GUIDELINES REVIEW COMMISSION MEMBERS IN ATTENDANCE

Mr. Stephen Klump

Judge James Martin

Judge Matthew Wilson

Ms. Sarah Batzli

Ms. Betina McCracken

Mr. Michael Nelson

1 **TRANSCRIPT OF**

2 **MEETING**

3 **TAKEN ON**

4 **NOVEMBER 8, 2018**

5 **2:00 P.M.**

6 **CHILD SUPPORT GUIDELINES REVIEW COMMISSION**

7
8 **MR. NELSON:** All right. I'm going to call
9 this meeting to order and I think it's --

10 **PARTICIPANT:** 2:03.

11 **MR. NELSON:** 2:03. And I would like
12 Melinda to do a roll call for the Commission
13 members, please.

14 **MS. PINEDA:** Representative David
15 Gallegos?

16 Hearing Officer Stephen Klump?

17 **MR. KLUMP:** I'm here. I'm participating
18 from Albuquerque North.

19 **MS. PINEDA:** Judge Gerard Lavelle?

20 **MR. KLUMP:** Judge Lavelle asked me to tell
21 you he was unable to make it today. It's his
22 motions day, he has 30 settings. But he has
23 reviewed all the material and he gave me some
24 comments to share with the committee at the
25 appropriate time.

1 **MS. PINEDA:** Judge James Martin?

2 **JUDGE MARTIN:** Present via video from Las
3 Cruces.

4 **MS. PINEDA:** Judge Matthew Wilson?

5 **JUDGE WILSON:** Present.

6 **MS. PINEDA:** Sarah Batzli?

7 **MS. BATZLI:** Present.

8 **MS. PINEDA:** Betina McCracken?

9 **MS. MCCRACKEN:** Here.

10 **MS. PINEDA:** And Michael Nelson?

11 **MR. NELSON:** Here.

12 We have a quorum. I'd like to spend a
13 minute having everybody introduce themselves much as
14 the Commission members, but also the folks that are
15 joining us, other guests that are joining us. We
16 are videotaping this session here in Santa Fe and
17 the video tape will serve the purpose to provide the
18 material for transcription after the meeting.

19 And so I would like to do kind of an
20 administrative step here to have folks spell -- is
21 it all right only if folks spell their last name,
22 say their first name and spell the last name?

23 **THE VIDEOGRAPHER:** Sure.

24 **MR. NELSON:** Okay. So I will ask you to
25 indulge me. When you introduce yourselves spell

1 your last name, just quickly describe your role with
2 what organization you represent in your role.

3 So I'll start by saying my name is Mike
4 Nelson, N-e-l-s-o-n. I am the Deputy Cabinet
5 Secretary for Human Services Department and also the
6 Acting Director of the Child Support Enforcement
7 Division.

8 **JUDGE WILSON:** Judge Matthew Wilson, W-i-
9 l-s-o-n. I'm a district judge in Santa Fe, Los
10 Alamos and Rio Arriba Counties, the First District
11 Court. I handle primarily a Family Law docket and
12 also I'm a former child support hearing officer.

13 **MS. BATZLI:** I'm Sarah Batzli, B-a-t-z-l-
14 i. I work with the New Mexico Human Services
15 Department in the Child Support Enforcement Division
16 and I'm Deputy Director of Legal Services.

17 **MS. MCCracken:** Good afternoon. I'm
18 Betina McCracken. I'll spell both, B as in boy, e-
19 t-i-n-a, McCracken, M-c, capital C-r-a-c-k-e-n. I
20 am a Deputy Director of Child Support overseeing the
21 field operations.

22 **MS. JIRON:** Good afternoon. My name is
23 Becky Jiron, J-i-r-o-n, and I'm an attorney with
24 Child Support.

25 **MR. TOULOUSE:** Good afternoon. My name is

1 Jeremy Toulouse, T-o-u-l-o-u-s-e, and I'm one of the
2 regional operations managers for the Child Support
3 Enforcement Division.

4 **MR. WEBB:** My name's Anthony Webb. I'm a
5 Deputy Director of -- W-e-b-b, apologize -- Deputy
6 Director of Central Operations here in Child
7 Support.

8 **MS. PINEDA:** Melinda Pineda, P-i-n-e-d-a,
9 Policy Supervisor for Child Support.

10 **MR. NELSON:** Johnna?

11 **MS. PADILLA:** I am Johnna Padilla and I am
12 the Program Support Bureau Chief. Sorry, I forgot
13 to spell my name, so both names, Johnna, J-o-h-n-n-
14 a, Padilla, P-a-d-i-l-l-a.

15 **MS. GALLEGOS:** I'm Kathy Gallegos. I'm
16 the -- sorry -- G-a-l-l-e-g-o-s, Kathy with a K, and
17 I'm the Child Support -- I'm a QA Specialist.

18 **MS. SALAZAR-VALDEZ:** Hi, I'm Jennifer
19 Salazar-Valdez, S-a-l-a-z-a-r, hyphen, V-a-l-d-e-z,
20 and I work with Child Support and I'm a Management
21 Analyst.

22 **MS. GOODMACHER:** Hi, I'm Jill Goodmacher,
23 G-o-o-d-m-a-c-h-e-r. I'm here (indiscernible) New
24 Mexico Child Support.

25 **MS. BIRD:** Lila Bird, managing attorney,

1 L-i-l-a, B-i-r-d.

2 **MR. NELSON:** Okay. That covers us here in
3 Santa Fe. A little bit hard to see on the video, I
4 know Larry is joining us from Las Cruces.

5 Larry, will you introduce yourself,
6 please?

7 **MR. HEYECK:** Larry Heyeck, H-e-y-e-c-k.
8 I'm an attorney with Child Support Enforcement
9 Division.

10 **MR. NELSON:** Thanks.

11 Who else do we have joining us in
12 Albuquerque?

13 **PARTICIPANT:** Wait, there's a judge in Las
14 Cruces.

15 **MR. KLUMP:** I'm Stephen --

16 **MR. NELSON:** Hold on, Stephen. I'm sorry.
17 Sorry, Stephen. I didn't give Judge Martin a chance
18 to introduce himself.

19 Judge Martin, go ahead, please.

20 **JUDGE MARTIN:** That's okay. James Martin,
21 M-a-r-t-i-n. I'm a District Judge from the Third
22 Judicial District. I'm a chief judge. I'm also a
23 commissioner.

24 **MR. NELSON:** Thank you.

25 Stephen, go ahead.

1 **MR. KLUMP:** Thank you. Stephen Klump, K-
2 l-u-m-p, I'm a Domestic Relations Hearing Officer in
3 the Second Judicial District Court, and prior to
4 that I was the Child Support Enforcement Acting
5 Director and a field attorney for child support
6 prior to that.

7 **MS. LARSON:** My name is Maria Larson, L-a-
8 r-s-o-n. I am with CSED, Quality Assurance
9 Specialist. Before that I was an advance worker and
10 case worker with CSED.

11 **MS. WELLS:** I'm Veronica Wells, W-e-l-l-s.
12 I'm also with Quality Assurance out of the Central
13 Office, but housed here at Albuquerque North.

14 **MS. APODACA:** I'm Yvette Apodaca, A-p-o-d-
15 a-c-a, a clerk advanced with training unit here in
16 Albuquerque North.

17 **MR. NELSON:** Thanks. Anyone else via
18 video conference?

19 Okay. We have Dr. Venohr on audio
20 conference. Jane, would you care to introduce
21 yourself?

22 **DR. VENOHR:** I'm (inaudible) Center for
23 Policy Research and I'm the Economics Consultant.

24 **MR. NELSON:** Okay. We're having a little
25 bit of technical difficulty with the line. I think

1 one of the next steps we were going to -- one of the
2 upcoming steps was to have Jane share briefly some
3 supplemental information that she provided, so we'll
4 try to do that. If we're having difficulty with the
5 line we'll try to address that as we go.

6 So again, Dr. Venohr is our economist.
7 It's drafted as -- published these reports that
8 we're using as part of our guidelines review
9 process.

10 I'd like to, if I've covered everybody --
11 I'm getting a hand from Betina. Yes?

12 **MS. MCCracken:** I just want to clarify
13 that the offices that were joining us by video
14 conference that didn't have any public members, I
15 asked them to go ahead and shut down.

16 **MR. NELSON:** Okay.

17 **MS. MCCracken:** Farmington, it doesn't
18 look like there's one in Farmington as well, so that
19 one may shut down here as well.

20 **MR. NELSON:** Okay.

21 **MS. MCCracken:** Okay.

22 **MR. NELSON:** Fair enough.

23 Let's get into our agenda. For our first
24 action item, our first item on the agenda is the
25 approval of the agenda. I believe this went out to

1 all Commission members and it's pretty
2 straightforward. So if there's no questions, I
3 would entertain a motion to approve the agenda.

4 **MS. MCCRACKEN:** Motion to approve agenda.

5 **MR. NELSON:** I have a motion from Betina
6 to approve.

7 **MS. BATZLI:** Second.

8 **MR. NELSON:** And a second from Sarah. I
9 don't believe we need discussion so I'll call a
10 vote.

11 All in favor of the agenda please signify
12 by saying aye.

13 **(In unison: Aye.)**

14 **MR. NELSON:** Thank you.

15 Opposed?

16 Okay, the ayes have it.

17 Let's move to the next item which is
18 approval of minutes from our September 28th meeting,
19 and that document I believe was sent out in advance
20 of the meeting and also copies are available. I
21 felt like the minutes accurately captured the high
22 points of the discussion and the takeaways from last
23 time.

24 So unless there's discussion on the
25 minutes or any edits that are needed, I would

1 entertain a motion to approve the minutes from the
2 28th of September.

3 **PARTICIPANT:** I move to approve the
4 minutes from the September 28th meeting.

5 **MR. NELSON:** Thank you. Do I have a
6 second?

7 **JUDGE WILSON:** I'll second.

8 **MR. NELSON:** Thanks, Judge Wilson.

9 All right, if there's no discussion on the
10 minutes, I would call a vote.

11 All in favor of approving the minutes
12 please signify by saying aye.

13 **(In unison: Aye.)**

14 **MR. NELSON:** Anyone opposed?

15 All right, so we have rocketed through the
16 first three items of our exciting agenda and now we
17 can kind of get down to business.

18 We, I thought, had a very productive
19 discussion on the 28th and I thought we came to some
20 levels of agreement on, in general, on a number of
21 points. And I think we wanted to come back together
22 today to maybe put detail around those points and
23 then check for consensus. If there is consensus,
24 then moving forward with voting on recommendations
25 that we want to come out of this Commission meeting,

1 from this Commission and the review being done by
2 this Commission.

3 So one of the things that we had as part
4 of that -- takeaways from that meeting were to have
5 Dr. Venohr do a couple different versions of
6 schedules and work on a set of formulas for
7 calculating orders when incomes are at the high end
8 of the table.

9 And Dr. Venohr provided a supplemental
10 document originally, I think, on the 31st of
11 October, and then another version of that same
12 document on the 6th of November, very minor
13 corrections, immaterial corrections. But the most
14 recent version that I believe is dated November 6th
15 and there are copies available.

16 I was going to give Dr. Venohr a minute
17 to, if she'd like to say anything -- why don't we
18 try to get Jane back on the phone?

