identify the purpose or agenda, the Work Group, operating responsibility, time frame and other relevant tasks. All meetings should be open and publicized by the respective Agency and Tribal offices.
  - D. Work Group Procedures The Work Group may establish procedures to govern meetings. Such procedures can include, but are not limited to:
    - Selecting Tribal and Agency co-chairs to serve as representatives and lead coordinators, and to monitor whether the State-Tribal Consultation, Collaboration and Communication Policy is followed;
    - 2. Defining roles and responsibilities of individual Work Group members;
    - 3. Defining the process for decision-making:
    - 4. Drafting and dissemination of final Work Group products;
    - 5. Defining appropriate timelines; and
    - 6. Attending and calling to order Work Group meetings.
  - E. Work Group Products Once the Work Group has created its final draft recommendations, the Work Group should establish a process that serves to facilitate implementation or justify additional consultation. included in its process, the Work Group should recognize the following:
    - Distribution The draft recommendation is subjected for review and comment by the Agency, through its Agency Head, Tribal Liaison, and/or other delegated representatives, and participating Tribes, through their Tribal Officials.
    - 2. Comment The Agency and participating Tribes are encouraged to return comments in a timely fashion to the Work Group, which will then meet to discuss the comments and determine the next course of action. For example:
      - if the Work Group considers the policy to be substantially complete as written, the Work Group can forward the proposed policy to the Agency and participating Tribes for finalization.

- b. If based on the comments, the Work Group determines that the policy should be rewritten; it can reinitiate the consultation process to redraft the policy.
- c. if the Agency and participating Tribes accept the policy as is, the Work Group can accomplish the final processing of the policy.
- F. Implementation Once the collaboration or consultation process is complete and the Agency and Tribes have participated in, or have been provided the opportunity to participate in, the review of the Work Group's draft recommendations, the Work Group may finalize its recommendations. The Work Group cochairs should distribute the Work Group's final recommendations to the Agency, through its delegated representatives, and to participating Tribal Officials. The Work Group should record with its final recommendation any contrary comments, disagreements and/or dissention, and whether its final recommendation be to facilitate implementation or pursue additional consultation.
- G. Evaluation At the conclusion of the Work Group collaboration or consultation process, the Work Group participants should evaluate the work group collaboration or consultation process. This evaluation should be intended to demonstrate and assess cultural competency of the Agency, the Work Group, and/or the process itself. The evaluation should aid in measuring outcomes and making recommendations for improving future work group collaboration or consultation processes. The results should be shared with the Agency, through its delegated representatives, and participating Tribal Officials.

Susana Martinez, Governor

Brent Earnest, HSD Cabinet Secretary

Dine' Council of Elders Thoreau Community Center	\$26,582	Dine' Council of Elders for Peace provides domestic violence services for Navajo couples. Traditional Education, Mentoring, Cultural education and traditional problems solving skills are provided through a mentor relationship with a tribal elder. This program emphasizes an understanding of healthy human development within the native community and family.
First Nations Community Healthsource (FNCH) 5608 Zuni SE Albuquerque, NM 87108	\$56,961	FNCH is comprised of Traditional Native Counseling involving culturally competent screening and intake services by a traditional counselor. The goal of the program is to enhance the quality and cultural appropriateness of BHS services to more American Indians.
The Life Link	\$9,683	Life Link provides ad-hoc invoicing based on actual cost reimbursement, on behalf of the Native American Subcommittee (NASC) of the Behavioral Health Planning Council.
PMS – Totah Behavioral Health Authority 1615 Ojo Court P.O. Box 5190 Farmington, NM 87401	\$195,758	Totah Behavioral Health intends to increase access to and availability of treatment that is culturally competent and clinically sound. Behavioral health models that encompass the complex treatment and support needs of the target population resulting in improved housing; job skills, employment status; reduced substance use/abuse; and improved positive re-integration of clients into family/clan/community are expected outcomes and transitional domains.
Pueblo of Isleta P.O. Box 580 Isleta Pueblo, NM 87022	\$39,257	The Isleta program is to prevent, reduce or delay the onset of substance abuse through the implementation of the Strategy Prevention Framework. Target populations are Native American adults with severe mental illness, or mental illness with developmental disability, or co-occurring disorders.
Pueblo of Zuni Zuni Recovery Center P.O. Box 339 Zuni, NM 87327	\$34,365	The Zuni Recovery Center offers behavioral health services to Native American consumers and their families. The Center provides holistic services including intensive outpatient Substance Abuse services, counseling for individuals, family, couples, and group therapy. The Center also provides services at the Zuni Detention Center for onsite support for the reentry needs of inmates.

Provider	B800 SAPT-Block	Service Description