19 And do you know, Betina, have an email or
20 a text, can you connect with her via --

21 **MS. MCCracken:** No, I don't the number.

22 **MR. NELSON:** Let her know that we're
23 experiencing technical difficulty. Okay.

24 **MS. MCCracken:** No.

25 **MR. NELSON:** So Melinda's going to try to

1 get us back on the phone.

2 **MS. PINEDA:** Yeah.

3 **MR. NELSON:** And I think we can forge
4 ahead. I think, fortunately, the supplemental
5 information is straightforward. I think the folks
6 that participated last time are familiar with what
7 we're looking at. So we could proceed if we're
8 unsuccessful with connecting with Jane again.

9 **DR. VENOHR:** This is Jane. Sorry, I was
10 dropped for some reason.

11 **MR. NELSON:** No problem. We're not sure
12 why, but the funny part, Jane, was that we had just
13 gotten to the point where we were going to have you
14 give just a quick update, if you like, on the
15 November 6th supplement that you provided based on
16 what we discussed on the 28th of September. Are you
17 able to quickly go over some high level thoughts on
18 that document?

19 **DR. VENOHR:** Sure.

20 **MR. NELSON:** Wonderful.

21 **DR. VENOHR:** Sure. So there's -- first of
22 all, it's an updated schedule for 2018 price levels
23 and the month current economic data there is. So
24 that's the overall schedule. The area that's
25 shaded, there's two differences. There's Schedule F

1 and Schedule G and both of them contain a self-
2 support reserve of a thousand dollars per month.

3 And then the minimum and the minimum order
4 is \$60 a month for those incomes below that and \$60
5 plus \$10 for each additional child in Alternative F.
6 F2, actually, because that's in -- there's an F1
7 that we provided earlier. And then for G, it's the
8 same thing except the minimum order is \$60 plus 15.

9 And the rationale for the thousand was
10 that it was a round number. The federal poverty
11 level in 2008 is 1,013 -- I mean 1,012, so it was
12 rounded to a thousand to keep it even. The minimum
13 order 60, most states use just either as economic
14 evidence that non-custodial parents, low-income non-
15 custodial parents will voluntarily pay \$60 in in-
16 kind support. So the logic is if they'll
17 voluntarily pay it, then they should be able to
18 formally pay it. So that's the root of the 60.

19 And then there is some discussion, the
20 Commission was mixed on the \$10 or the \$15 increase
21 for the minimum order, so that's why we ran it two
22 different ways. And then the blue area, what that
23 represents is where that self-support reserve is
24 still applied.

25 And what we do is we look at the amount

1 that would be based on the economic data around the
2 cost of children, that's the unshaded area. And if
3 the amount adjusted with the self-support reserve is
4 less, we shade it. And so that's considering the
5 difference between the obligated parent's income or
6 the income, the midpoint of that income and a
7 thousand dollars.

8 Then we start with that minimum order, so
9 \$60 for one child, and then we add \$40 per each \$50
10 increment. And if that calculation is less than
11 what the economic data shows then that area is
12 shaded. So those are -- that's a quick summary of
13 the schedule.

14 I can pause there before I talk about the
15 base of the formula for the high income. So I'm
16 going to pause there and see if there's any
17 questions on the schedules in that brief.

18 **MR. NELSON:** I don't see any here in the
19 room in Santa Fe. Are there other folks on video
20 conference have questions for Dr. Venohr?

21 Okay, Jane. If you would maybe briefly
22 talk about the formulas for the high income
23 categories which you contained and went over nicely
24 in the beginning of the report from the 6th of
25 November, that would be helpful.

1 DR. VENOHR: Certainly.

2 So the economic data comes from the
3 Consumer Expenditure Survey which is conducted by
4 the U.S. Bureau of Labor Statistics and that's about
5 6,000 households per year. There are enough
6 households in that survey to really know what the
7 decrease is in expenditures.

8 That kind of gets to the two-pony versus
9 the three-pony when, you know, does a family with
10 30,000 a month spend the same as a family with
11 100,000 a month? So we're only able to know how
12 that changes up to 27,000 a month -- and that says a
13 year. I knew that there's a little typo in there;
14 27,000 per month in gross income.

15 So what we did was we took those incomes
16 below 27,000 where we have economic data and we
17 developed an estimating equation. And our
18 estimating equation allows that expenditures should
19 be non-linear, meaning that, you know, it's not like
20 a family constantly spends 70 percent of their
21 income regardless if they have a thousand a month or
22 a hundred thousand a month.

23 We do a non-linear which allows a curve so
24 it gradually changes, which is the reality of the
25 way people spend, that very, very high income

1 families, you know, spend the average of 70 percent;
2 they actually spend a little bit less because
3 they're devoting more to savings, might be donations
4 and so forth.

5 So this is the common method that we use.
6 And if you look at page 1 of the report, what we
7 come up with is these formulas and we also adjusted
8 them for New Mexico price parity, like we did for
9 the rest of the updated schedule. And then the
10 effective tax rate at a gross income of 35,000.

11 So this is the recommended formula based
12 on that for incomes above 30,000 a month. And
13 you'll see that the dollar amount in each of those
14 formulas is the highest amount on the schedule. So
15 I'm going to stop there and see if there are
16 questions.

17 **MR. NELSON:** I don't see any questions
18 here in the room in Santa Fe. Any questions from
19 Las Cruces or Albuquerque?

20 Okay, great summary of the contents of the
21 report. And again I'm hoping everybody has looked
22 at the report, and I know the folks here in CSED
23 have. And, you know, I think it made a lot of sense
24 to us, the content of the Board. We didn't have
25 questions.

1 We did meet internally and talk through
2 it. We kind of got a small internal workgroup
3 that's been supporting this effort and we met the
4 other day in preparation for this meeting. And I
5 think some of the high points that came out of that
6 meeting were -- I'll go over them, I've jotted some
7 notes down.

8 But the formulas, I can maybe start with
9 the part that Dr. Venohr just covered, the formulas
10 for the high income categories. You know, they -- I
11 think implementing something, adopting something
12 like that would eliminate the ambiguity that's come
13 up in this discussion for this Commission and
14 previous Commissions.

15 That does that, the fact that the order
16 amount's in at \$30,000 in the table, does that
17 constitute a cap or what happens after that?
18 There's some ambiguity. And so I think there was a
19 desire to clarify that and indicate that there is
20 not a cap, that those high amounts don't have a cap.
21 And I think if you have a formula, if we do it the
22 way that Dr. Venohr has described with a formula, it
23 doesn't really matter what the dollar amount is.

24 Like Jane said a minute ago, it could be
25 \$31,000 or \$100,000 monthly income. You can by

1 applying the formulas it calculates a percentage
2 add-on to that highest amount in the table now. And
3 so it really, I think, would be a flexibility for
4 any income amount and any number of children up to
5 six.

6 So it seemed that that, to our internal
7 workgroup, that the work that Dr. Venohr has done as
8 she described kind of meets the objective of that,
9 that part of the discussion in terms of the high end
10 of the schedule. So I wanted to make sure we had a
11 chance to talk about, have Jane describe it to us.
12 We can look at it as a group and talk about it. And
13 there are folks that have input on that part of the
14 report and the discussion and now would be a great
15 time to cover that I think.

16 **JUDGE MARTIN:** I've got some comments.

17 **MR. NELSON:** Yes, sir.

18 **JUDGE MARTIN:** Okay. So, first of all,
19 Dr. Venohr --

20 **PARTICIPANT:** Just for audio occurring,
21 just say your name first.

22 **JUDGE MARTIN:** Oh, this is James Martin.

23 And, Dr. Venohr, thank you very much for
24 your explanation of how the curve does not, I mean
25 the income and expenditures does not remain flat.

1 It's a curve at these higher incomes and the
2 recommended formula after \$30,000 per month, I
3 think, isn't probably an adequate way to capture
4 those high income people. I would recommend that in
5 the statute we include a footnote with language that
6 makes it clear that it's the Commission's intent
7 that this not function as a cap of any sort, and
8 that the amounts above 30,000 would also be within
9 the discretion of the district court to adjust as
10 necessary.

11 But I think it's important that in the
12 statute that there be a footnote or some sort of
13 language that makes it explicit our intent not to
14 impose a cap and that the amounts above 30,000 are
15 modifiable at the discretion of the court.

16 **MR. NELSON:** Good points, Judge Martin.
17 Thank you.

18 Any additional comments or comments on
19 Judge Martin's input as well? I think that's
20 valuable clarification.

21 Okay. Given that we've got some material
22 to cover today and probably the guts of the
23 discussion today centers around the schedules,
24 changes to the schedules themselves, I kind of think
25 if we take the temperature of the group in terms of

1 are we at a comfort level with the concepts that
2 we're talking about, the formulas for calculating
3 orders for the high end of the income levels. I get
4 a sense that this may be something where we're at or
5 very near consensus on.

6 Okay, hearing no objections, I'm going to
7 move us onto more detailed discussion on schedules,
8 specifically F2 and G3 in the November 6th version
9 of the supplement. I think when we've reached the
10 appropriate spot, we can come back and I'd like to
11 entertain motions on including proceeding with a
12 recommendation to change the statute related to the
13 formulas for high end and incorporate the comments
14 of Judge Martin just provided.

15 So we'll put that in the parking lot for
16 the moment, but -- because I have a good feeling
17 about what we've achieved on that piece -- on the
18 schedules, I think there's a couple points that our
19 internal group would like to highlight just from our
20 internal discussions, then we can open it up.

21 And the first piece was the idea of the
22 minimum order for parents that have incomes below a
23 thousand dollars or some set point. I think we
24 gained pretty close to consensus on the thousand-
25 dollar threshold and that incomes below that would

1 result in a presumed order, a minimum order of \$60
2 and both schedules have that concept articulated.

3 I think it's fairly clear by showing the
4 range of zero to \$999 on both tables as the very
5 first line and then the statement that the minimum
6 order is \$60 plus \$10 for each additional child.
7 That's the F1 version; exact same language and
8 formatting for G3 except it says, as Jane said a
9 minute ago, it's \$15 for each additional child. So
10 I think that part of the discussion was covered.

11 And the F10, if you look at the blue-
12 shaded part and kind of going over what Dr. Venohr
13 said a minute ago, but each going from additional
14 children at each dollar amount it's an additional
15 ten-dollar add-on. As you go down the list, down
16 the table from income level to income level to each
17 range it's an additional \$40 until it reaches the
18 levels of the amounts that are indicated by the BBR4
19 data.

20 Both versions of the table, F2 and G3,
21 they move through that same progression and the
22 amounts are slightly different in the blue shaded
23 area. But they move to the amounts indicated by the
24 economic data at the same attachment point. So
25 there's -- we've checked through and checked for

1 consistency and it looked like, really, the tables
2 have very similar, if not identical, structure.
3 Just the difference is the minimum -- the add-on for
4 each additional child is 15 or \$10.

5 So we had kind of an internal consensus
6 that we liked version F2, but there wasn't, there
7 was recognition that there was not enormous
8 difference and it would be worthwhile spending time
9 at the Commission meeting getting the feedback from
10 the commissioners on if there's a preference between
11 F2 or G3. So that being said, kind of a just a
12 quick overview of what we talked about internally, I
13 wanted to turn it over to the Commission and ask for
14 members to provide any questions or comments or
15 concerns that they may have at this time.

16 Okay, I'll pose some questions to you all.
17 We had a --

18 **PARTICIPANT:** Klump.

19 **MR. NELSON:** Oh, Hearing Officer Klump?

20 **MR. KLUMP:** Thank you. Judge Lavelle and
21 I have studied the report and Judge Lavelle
22 recognizes the policy reasons behind this. But his
23 preference would be for G3.

24 **MR. NELSON:** Okay.

25 **MR. KLUMP:** And in stating that he wanted

1 me to impress on everyone that the minimum order is
2 not the amount to be paid by the non-custodial
3 parent. Because of the guideline share it's going
4 to get divided in proportion to income, so it's
5 entirely possible that the custodial parent could be
6 getting less than these amounts.

7 And he thinks that the committee needs to
8 recognize not only the needs of the non-custodial
9 parent, but also the household situation for the
10 custodial parent. And as a committee member myself,
11 I agree with Judge Lavelle's position and our
12 preference would be for G3.

13 **MR. NELSON:** Okay, great. Great input,
14 Hearing Officer Klump.

15 So those are -- there's kind of two
16 important pieces there that I think you're bringing
17 to light in the discussion. And I think G3 has the
18 higher, slightly higher amount per child add-on, \$15
19 versus the \$10 in the F2, so is that the -- is that
20 part of the preference for G3 for yourself and for
21 Judge Lavelle?

22 **MR. KLUMP:** Yes.

23 **MR. NELSON:** Okay. And so the comments
24 regarding the splitting of the minimum order based
25 on the shares model that either version of the table

1 and the methodology we've kind of evolved to is
2 going to -- that's going to be inherent in that. It
3 could be a dollar amount smaller than the \$60
4 minimum order. And that could get to be again one
5 of the elements we talked about extensively last
6 time was small orders don't, essentially small
7 orders don't do a whole lot for custodial parents.

8 So is that kind of the grounds on the
9 concerns about the minimum order on either version
10 F2 or G3?

11 **MR. KLUMP:** Yes, from the Second Judicial
12 District's point of view. The option Judge Lavelle
13 and I discussed, but this may be opening up more of
14 a can of worms, that we want is for the income
15 levels below a thousand, the guidelines be
16 restructured so it's clear the NCP pays the full
17 amount of the minimum order and that we start the
18 income shares at the thousand-dollar combined
19 earnings. But I don't know if that's something the
20 committee wants to entertain or not.

21 **MR. NELSON:** There are a lot of nodding
22 heads here. I think you're on to something.

23 And let me see if I'm getting the vibe
24 right here. Was the intent that the \$60 minimum
25 order would be the responsibility of the NCP at that

1 -- the incomes below a thousand dollars that that
2 amount is the NCP's presumed minimum order unless
3 otherwise cited by a hearing officer or a judge?

4 **PARTICIPANT:** Yes, sir. That was the
5 discussion.

6 **MR. NELSON:** Does the -- what would we
7 need to do to the schedule or statute to make that
8 clear?

9 **PARTICIPANT:** I don't think we have to do
10 anything to the schedule, but we would have to put
11 something in the statute that says that the minimum
12 order, the presumed minimum order will apply if the
13 non-custodial parent's income alone is less than a
14 thousand dollars.

15 **MR. NELSON:** And that that is the NCP's
16 responsibility. That we don't further take that
17 minimum order and apply an income shares model, it's
18 that the --

19 **PARTICIPANT:** We don't split it, correct.

20 **MR. NELSON:** You don't split it, it's 60.

21 **MR. KLUMP:** Correct.

22 **MR. NELSON:** Okay, all right.

23 **JUDGE MARTIN:** Hey, this is Jim Martin now
24 in Las Cruces.

25 **MR. NELSON:** Yes, sir, Judge Martin.

1 **JUDGE MARTIN:** My thought process is the
2 language should be something along the lines of
3 regardless of the amount the non-custodial parent's
4 minimum payment shall be \$60 for the first child,
5 plus 15 for each additional. That way the language
6 in the statute would be clear that, you know, where
7 the intent of the Commission is that regardless of
8 your income the minimum amount you're going to pay
9 is 60.

10 **PARTICIPANT:** Or unless that the income
11 below a thousand dollars.

12 **MR. NELSON:** Right.

13 **JUDGE MARTIN:** Or income below a thousand
14 dollars. I think it has to be some, structured in a
15 way that we don't confuse people by saying, you
16 know, you don't consider the guideline we have, I
17 think you just put it in there that the minimum
18 amount paid by the non-custodial parent shall be,
19 you know, X.

20 **MR. NELSON:** I think that's valuable input
21 on all fronts.

22 Hearing Officer Klump, is that as we
23 evolve the discussion in that direction is that
24 addressing the concerns that you and Judge Lavelle
25 have?

1 **MR. KLUMP:** I believe it does.

2 **MR. NELSON:** Okay.

3 **MR. KLUMP:** And another factor just to
4 bring in and Judge Lavelle mentioned this. It was
5 kind of a throwaway comment, but I think he made a
6 good point, is in her acceptance speech the
7 Governor-elect said she wants to raise the minimum
8 wage for the state.

9 So I think we need to have that in the
10 back of our minds so \$60 plus 15 potentially may not
11 be intimidating as it initially looks compared to
12 the other schedules. So, again, just an
13 observation.

14 **MR. NELSON:** Okay.

15 **PARTICIPANT:** I guess the only question I
16 have is that the schedule itself does say combined
17 adjusted gross income, so if we're considering the
18 thousand-dollar below, is that still combined or is
19 it NCPs only?

20 **PARTICIPANT:** Well, we'd have to make an
21 explanation in the text instead.

22 **MR. HEYECK:** Yeah. I think you would
23 carve --

24 **PARTICIPANT:** So it is -- yeah, go right
25 ahead.

1 **MR. HEYECK:** This is Larry Heyeck. I
2 think what you can do is in the statute you do a
3 carve-out, and in essence you're carving out that
4 dollar amount prior to getting to the schedule.

5 **PARTICIPANT:** Okay.

6 **MR. NELSON:** I think this is pretty
7 consistent with where we ended up on the 28th of
8 September, conceptually. I think what we needed to
9 do was come back and see it in black and white and
10 blue, to see it and talk about it and make sure that
11 we, what we had discussed conceptually was, you
12 know, what it looked like on paper. And so I'm
13 encouraged that it seems like we've done that.
14 We've pretty well captured what we discussed on,
15 during our last meeting. I think the additional
16 detail that can be added in statute that we can
17 attempt to add in statute if we move forward with
18 updating the schedule gives the clarification of
19 what, to how to interpret the top end of that
20 schedule with regard to income shares and presumed
21 minimum order.

22 So I think that's, you know, it's going to
23 entail drafting it correctly and accurately drafting
24 language and getting it enacted. But I think that's
25 a path we can pursue to try to update the schedule

1 and add clarifying language to describe what the
2 intent is.

3 **JUDGE MARTIN:** Yeah, this is James Martin
4 again.

5 **MR. NELSON:** Yes, Judge Martin.

6 **JUDGE MARTIN:** I agree. You're tracking
7 my thoughts because, you know, when I -- my concern
8 is we want people that are going to be appearing in
9 the courts at these low income levels are more
10 likely than not to be self-represented.

11 **MR. NELSON:** Right.

12 **JUDGE MARTIN:** And we need to be able to
13 show them in statute why this is the minimum order
14 so that they're not confused saying, "Well,
15 everywhere else you split it." We need to be able
16 to, you know, show them in statute why it is the way
17 it is. And that's most beneficial for self-
18 represented parties.

19 **MR. NELSON:** Thank you.

20 I think I'd like to take the temperature
21 again of the group on where I think we are in terms
22 of consensus building around a potential updated
23 schedule. There's been discussion that a preference
24 of G3, of version G3 by Hearing Officer Klump and
25 also providing us with Judge Lavelle's preference as

1 well. And there's been good discussion about making
2 sure it's clear what the minimum order means.

3 It's not -- the \$60 wouldn't be subject to
4 further splitting via some income shares
5 methodology. That it would be a sixty-dollar
6 minimum order plus fifteen, one-five, for each
7 additional child. Do we kind of accomplish what we
8 set out to and are we all on the same page in terms
9 of that being a recommendation from the Commission?

10 See this group --

11 **JUDGE MARTIN:** Judge Martin says yes.

12 **MR. NELSON:** All right, thank you. Thank
13 you, Judge Martin, all right. I was going to say,
14 you know, silence is being taken as consent. But I
15 think we are -- that's what I'm hearing. I've got a
16 comfort level there. Heads are nodding here and no
17 one's throwing anything at me or yelling at me.

18 So okay, all right, a couple of key points
19 I think we can move to while we wrap up our
20 guidelines discussion. And those were important
21 pieces that while they're not technically ingrained
22 in the schedule they are important in the context of
23 the changes that are being made, and those are
24 federal regulation changes that make New Mexico
25 statutes and regulations inconsistent with new

1 federal requirements.

2 And Dr. Venohr's original report did a
3 really good job of detailing what those issues are,
4 how other states are dealing with them, and we spent
5 some time talking about it and I think we covered
6 them well. I wanted to propose what we think is a
7 path to integrating those into statute changes and
8 I'll start just by summarizing what those are.

9 The first is the need to explicitly
10 include an SSR in the guidelines and in the
11 methodology. There are -- I'll come back to each
12 one of these. I'm going to quickly summarize the
13 three points and then I'll come back to each one and
14 talk a little bit about each one. The next is the
15 prohibition of using incarceration or considering
16 incarceration as voluntary unemployment when
17 creating or modifying an order. No, incarceration
18 is not voluntary unemployment.

19 And the third is more granular detail
20 around imputation of income and using more detailed
21 economic factors when employing an imputation, an
22 income imputation process. So the SSR is in our
23 schedules. It's in our schedule now. It may not be
24 very clear, but it is.

25 The versions that we've looked at that Dr.

1 Venohr has provided the different schedules through
2 this process in her original and supplemental
3 reports have SSR. And what we thought might be an
4 approach would be to just state that explicitly or
5 make an attempt to have statute updated to state
6 that explicitly, so that we would be then compliant
7 with that requirement and it doesn't change the
8 schedule. It doesn't change our worksheet, but it
9 is stated explicitly in statute and would be then
10 compliant with federal requirements.

11 The next thing that we talked about and I
12 don't know if it's controversial or if we've reached
13 consensus on it, but it would be kind of a similar
14 approach dealing with incarceration. And we could,
15 in order to be compliant with the new regulations,
16 attempt to add that, add language to our statutes
17 that says simply incarceration is not to be
18 considered involuntary unemployment -- or am I using
19 the wrong word --

20 **PARTICIPANT:** Voluntary.

21 **MR. NELSON:** Voluntary unemployment, thank
22 you. I knew that didn't sound right.
23 Incarceration's not to be considered voluntary
24 unemployment when establishing or modifying an
25 order. And as a package of potential proposed

1 legislative changes we could insert that at the
2 appropriate section. We could recommend that that
3 language be inserted at the appropriate section.

4 The income imputation is probably a little
5 more tricky in practice from what I gather from
6 discussions. There is detail and it was nicely
7 covered in the original report from Dr. Venohr about
8 what should be considered, what factors should be
9 considered with when imputing income. And that
10 would be a lot of things around economic
11 opportunity, the opportunity for an NCP to gain
12 employment, prevailing wages, all those kinds of
13 factors.

14 I think that will change the way income
15 imputation is done in real life in cases. It will
16 change the way our field offices make calculations
17 and the work they have to do to gather information,
18 and then that will result in documentation for cases
19 that attorneys and hearing officers and judges are
20 going to have to look at and make decisions on.

21 I think an approach, the first step would
22 need to be, at least our internal way of thinking is
23 the first step would be to a similar approach as to
24 the SSR and the incarceration. Draft proposed
25 legislative language that would insert the language,

1 the federal language, if not verbatim then certainly
2 in a way that would be adequate to comply and seek
3 to get enactment of such language.

4 Then probably the hard work -- well, no,
5 it's probably going to be hard to get legislative
6 changes made. But if we're successful in that step,
7 then the hard work continues and that is the process
8 changes that have to occur in our field offices, in
9 our hearing office venues and in our courtrooms as
10 those changes are put in practice operationally.

11 I think the steps that would need to be
12 integrated would be feedback from key stakeholders
13 as to how to do that and obtain buy-in and work with
14 the courts and with the field offices and private
15 attorneys and make sure that we have a process that
16 we can manage that's straightforward and that
17 results in imputation, income imputation that's
18 reasonable and meets the spirit in the letter of
19 what the federal requirements are.

20 So kind of a -- you can see the
21 consistency in the three parts of that additional
22 discussion. The attempt to get appropriate statute
23 changes done through a legislative process, and then
24 on the imputation piece, the operational pieces that
25 will follow to put something like that in place.

1 So I've talked plenty on those three
2 points and will now give the commissioners
3 opportunity to weigh in and share thoughts with
4 questions and comments.

5 **JUDGE MARTIN:** All right, this is Jim
6 Martin. I guess I'll go first.

7 **MR. NELSON:** Thank you, sir.

8 **JUDGE MARTIN:** I support your first
9 comments that the statute should contain explicit
10 language that the guidelines do include the self-
11 support reserve. And I think you're right. If the
12 feds ever look at us from a hundred thousand feet
13 they're going to want to see explicit language in
14 the statute that says we considered their commentary
15 seriously and so we need to incorporate it.

16 And because Dr. Venohr has done the work
17 for us and included an SSR, I think we ought to
18 recognize that with the recommended statutory
19 language so I would support that notion.

20 **MR. NELSON:** Okay, thank you.

21 Other comments, concerns, specifically on
22 the SSR and the proposed approach to add that to the
23 language and become compliant with federal
24 regulation?

25 **MR. KLUMP:** This is Stephen in

1 Albuquerque.

2 **MR. NELSON:** Yes, sir.

3 **MR. KLUMP:** Obviously if the SSR language
4 or provision is a federal mandate we have to do it.
5 But I would also repeat what I said at the prior
6 meeting. If we're going to do that I think it would
7 be good to educate people further by pointing out
8 the guidelines are predicated on the notion that the
9 custodial parent gets the dependent tax deduction,
10 because we have to explain that so many times in
11 court even to attorneys. They don't even understand
12 how the guidelines are put together.

13 So if we're doing one thing that's a
14 federal mandate, I think this is a pretty painless
15 addition and I think it might make our lives a
16 little bit easier at the courthouse. But just a
17 thought.

18 **MR. NELSON:** Okay. How would you envision
19 that, a recommendation from this Commission
20 articulating that, that how that educational piece
21 be done?

22 **MR. KLUMP:** Well, I think what I would
23 suggest is include language in the statute basically
24 saying New Mexico guidelines have these underlying
25 economic conditions or assumptions that explain what

1 the SSR is and explain what the federal dependent
2 tax deduction is, almost like a definitional
3 section.

4 **PARTICIPANT:** Stephen, if we were to do
5 that though, I mean the income tax exemption for
6 dependents is controlled by the IRS code. We'd have
7 to tie in maybe with a reference to, you know, as
8 determined by the IRS code or whatever.

9 **MR. KLUMP:** Yeah, I don't disagree with
10 that. But again the dependent tax deduction is
11 embedded in the guidelines. It's there. It's like
12 the SSR, people just can't see it. So I don't think
13 there's any harm in just explaining. If we're going
14 to explain one piece of it let's explain the other
15 piece.

16 **PARTICIPANT:** Yeah, I don't disagree.

17 **MR. NELSON:** Okay.

18 Any concerns or support for that?

19 **JUDGE MARTIN:** Yes. Sure, this is Jim
20 Martin down at Las Cruces. I'm concerned that that
21 sort of language in the statute would be
22 problematic. You know, I don't oppose the notion of
23 educating people, providing education, but including
24 that in the statute oftentimes, you know, a judge
25 will have the parties alternate the tax exemption

1 for a child and that's quite common, especially
2 where the non-custodial parent has a higher income
3 than the custodial parent.

4 So alternating that tax deduction is
5 common and if it's included in some sort of
6 statutory change I think it would discourage that
7 and it might, you know, throw some of this off the
8 rails. If a non-custodial legislator thinks he's
9 going to lose his tax deduction he might think twice
10 before he votes on this particular legislation.

11 And like I said, I'm not against the
12 education, but I'm leery of including language like
13 that in the statutory changes.

14 **MR. NELSON:** Okay, good input as well.

15 Other discussion on that point? Okay.
16 How about our approach or possible approach to add
17 language to statute related to incarceration? Did
18 that make sense? I mean, I think it makes sense on
19 the surface that it's a federal requirement and that
20 would be an approach to bring New Mexico statutes
21 into compliance.

22 Any real-world scenarios that we're not
23 thinking about that would be created -- problems
24 would be created by that approach?

25 **MR. HEYECK:** This is Larry Heyeck down in

1 Las Cruces. I think a statutory change is going to
2 be needed because of the current state of New Mexico
3 law, case law that is. So that's one side of it.
4 The other side of it is, depending on what you put
5 in the statute how do we administratively try to
6 enforce it and do it?

7 **MR. NELSON:** That's part of what my
8 comment was a minute ago. I don't know. I don't
9 know the answer to that, Larry. I don't know what
10 the impact of anything enforcement of that change
11 would be. I don't know that we've talked about it
12 in this Commission and I think our internal groups
13 we've really relied on the fact that it is what it
14 is.

15 The language is clear from the federal
16 standpoint, but I don't know that we covered
17 operationally what does it mean; I don't want to
18 create unintended consequences by suggesting the
19 statutory change and missing out on something that
20 we should have thought of as we're trying to get
21 that passed.

22 **MR. HEYECK:** Well, let me -- again this is
23 Larry Heyeck. The first side of it is do I think
24 something needs to be put in a statute, the answer
25 is yes.

1 **MR. NELSON:** Yes.

2 **MR. HEYECK:** The second piece is, let's
3 assume somebody has a child support obligation and
4 then they become incarcerated for longer than 180
5 days. They're entitled -- I'll put that in quotes --
6 - to a potential modification for the time period
7 that they're incarcerated. However, we have case
8 law that says that effective date of the
9 modification begins the month after the motion's
10 filed. I mean how many incarcerated people are
11 going to know that we've got to file something to do
12 something and then if the burden falls upon CSED
13 when they learn about it, again that places
14 additional burden upon the operations in the field?
15 So I mean yes, I think something needs to be put in
16 the statute; two, it's got to be operational. And
17 we do have time to think about it. So again --

18 **MS. MCCRACKEN:** And we are.

19 **JUDGE MARTIN:** -- I just raise it. It
20 doesn't mean we have to do anything tomorrow.

21 **MR. NELSON:** Thank you.

22 **MS. MCCRACKEN:** And we are. We've talked
23 about it and we've talked about companies that will
24 alert us for people who are going in and out of jail
25 and/or prison so that we can try to do exactly as

1 you were discussing, Larry. So we are working on
2 that. And I understand we have potentially a
3 contract coming up with a company that does just
4 that and will be reporting to us or we'll have a
5 portal that we go on and we'll get reports off on
6 connections between NCPs and jail and/or prison.

7 **MR. NELSON:** Thanks, Betina. That's a
8 good reminder, because that's something, a larger
9 issue that affects other agencies as well within
10 HSD. So it's more of a departmental-wide --

11 **MS. MCCracken:** Right.

12 **MR. NELSON:** -- effort to have real-time
13 access to that kind of data. So I appreciate you
14 reminding me. So to me it will be -- there are
15 implementation implications as well.

16 **MS. MCCracken:** Yes, everything that would
17 --

18 **MR. NELSON:** Similar to the imputation
19 piece, it is whatever we change it we'll have to
20 come up with a process to abide by that by
21 understanding when folks are incarcerated and what
22 activities need to occur to proceed with
23 modifications.

24 **MS. MCCracken:** Right.

25 **MR. NELSON:** Okay, Jeremy.

1 Oh yes, go ahead, Judge Martin.

2 **JUDGE MARTIN:** This is Jim Martin again.
3 You know, I just, you know, one of the thing, we've
4 got to make sure that we're balanced. So if we're
5 including some sort of language that says, you know,
6 upon incarceration they're entitled presumptions, we
7 need to have the inverse also applicable. It's upon
8 release that presumption goes away.

9 **MR. NELSON:** Sure.

10 **JUDGE MARTIN:** So, you know, that the
11 incarcerated non-custodial parent would have a, you
12 know, a zero income and then they get out and they
13 get off roll and they get a job and there's no
14 modification. We need to, you know, consider that
15 if you're automatically producing it when they go
16 in, there ought to be a mechanism to automatically
17 modify it when they get out.

18 **MR. NELSON:** Okay, very, very helpful
19 comments. Thank you.

20 So, Jeremy, go ahead.

21 **MR. TOULOUSE:** So this is Jeremy Toulouse.
22 And I was going to say to your point, Larry, is the
23 operations we're trying out several different pilot
24 projects across the state that will allow us to
25 better use data to improve how we, you know, what

1 actions and how we assess cases. So I think that's
2 really the precursor to be able to be a little more
3 flexible with our business processes, which is
4 really the goal that I think a lot of these federal
5 rules require of us.

6 **MR. NELSON:** Okay.

7 Lila has her hand up in the back. Lila
8 Bird, yes. Please.

9 **MS. BIRD:** Just a point of clarification
10 regarding that federal rule. If you look at the
11 actual wording, it simply says that incarceration
12 may not be treated as voluntary unemployment at the
13 point of -- I'm adding that in -- in establishing or
14 modifying child support orders. So it's at the
15 point of establishment or modification.

16 **MR. NELSON:** Thank you.

17 **MS. BIRD:** All these other processes,
18 that's, you know, we'll work on it. But that
19 doesn't go in the language. It's at the point of
20 establishment or modification.

21 **MR. NELSON:** Good clarification, thank
22 you.

23 Imputation of income, I think, similar. I
24 mean I think that all of these kind of have a thread
25 weaving through them. As I said --

1 JUDGE MARTIN: I apologize for
2 interrupting.

3 MR. NELSON: No, sir. No apology
4 necessary, go right ahead.

5 JUDGE MARTIN: This is Jim Martin again.
6 On the involuntary, or the incarceration --

7 MR. NELSON: Yes.

8 JUDGE MARTIN: -- again I need -- I want
9 to emphasize we should be clear that the minimum
10 order still applies if you're incarcerated. You
11 know, we may not be imputing any income to them, but
12 we need to be clear that the minimum order still
13 applies so that we don't have a misunderstanding
14 that if you get incarcerated your support goes to
15 zero just because your income goes to zero.

16 So I think, you know, whatever language we
17 propose, I think, needs to be clear about that part
18 of the minimum order remains in effect even on
19 incarcerated individuals.

20 PARTICIPANT: And I think that's a really
21 good point. We're not advocating an automatic zero
22 order every time somebody's incarcerated. That's a
23 good point.

24 MR. NELSON: Okay, good. So thanks for
25 adding that.

1 Judge Wilson.

2 **JUDGE WILSON:** Matthew Wilson, Santa Fe.

3 So with regard to incarceration, I don't know if
4 we're contemplating whether or not the court has
5 discretion to continue to impute income even though
6 that we're making a finding of that they're not
7 voluntarily unemployed. I mean are we going to have
8 language that allows the court discretion to
9 continue with imputation considering various factors
10 like the length of incarceration, the resources, the
11 employability of the person and things like that?

12 **MR. NELSON:** Yes, certainly if someone had
13 assets and an income stream out, you know, that was
14 not dependent on whether they were incarcerated or
15 not, that would be a circumstance when an order
16 might still, you know, they still might be required
17 to pay an order. So it's a good point.

18 **JUDGE WILSON:** So I guess what I'm asking
19 is, is it the intent to just zero out their income
20 every time they're incarcerated for a certain amount
21 of time? I would think that the court should still
22 have discretion in terms of having that authority to
23 impute if appropriate.

24 **MR. NELSON:** That makes sense to me.

25 Are there --

1 **MR. HEYECK:** Judge, Larry Heyeck, Las
2 Cruces. Judge, I think you're hitting a very good
3 point. I think what Lila Bird read from the federal
4 regulation I think covers that situation that it's
5 not an automatic go to zero, that this is just that
6 we would not impute a minimum wage to this person.

7 And, Lila, correct me if I'm wrong, but I
8 thought that's what you were reading. I thought it
9 was very good.

10 **MS. MCCRACKEN:** I think that's correct.
11 This is Betina -- and doesn't it updates like how
12 long they're going to be in or --

13 **PARTICIPANT:** Oh, no.

14 **PARTICIPANT:** No, that's in a different
15 regulation. That's not the guidelines regulation.

16 **MS. MCCRACKEN:** Okay. Okay.

17 **PARTICIPANT:** We could do it probably if
18 we had language in the statute in the provision that
19 says incarceration cannot be considered as voluntary
20 unemployment in establishing or modifying child
21 support.

22 **PARTICIPANT:** Exactly.

23 **PARTICIPANT:** We could say that the court
24 -- we could say that, then say but the court has
25 discretion, I suppose, to consider factors such as

1 availability of other income or assets or length of
2 sentence or the factors that are now listed in the
3 Thomasson case and the other case.

4 **MR. NELSON:** Okay, so it would be
5 important to capture that in our proposed
6 legislative language. I think there's probably some
7 value in being very clear and brief, but those
8 points I don't think need a high volume of words to
9 explain. So I think it could be we could capture
10 these sentiments if that's the pleasure of the
11 Commission.

12 **PARTICIPANT:** Yeah.

13 **MR. NELSON:** And I think I'm getting a,
14 you know, kind of a consistent thread from Judge
15 Wilson and Judge Martin on that point. It doesn't -
16 - incarceration language doesn't automatically mean
17 that there's no order. It doesn't mean
18 automatically that there can't be discretion to set
19 an order based on other factors and we can clarify
20 that.

21 Okay, getting some nodding heads and
22 that's helpful. I think that's good clarification.

23 How about the imputation of income, the
24 concepts that I discussed a little bit in terms of
25 kind of a two-pronged approach to pursue legislative

1 changes and to integrate the federal language in the
2 New Mexico statutes and then a process to implement
3 that and to have processes within our offices to be
4 compliant? Does that make sense and are there
5 questions or concerns about those concepts?

6 Okay.

7 We -- I'll let you all continue to digest
8 what we've just covered for a few minutes because I
9 think we've really covered the guts of what we
10 wanted to cover, I think.

11 What we have in terms of what we want to
12 try to recommend out of this Commission, I think
13 those are the main points. I think those are some
14 of the critical points covered in Dr. Venohr's
15 report, original report, and I think we've done some
16 good work to really talk through what we think
17 should come out of this Commission.

18 We have an agenda item which is next, I
19 mean I believe it's agenda item number 5. Given
20 that this is a meeting that's a public meeting and
21 subject to the rules around public meetings, we do
22 want to have an opportunity for public comment. I
23 believe that in addition to the Commission members
24 present today we have a number of child support
25 folks that have been really helpful in bringing us

1 to this point and you all are welcome to make
2 comments.

3 I don't believe we have folks
4 participating with us today that are either not
5 Commission members or Child Support Enforcement
6 Division employees. Am I wrong about that? Okay.

7 **JUDGE WILSON:** So, I'm sorry.

8 **MR. NELSON:** Yes, sir.

9 **JUDGE WILSON:** I hate to interrupt you.

10 **MR. NELSON:** No problem.

11 **JUDGE WILSON:** This is Matthew Wilson from
12 Santa Fe. I have a question for Dr. Venohr. Are
13 you there?

14 **MR. NELSON:** Jane, are you there?

15 **DR. VANOHR:** Yes, I am.

16 **MR. NELSON:** Okay.

17 **DR. VENOHR:** I apologize. I was on mute.

18 **MR. NELSON:** Thank you.

19 **JUDGE WILSON:** I'm sorry. I think I
20 understand to how you're proposing to calculate in
21 high income cases over \$30,000 a month, but I would
22 like you to cover an example for me so that I
23 completely understand before we get into the other
24 sections of the agenda, if you don't mind. So do
25 you mind, Dr. Venohr, and I really appreciate that.

1 Do you mind?

2 **DR. VENOHR:** Oh, no. No problem. I'm
3 sorry, let me just, you know, I was looking at
4 something else. I'm going to just flip it up.

5 I'm on page 1 on the formula, so let's
6 just assume that we have one child and we have
7 income of 31,000. It's a combined adjusted gross
8 income of the parties. And we're going to assume
9 that the obligated parent some, has an income of
10 30,000 a month and then the custodial parent has an
11 income of 1,000 a month.

12 So then what we would do is we would take
13 31,000, which is their combined, minus 30 and --
14 1,000, apply that by 0.6- -- well, 6 --

15 **MR. NELSON:** Are you there, Jane? We're
16 having some technical difficulties.

17 That's interesting. When it comes time
18 for Dr. Venohr to help us out --

19 **PARTICIPANT:** We lose her.

20 **MR. NELSON:** -- we have problems with the
21 phone line. We did have similar questions, Judge
22 Wilson, and had tried some scenarios as well.

23 Melinda, would you try ringing her back on
24 this?

25 I'm going to switch places with the

1 telephone and I'll share my notes with Judge Wilson.
2 And I don't know if I can talk to folks too, but I
3 think going down the track that Jane was, I use a
4 different example of \$40,000 was the combined
5 monthly. And so it's kind of a round number,
6 \$10,000 over the highest amount.

7 So you would subtract 30,000 from 40,000.
8 That gives you the additional amount, the income
9 over 30,000 which is \$10,000, and then you multiply
10 10,000 times the appropriate percentage. So for one
11 child it's 6.42. And so for \$10,000 -- for \$10,000
12 times 6.4 percent, that results in \$640, \$640 plus
13 \$2,266 leaves us with \$2,906. That was the math
14 that I came up with and using just an example of
15 40,000, and then I tried it for all of the options
16 across.

17 **JUDGE WILSON:** So that was my
18 understanding and I did the same example on my own
19 piece of paper, 40,000. Okay, so thank you very
20 much. It's very clear to me now.

21 **MR. NELSON:** Okay. That's helpful.

22 I'm not sure if that exercise was helpful
23 to the folks on the video conference. We want to
24 make sure that it's clear whatever approach we take,
25 if we make a recommendation that there's consensus

1 that it makes sense and that we can all come up with
2 the same amounts.

3 **PARTICIPANT:** That amount would be in
4 proportion to their incomes, right?

5 **DR. VENOHR:** Hello, this is Jane again.

6 **MR. NELSON:** Thanks, Jane. We missed --
7 we're having some technical difficulties with the
8 phones.

9 I went through an example with Judge
10 Wilson similar to what you were, I think, taking us
11 through.

12 **DR. VENOHR:** Excellent.

13 **JUDGE WILSON:** So thank you, Dr. Venohr.
14 I don't need you to continue with your example and I
15 appreciate it.

16 **DR. VENOHR:** Oh, thank you. Sorry.

17 **MR. NELSON:** Excuse me. I may be having
18 an emergency so I will see if that's the case, so my
19 apologies for holding us up.

20 Okay. We -- Jane, I had said when we were
21 trying to get you back on the phone we are having --
22 we want to make sure whatever we adopt, formulas to
23 calculate orders at the high income level, we want
24 to make sure it makes sense, it's clear that we
25 understand the amounts that we calculated. So as

1 Judge Wilson said, we did walk through an example
2 here. I think there's some comfort level.
3 There are other concerns about that that that
4 methodology, those formulas, we can cover those now
5 or we can come back and talk about that more as we
6 move more towards formal recommendation. So thank
7 you, good question, and I'm glad we covered that
8 before we moved on. As I was mentioning a minute
9 ago, we do have opportunity for public comment.
10 Again, other than Child Support Enforcement folks
11 and our Commission, I don't think we have any
12 members of the public unless I'm incorrect. But I
13 certainly would give all, anybody and everybody an
14 opportunity to make comments at this point as well.

15 **PARTICIPANT:** So I have a question.

16 **MR. NELSON:** Yes.

17 **PARTICIPANT:** If there's a 50/50 time
18 share would the \$60 minimum order apply?

19 **MR. NELSON:** Say that again, please.

20 **PARTICIPANT:** If there's a 50/50 time
21 share would there still be a \$60 minimum order?

22 **MR. HEYECK:** I was just -- this is Larry.
23 I was just thinking that that would be in all cases
24 or is not shared responsibility.

25 **PARTICIPANT:** Yeah. It's not intended to

1 apply to a worksheet B.

2 **MR. HEYECK:** That's how I was reading
3 mine. Okay. Worksheet A, primary physical custody
4 versus shared. Shared is, it depends on the income,
5 period.

6 **THE VIDEOGRAPHER:** So who's talking?

7 **PARTICIPANT:** How many cases did you --

8 **THE VIDEOGRAPHER:** Who was speaking?

9 **MR. NELSON:** That was Larry Heyeck.

10 **THE VIDEOGRAPHER:** Oh, okay.

11 **MR. NELSON:** From our Las Cruces office.

12 Larry's an attorney there.

13 Lila.

14 **MS. BIRD:** Just a clarification. The \$60
15 minimum order's still left to the discretion of the
16 court, the court still has discretion.

17 **PARTICIPANT:** Yes.

18 **PARTICIPANT:** Yes.

19 **PARTICIPANT:** Doesn't the court always
20 have discretion?

21 **PARTICIPANT:** Yes.

22 **PARTICIPANT:** Okay.

23 **MR. NELSON:** As long as the court uses
24 discretion, (inaudible). So, okay.

25 **PARTICIPANT:** So does that mean they have

1 to have hearings on all these cases?

2 **PARTICIPANT:** No. You could settle them,
3 why not?

4 **PARTICIPANT:** She may not agree.

5 **PARTICIPANT:** Well, then that would be
6 like a regular situation then.

7 **DR. VENOHR:** This is Jane. I can't hear
8 you right now, but I think Lila asked whether that
9 minimum order would be discretion. I think that by
10 the federal rule or the federal regulation you have
11 to make a rebuttable presumption. So whatever you
12 have for your deviation criteria to rebut for that
13 minimum order would be applied, so that might be a
14 good time to review that and think about it in that
15 scenario.

16 **MR. NELSON:** Okay, thank you, Jane.

17 Okay, I'm going to consider ourselves
18 successful in moving through the public comment item
19 on our agenda and move on to item number 6, which is
20 our vote on guidelines. It's kind of a couple
21 bullet points under there on the agenda, legislative
22 language changes and schedule changes. And I've
23 given some thought on how to bring the group through
24 this process. I made some presumptions and but it
25 was really based on work that the Commission had

1 done up to this point. So I drafted four statements
2 that I thought might be helpful for draft motions
3 and I think we should pull them up and look at them
4 on the screen one at a time. They take us through
5 the sections of discussion that we've already
6 covered this afternoon.

7 I think we need to --

8 **PARTICIPANT:** Share.

9 **MR. NELSON:** We need to probably edit
10 those based on this afternoon's discussion and then
11 we can get them to where we like them. I think we
12 could use them as a proposed or a draft motion for
13 moving forward with a vote on a recommendation, so
14 maybe paper would have been a good idea.

15 I'm going to put these papers here --

16 **PARTICIPANT:** Thank you.

17 **MR. NELSON:** -- for a couple of the folks
18 here, and --

19 **PARTICIPANT:** Tried to capture some of the
20 comments that were made.

21 **MR. NELSON:** Oh good, as we were going
22 along.

23 Can the folks in Las Cruces and
24 Albuquerque see what's on the screen that this, the
25 first statement about the formulas for orders when

1 the income exceeds 30?

2 **PARTICIPANT:** Las Cruces, yes.

3 **MR. KLUMP:** We can see it in Albuquerque.

4 **MR. NELSON:** Okay, great.

5 All right, I'll read the first one
6 quickly. "The Commission recommends the Child
7 Support Enforcement Division prepare draft language
8 for a statutory change that integrates the formulas
9 developed by the Division's economist in describing
10 her supplemental information dated November 6, 2018
11 for calculating child support orders when the
12 combined monthly incomes of the parties exceed
13 \$30,000. "The Commission further recommends the
14 Child Support Enforcement Division make efforts to
15 have the proposed statutory changes enacted by the
16 New Mexico legislature including seeking endorsement
17 by the Governor's Office, securing a sponsor through
18 the legislation and supporting the drafting of the
19 legislation and the legislative process as the bill
20 makes its way through committees and floor debate
21 and votes."

22 Jeremy added based on our discussion, the
23 point in red, "The Commission further recommends
24 that there be a footnote placed in the statute that
25 states the 30,000 limit in the Child Support

1 Guidelines does not represent a cap and that the
2 judiciary will continue to maintain the authority to
3 establish, modify the support amount at the higher
4 income levels."

5 Is this in the spirit of what we want to
6 recommend on calculating orders for incomes of
7 30,000 a month or more?

8 I'm not hearing any objection. Did we
9 capture the additional discussion adequately?
10 Obviously the trick will be in the drafting of the
11 language to ensure that the language captures the
12 intent of the Commission. But at a high level, if
13 we had a recommendation that included this content
14 would we -- would that recommendation be reflecting
15 the intent of the Commission?

16 Hearing no objections, I would entertain a
17 motion at this time to -- that the Commission make a
18 recommendation based on the discussion of the
19 formulas for orders that -- incomes greater than
20 30,000.

21 **JUDGE MARTIN:** This is Jim Martin. I
22 would make that motion.

23 **MR. NELSON:** Thanks, Judge Martin.

24 **JUDGE WILSON:** I'll second.

25 **MR. NELSON:** Thank you. Judge Wilson

1 seconded. Any more discussion on this particular
2 point? Okay, not hearing any, I would call the
3 matter to a vote. All in favor of the motion please
4 signify by saying aye.

5 **(In unison: Aye.)**

6 **MR. NELSON:** Opposed?

7 No opposition, so the motion will pass.
8 Wonderful.

9 Okay, I'd like to move on to the proposed
10 language for the schedule change. We'll see a very
11 similar pattern here and structure, and I know you
12 enjoyed hearing me read so I will do that again.

13 Folks in Las Cruces and Albuquerque, are
14 you able to see the language on the screen?

15 **PARTICIPANT:** Las Cruces, yes.

16 **MR. KLUMP:** In Albuquerque the image is
17 the -- we see ourselves over the bottom right corner
18 of the document.

19 **PARTICIPANT:** Okay. In that instance,
20 whoever has the little iPad-looking thing they need
21 to hit the top right corner of that -- looks like a
22 camera -- and that will get rid of that for you.

23 That's what they're seeing.

24 **MR. NELSON:** Well, get rid of that.

25 **PARTICIPANT:** There.

1 **PARTICIPANT:** Is someone able to do that
2 for you?

3 **PARTICIPANT:** Well, we see ourselves, so
4 we have a big 60-inch image of ourselves. There we
5 go.

6 **PARTICIPANT:** Yay, you did it.

7 **PARTICIPANT:** Did you scare yourselves? Is
8 that what you did? Okay.

9 **MR. NELSON:** Okay, sounds like the screen
10 shows the proposed language. I'll just quickly
11 read. "The Commission recommends the Child Support
12 Enforcement Division prepare draft language for
13 statutory change to update the Child Support
14 Guidelines schedule using the schedule developed by
15 the Division's economist and described as schedule
16 G3 in her supplemental information dated November 6,
17 2018.

18 "The Commission further recommends the
19 Child Support Enforcement Division make efforts to
20 have the proposed statutory language and statutory
21 changes enacted by the New Mexico legislature
22 including seeking endorsement by the Governor's
23 Office, securing a sponsor for the legislation and
24 supporting the drafting of the legislation and the
25 legislative process as the bill makes its way

1 through committees and floor debate and votes."

2 The red language was added by Jeremy based
3 on discussion today -- thank you, sir -- and makes
4 this process more efficient.

5 "The Commission further recommends that
6 language be added to the statute that defines that
7 the minimum order amount shall be the support
8 obligation for the NCP when their monthly income is
9 less than \$1,000, and that the minimum order amount
10 will not be split for the percentage of shared
11 income as per the rest of the Child Support
12 Guidelines schedule."

13 That I think captures nicely the
14 discussion and I would certainly give opportunity
15 now for additional input. We do have an opportunity
16 to edit this if that's the pleasure of the group.

17 **MR. KLUMP:** This is Stephen in
18 Albuquerque. I just have a question regarding the
19 language in red. This language, my reading of the
20 language in red pins it to the NCP's income solely.
21 Did we want to keep it as the combined income of
22 both parents as less than a thousand? And I'm fine
23 with whatever other committee members want, but I'm
24 kind of confused by how that reads.

25 **PARTICIPANT:** I agree, Stephen. That was

1 my question earlier because I think it's supposed to
2 be combined, the combined income under a thousand,
3 but then the sixty dollars is incumbent upon the NCP
4 to pay, not split.

5 **MR. TOULOUSE:** This is Jeremy. What I
6 understood the conversation to be is that minimum
7 order only applies to the non-custodial parent's
8 income.

9 **PARTICIPANT:** That's my understanding as
10 well.

11 **PARTICIPANT:** Okay, so we have confusion.
12 I don't have a problem with that.

13 **MR. HEYECK:** This is Larry in Las Cruces.
14 I apologize, but I'm wondering if the comment in red
15 is saying it "shall be," the support obligation
16 "shall be" the presumed support obligation or at the
17 discretion of the court. Remember we were having
18 that discussion?

19 **MR. NELSON:** Yep.

20 **PARTICIPANT:** Yeah.

21 **MR. TOULOUSE:** All right, so where does
22 that need to be edited? So shall we -- the presumed
23 -- okay, is that by adding that word, the word
24 "presumed," I didn't quite get that. Okay. Okay.

25 **PARTICIPANT:** Want to add "at the

1 discretion of the court?"

2 **MR. TOULOUSE:** After obligation, presume
3 support obligation, comma, at the discretion of the
4 court?

5 **PARTICIPANT:** And I thought the discretion
6 of the court was we were really focusing on the
7 involuntary employment for incarceration, but here
8 as well?

9 **MR. TOULOUSE:** I hadn't thought it --
10 that's why it come up in that section of the
11 discussion as well.

12 **PARTICIPANT:** Okay.

13 **PARTICIPANT:** You know, my understanding
14 from the discussion was, you know, first, we wanted
15 to make sure that minimum order was not going to be
16 split, you know, it wasn't going to become \$35 or
17 37.50, right.

18 **PARTICIPANT:** Right, right.

19 **PARTICIPANT:** You know, and that really in
20 this instance, you know, it's the court -- I mean
21 none of this, I mean again it's a guideline, you
22 know, so it's rebuttal. So the judge has the
23 ability to set support at whatever they want, which
24 I thought we agreed was just implied in the
25 guidelines themselves but.

1 **MR. NELSON:** So is there, on the question
2 on whether the income of a thousand dollars or less
3 is only the NCP's income or if that's a shared
4 income, is there -- is that a point of confusion,
5 still, or not, not full agreement? I get the sense
6 that it is. I think that we have an opportunity by
7 editing this language to make that clear if we can,
8 if there's agreement on that point.

9 I thought that the thousand-dollar or less
10 was combined income amount, but of course but that
11 \$60 minimum payment applied to the NCP only and
12 would not be further split. But if I'm wrong or if
13 that's not the consensus, then let's --

14 **PARTICIPANT:** Ask Jane.

15 **MR. NELSON:** Jane, are you still with us?

16 **DR. VENOHR:** I am. Thank you for giving
17 me --

18 **MR. NELSON:** Would you weigh in on that?

19 **DR. VENOHR:** Yeah. I don't know if you
20 have my September 10th report in front of you. If
21 you do, on page 39 of the North Carolina, and I'm a
22 little bit confused on the discussion if you're
23 trying to mimic North Carolina or if you're just
24 trying to -- and there's a typo there obviously.
25 We're going to make a revision. There's an

1 apostrophe in the middle of "for," the word "for."

2 But what it does is it shades the area of
3 the low income adjustment and if the obligated
4 parent's income alone falls in that shaded area --
5 and see they have the \$50 in the first line and you
6 use only the \$50 -- then it does what I heard the
7 Commission say. It says there's something explicit,
8 you know, that's based on the 214 federal poverty
9 levels, it was also part reserved, which I hear the
10 Commission say they want some sort of language.
11 This might be too detailed.

12 It also says absent a deviation of the
13 establishment of a minimum order of 50, which I'm
14 hearing the Commission say they want. What I'm not
15 hearing is if they want that to apply above, in the
16 case of North Carolina it's for incomes above
17 eleven-fifty, but for what New Mexico's talking
18 about is for incomes of a thousand or more.

19 So I'm going to stop there because I just
20 rolled three issues into one. But I did think that
21 North Carolina language is a way to ground the
22 discussion and maybe see what the Commission members
23 like and don't like about that language, because it
24 sounds like, Mike, you're seeking some general
25 language and maybe that's a starting point to get

1 some clarity. Stop there.

2 **MR. NELSON:** Thank you. Yeah, I think
3 there will be a couple pieces of this if we move
4 forward, when we move forward. The schedule that
5 we, I think, have settled on, G3, would need to be
6 added to the statute. The schedule has -- the first
7 line is the range zero to 999 and it has a minimum
8 order of \$60 plus \$50 for each additional child.
9 So the art of the deal will be to include statute
10 language in the appropriate place that describes in
11 a little more detail what the Commission means by
12 that. And that is, I think we're agreed that the
13 \$60 is, would be the minimum payment for the NCP.
14 It's not going to be subject to the shares model,
15 and I think Jeremy's language there captures that.

16 I think the other piece that we need to
17 cover at this point is what we're talking about as
18 well, is if the thousand dollars share or less is
19 that combined on income or just the NCP. So I --
20 so, Jane, for the North Carolina model it's just the
21 -- or just the NCP for that minimum order it's just
22 their income that is being considered?

23 I think that's what that bottom paragraph
24 in the North Carolina section on page 39 says.

25 (Indiscernible) just goes income falls within the

1 shaded area.

2 **DR. VENOHR:** Yeah, I apologize. I was on
3 mute. Yeah, so what I'm asking is if you put -- if
4 you use North Carolina language but stick G3 in as
5 the schedule and then substitute the thousand
6 dollars for, instead of where it says the 2014
7 federal poverty level blah blah blah, put a thousand
8 there. And then of less than instead of ten-ninety
9 seven put in the thousand. And again when you see
10 ten-ninety seven substitute a thousand, and when you
11 see fifty -- does that capture, to substitute sixty
12 does that capture the spirit of what the Commission
13 is recommending or are there additional tweaks?

14 I mean I think this is a little too
15 detailed, but at least it's -- the North Carolina
16 for what the Commission wants to recommend, But at
17 least it's a way to see if this is the gist of where
18 you want to go. If you just substitute the New
19 Mexico amounts that would be a thousand for the ten-
20 ninety seven and then the sixty for the fifty in
21 that language.

22 But the North Carolina language seems to
23 embrace that (indiscernible) up to the \$60 minimum
24 order and allowing some court discretion and so
25 forth. I'm going to stop there.

1 **MR. NELSON:** Any questions or comments
2 from the Commission on this part of the discussion?

3 **JUDGE MARTIN:** Yeah, this is Jim Martin
4 down in Las Cruces. I like Dr. Venohr's suggestion
5 that the North Carolina language, I think it's a
6 pretty good descriptor of what my intention was. As
7 far as the language that the Commission is proposing
8 I believe that it should be explicit that it's
9 combined income, because that would correspond with
10 G3 where the combined income of zero to 99999.99,
11 minimum order of 60. So the combined 1,000 would
12 match the G3.

13 **MR. NELSON:** Great.

14 **MR. KLUMP:** This is --

15 **MR. NELSON:** Yes, go ahead.

16 **MR. KLUMP:** This is Stephen in
17 Albuquerque. I completely agree with what Judge
18 Martin just said.

19 **MR. NELSON:** Thank you. All right, that's
20 kind of the premise I was working off of.

21 **MS. MCCracken:** Me too.

22 **MR. NELSON:** I look around to the other
23 commissions. We've got Betina's on the same page,
24 Sarah and Judge Wilson?

25 **JUDGE WILSON:** I can live with that. It's

1 fine.

2 **MS. BATZLI:** I can live with it.

3 **MR. NELSON:** Okay. All right, we're going
4 to try to pull up the draft motion language again
5 and see if, and I think we can edit it and --

6 **PARTICIPANT:** It's not showing.

7 **MR. NELSON:** It's not coming up.

8 All right, it's up on the screen here.
9 How about Albuquerque and Las Cruces, are we able to
10 see?

11 **MR. KLUMP:** Yes, we can see it in
12 Albuquerque.

13 **MR. NELSON:** All right, fantastic.

14 Let me see if I can make suggestions on
15 where edits could be made to that language at the
16 bottom.

17 I think that said, where that middle part
18 of it says when the combined monthly income is less
19 than 1,000, covers that concept. It clarifies that
20 piece whether it would be NCP income only or
21 combined. So I don't know that we needed to show
22 edits. Let me read the last clause.

23 **PARTICIPANT:** You could really just remove
24 -- could just read the presumed support obligation
25 for the NCP and the amount will not be split for a

1 percentage of (inaudible). Not where the guideline
2 applies, right?

3 **MR. NELSON:** But I like that the capturing
4 that concept there. I don't know if others agree,
5 but I wouldn't recommend removing the detail about
6 combined monthly income. Okay.

7 **PARTICIPANT:** Yep. I like it.

8 **JUDGE MARTIN:** This is Jim Martin. I
9 agree with that. I don't know if we need it in our
10 motion, but I think that I would encourage the
11 Department to look at the North Carolina language as
12 a model for the proposed statutory change that the
13 motion suggests.

14 I don't think it's necessary for us to be
15 in the motion, but I want to make that on the record
16 that I encourage the Department to look at the North
17 Carolina language when they're proposing statutory
18 changes.

19 **MR. NELSON:** Good.

20 **PARTICIPANT:** Got it.

21 **MR. NELSON:** We will.

22 **JUDGE MARTIN:** So with that I would move
23 that we adopt as our second position the guideline
24 update that is on the screen, including the red
25 language that includes the combined monthly income

1 of less than \$1,000.

2 **MR. NELSON:** Thank you, Judge Martin.

3 Do I hear a second?

4 **PARTICIPANT:** I'll second.

5 **MR. NELSON:** All right. We've had lots of
6 good discussion up to this point, but I don't want
7 to miss an opportunity to offer additional
8 discussion.

9 Hearing none, I'd like to call this motion
10 to a vote. All in favor?

11 **(In unison: Aye.)**

12 **MR. NELSON:** All opposed?

13 The ayes have it and we'll adopt this
14 motion as a recommendation from the Commission.

15 I think we'll start to feel a little bit
16 repetitive. The next document is the self-support
17 reserve piece we talked about, very similar
18 structure I'll quickly read through. "The
19 Commission recommends the Child Support Enforcement
20 Division prepare draft language for a statutory
21 change to specify that the New Mexico Child Support
22 Guidelines include a self-support reserve.

23 "The Commission further recommends that
24 the Child Support Enforcement Division make efforts
25 to have the proposed statutory changes enacted by

1 the New Mexico legislature including seeking
2 endorsement by the Governor's Office, securing
3 responsible legislation and supporting the drafting
4 of the legislation and the legislative process as
5 the bill makes its way through committees and floor
6 debate and vote."

7 The additional language added per the
8 discussion at the bottom in red: "The Commission
9 further recommends that the statute state that the
10 guidelines are the result of economic analysis and
11 that the custodial parent claiming the child for tax
12 purposes is built into the economic data. It does
13 not prevent the court from allowing either party
14 from claiming the child for tax purposes."

15 So that was some additional language
16 drafted by Jeremy for the discussion. I think it is
17 helpful. I think Stephen did bring up the point
18 about the tax deductions. And again the art of this
19 deal will be accurately drafting the language for
20 seeking a sponsor and then moving forward with
21 legislation.

22 But does that -- does the original
23 language from the motion, from the proposed motion
24 language and the additions from the discussion today
25 capture adequately what we covered earlier?

1 **JUDGE WILSON:** All right, so this is
2 Matthew Wilson. It's my understanding that James
3 Martin was opposed to that additional language.

4 **PARTICIPANT:** Okay. That's why I added
5 that second part of it, but I just wanted to capture
6 it (indiscernible) discuss it.

7 **JUDGE MARTIN:** This is Jim Martin.

8 **DR. VENOHR:** When I can -- can I -- I want
9 to add some clarifying language when it's a good
10 opportunity. I apologize for interrupting.

11 **MR. NELSON:** Sure, go ahead, Jane. And
12 then we'll go to Judge Martin right after. Go
13 ahead.

14 **DR. VENOHR:** Yeah. I just want to
15 highlight that due to tax reform that what has
16 happened, you know, tax reform became effective in
17 2018 and it eliminates that dependency deduction for
18 minor children, the allowance. And the IRS is --
19 they didn't change it on the W-4 right away or the -
20 - because, you know, they didn't want employers to
21 have to go through all that because, you know,
22 Congress just passed it the end of December.

23 So if you look at the W-4 for 2018 it
24 still has, you know, you claim those exemptions for
25 your children. But, and the one that's going to be

1 for 2019 you won't see that anymore. So the only
2 thing left with, you know, how families they have to
3 be divorcing parents, but there's an IRS Form 8332
4 that the custodial parent can, say, sign over the
5 rights to the non-custodial parent to claim the
6 children.

7 And, you know, historically in every state
8 in the country or jurisdictions that's been debated
9 and what Judge Martin says is, you know, I've heard
10 that before where they split it every other year if
11 there's an odd number of children or so forth.

12 So the only tax deduction left now or
13 affiliated with the child, because there's not going
14 to be that allowance, is the earned income tax
15 credit which they can't sign over and then the child
16 tax credit which increased from a thousand dollars
17 per year maximum to two thousand dollars per year
18 maximum.

19 But that applies to a narrow income, you
20 know, on that child tax credit only they have to be
21 sort of above the EITC. There's a phase-in, that's
22 why I say sort of, and then it phases out at, you
23 know, it's about 200,000 for a single thing right
24 now.

25 So what they would be fighting about now

1 or on agreeing to, if they were to sign that IRS
2 Form 8332, would be the child tax credit only. And
3 as I mentioned it could be 2,000 a month, but it's
4 not going to be -- it's not like it was in the past.

5 So with that said, the only thing that I
6 have a reservation with some of the language is I
7 don't, because of the complications with the IRS and
8 this all phases out in another, I think it's 2026
9 off the head, off the top of my head, I don't want -
10 - I caution you to be careful how you language it
11 because people are going to be questioning, "Well,
12 is it before tax reform or is it after tax reform?"
13 And then it's this, whatever you put in is it, you
14 know, it phases out like it's supposed to, you know,
15 there will be questions there. I'm going to stop.
16 I sort of rambled, but my point is, is that there's
17 some complications with the tax reform that I wanted
18 to make you aware of.

19 **MR. NELSON:** Thank you.

20 Judge Martin.

21 **JUDGE MARTIN:** I think Dr. Venohr is much
22 more eloquent than I am because she captured my
23 concerns.

24 **MR. NELSON:** Okay.

25 **JUDGE MARTIN:** I don't like the red

1 language at all. I think that if we bring it up
2 we're playing with fire.

3 **MR. NELSON:** Okay.

4 **JUDGE MARTIN:** We will cause more
5 confusion than we will offer clarity.

6 **MR. NELSON:** Okay. I know Stephen,
7 Hearing Officer Klump had a suggestion with that and
8 we covered that ground as well in our September 28th
9 meeting. I guess I'll leave it to the pleasure of
10 the majority rules of the Commission. I'd like
11 those that are in favor of including detail on the
12 tax deduction please speak up at this point.

13 **MR. KLUMP:** This is Stephen in
14 Albuquerque. As I said when I started the
15 conversation, if the committee just thinks it's too
16 complicated it's not a deal breaker for me. It was
17 simply a suggestion. But regarding the tax in black
18 above --

19 **MR. NELSON:** Yes.

20 **MR. KLUMP:** -- I think it might be good at
21 least for the committee's report to indicate that
22 the SSR language is a federal mandate.

23 **MR. NELSON:** That's a good addition, yes.

24 **MR. KLUMP:** I think it makes it --

25 **PARTICIPANT:** As required by the federal

1 government?

2 **MR. KLUMP:** Pursuant to the federal reg,
3 whatever the reg number is. That's just a
4 suggestion. I think it would make the report more
5 comprehensive and explain what we're doing.

6 **MR. NELSON:** Jeremy, why don't you just
7 put a line in there -- we'll fill in the appropriate
8 citation -- as a placeholder.

9 I think that's an excellent addition,
10 Hearing Officer Klump. Thank you.

11 Okay. I'm going to thank Hearing Officer
12 Klump for articulating his preference to add the
13 language on the tax deduction is not a showstopper.
14 I'm getting a sense that there's not a strong
15 sentiment to include that by there's not a majority
16 intent amongst the Commission to include that
17 language, acknowledging that education of NCPs and
18 CPs regarding that is it is important and would
19 bring value to the process and it is a challenging
20 element that hearing officers and judges are
21 tackling every day when they work on these cases.

22 But that being said I think we'll omit
23 additional language at that level of specificity.
24 And if the language as it reads on the screen right
25 now is acceptable to the Commission, I would

1 entertain a motion that we adopt this as one of our
2 recommendations.

3 **MS. MCCracken:** I'll make that motion.

4 **MR. NELSON:** Thank you, Betina.

5 Do I have a second?

6 **JUDGE WILSON:** I'll second.

7 **JUDGE MARTIN:** Judge Martin, I'll second.

8 **MR. NELSON:** Okay. We got two seconds
9 from Judges Wilson and Martin, great.

10 Discussion, any additional discussion
11 needed at this point?

12 Okay, I'm not hearing any, so I will put
13 the issue to a vote. All in favor of this motion
14 please signify by saying aye.

15 **(In unison: Aye.)**

16 **MR. NELSON:** All opposed?

17 Hearing no opposition, this motion passes.
18 Thank you.

19 And we have one more, again very similar
20 in approach and structure, very similar language.
21 You'll see it's our proposed language on a
22 recommendation for imputation of income and the
23 treatment of incarceration when setting orders. And
24 Jeremy's working to pull that up for us.

25 **MR. TOULOUSE:** Can I have a --

1 **MR. NELSON:** Sure, no worries.

2 **MR. TOULOUSE:** Sorry, it's not
3 (inaudible).

4 **MR. NELSON:** He's at a -- okay.

5 **MR. TOULOUSE:** It moved so, yeah.

6 **MR. NELSON:** All right. It seems like
7 these get smaller every time. Can the folks in
8 Albuquerque --

9 **PARTICIPANT:** Jeremy can help you with
10 that.

11 **MR. NELSON:** -- and Las Cruces see the
12 text on the screen?

13 **PARTICIPANT:** We can see it here.

14 **MR. NELSON:** Excellent?

15 **PARTICIPANT:** Yes.

16 **MR. NELSON:** Excellent.

17 And thanks, Jeremy.

18 Jeremy blew it up a little bit. This is
19 regarding imputation and incarceration. "The
20 Commission recommends the Child Support Enforcement
21 Division prepare draft language for statutory
22 changes to bring New Mexico into compliance with
23 federal regulations on Child Support Guidelines.
24 Such language will describe the parameters around
25 the imputation of income to a party and will specify

1 that incarceration may not be treated as voluntary
2 unemployment in establishing or modifying a support
3 order. "The Commission further recommends the Child
4 Support Enforcement Division make efforts to have
5 the proposed statutory changes enacted by the New
6 Mexico legislature including seeking endorsements by
7 the Governor's Office, securing a sponsor for the
8 legislation and supporting the drafting of the
9 legislation and the legislative process as the bill
10 makes its way through committees and floor debate
11 and votes.

12 Additionally, from the discussion today
13 Jeremy added the language at the bottom, "The
14 Commission further recommends that the statute needs
15 to be clear that incarceration does not" include --
16 "does not exclude the minimum order amount from
17 being ordered and that there are other factors that
18 may determine what income could be imputed to the
19 NCP, even while incarcerated; that the court has
20 discretion to determine in establishing the support
21 amount."

22 So I think that does capture elements of
23 our discussion on imputation and incarceration. And
24 from there the piece at the bottom I think is
25 surrounding incarceration.

1 Discussion on the draft language, are
2 there -- did we capture -- does the initial proposed
3 language plus the addition from the discussion today
4 capture the intent of the Commission today?

5 Okay, not hearing any objection, I know
6 we're probably getting towards the end of our
7 meeting and we're probably moving ahead and wanting
8 to conclude. So I will, if --

9 **JUDGE MARTIN:** Well, this Jim Martin down
10 in Las Cruces.

11 **MR. NELSON:** Yes, sir.

12 **JUDGE MARTIN:** My recollection from our
13 discussion at the last meeting, we had a lot of
14 discussion about imputing income at 30 hours, 35
15 hours or 40 hours, recognizing I think Dr. Venohr
16 talked extensively about the fact that New Mexico,
17 the employment, full employment does not necessarily
18 equate to 40 hours anymore.

19 And so I think, you know, my sense from
20 our discussion last time is we might -- wanted to
21 include some guidance in the statute about what
22 constitutes full-time employment. Maybe I missed it
23 or not, but that was my recollection. Does anybody
24 else remember that or remember differently?

25 **MR. NELSON:** I think you're right on the

1 money in terms of that being a point of significant
2 discussion in September. And there is good coverage
3 of that topic and I think in the report that Dr.
4 Venohr provided that sparked that discussion.

5 I think it is going to be critical. I
6 think looking at the language, and I'm not sure if
7 we can find a quick reference to that section in the
8 report from early September, but that language is
9 very detailed about the specific economic conditions
10 that are applicable to the NCP.

11 I think compliant with that language does
12 just what Judge Martin suggests. It does have to
13 take into consider the availability of hours, the
14 type of work available. So I'm not sure I want to
15 try to rifle through this report, but if somebody
16 knows where that language is offhand we can turn to
17 it. But I do think that the detail of that language
18 -- Becky Jiron --

19 **PARTICIPANT:** Page 29?

20 **MR. NELSON:** Page 29. I knew if I just
21 rambled long enough someone would throw out a page
22 number.

23 **PARTICIPANT:** And while you do that -- we
24 discussed that internally as well. And if I
25 remember correctly, because we're not going to be

1 imputing minimum wage and we are creating these new,
2 this new guideline, I think the hours aren't
3 necessarily as important if we were imputing minimum
4 wage on a regular basis.

5 **MR. NELSON:** Thank you.

6 **PARTICIPANT:** So I don't --

7 **DR. VENOHR:** Mike.

8 **MR. NELSON:** Yes, Jane.

9 **DR. VENOHR:** I'm sorry to interrupt. I'm
10 totally sorry.

11 **MR. NELSON:** Nope.

12 **DR. VENOHR:** I can't see your faces.

13 On page 5 it has, of the September report
14 in Exhibit 2 and at paragraph C3, well, Roman
15 numeral III, it has the federal language that's
16 required, and states are generally talking this into
17 their statute. And there is -- if you read the --
18 if you get to -- so I'm -- so page 5, paragraph C3
19 in that Exhibit 2.

20 **MR. NELSON:** Yep.

21 **DR. VENOHR:** And if you get to the third
22 to the bottom line it says "as well as local job
23 market," you know, blah blah blah and "prevailing
24 earning levels of the local community." I'm
25 wondering if, you know, I can't remember the

1 specifics of the discussion whether CSA, is that
2 different than Las Cruces and whether this would
3 handle like if the average hours work is 34 and in
4 another jurisdiction it's 36, would this suffice to
5 get to that nuance to where it says "as well as the
6 local job market?" I'm going to stop there.

7 **MR. NELSON:** Yeah, that's exactly what --
8 thank you, Dr. Venohr.

9 My sense is that adoption of language that
10 is identical or very similar to this in statute does
11 that. It does require that the actual factors, the
12 economic factors applied to the NCP are taken into
13 account in imputing income. And so that -- I think
14 these things exactly, the concerns about differing
15 hours, whether it was 30 hours is -- would be
16 considered full-time or that's what's available or
17 35 or 40, that that means that we would have to take
18 those kinds of details into account in imputing
19 income if that language was adopted.

20 It looks like there's folks over here.
21 Nope, Betina, I thought you might have wanted to --
22 I'm sorry.

23 Judge Martin, does that -- were you able
24 to see that language that Dr. Venohr referenced in
25 the original report on page 5?

1 **JUDGE MARTIN:** Yes, I've got it in front
2 of me.

3 **MR. NELSON:** Okay.

4 **JUDGE MARTIN:** So what Jeremy's proposing
5 is what he just typed in, "Pursuant to the
6 appropriate citation," is that what we're trying to
7 do, is if we use this citation to the CFR that would
8 kick this language up?

9 **MR. NELSON:** Yeah, yes. And I think in
10 our internal discussions we thought -- we had some
11 back and forth of do we take the language verbatim
12 on the federal regulation and pop it into where the
13 statute changes need to be something different or
14 more extensive, but I think that is right. We want
15 to do it specific to the citation and make sure the
16 language is either used verbatim or very, very
17 consistent.

18 **JUDGE MARTIN:** I think we have to.

19 **MR. NELSON:** Okay.

20 **JUDGE MARTIN:** You know, just, you know,
21 again, you know, I would be concerned that if we're
22 not explicit enough judges outside the Rio Grande
23 corridor who don't do a lot of child support work
24 might miss that change unless it's, you know, a
25 little more explicit.

1 So we don't -- I think the statute needs
2 to be clear in that in setting imputed income the
3 judge has to take into account the local economics
4 and the amount of work done in that community.
5 Because I know that in reserve you're not going to
6 get a 40-hour a week job as readily as you could in
7 Albuquerque.

8 **MR. NELSON:** Makes sense. I think there's
9 some nodding heads over here in agreement, so I
10 think that'll be the responsibility of the Division
11 to capture that language and make sure it's clear
12 that those factors are taken into account.

13 And even more so as what we discussed a
14 little bit earlier in the meeting, the
15 implementation process is going to be critical.
16 Communities differ as you just said across the
17 state, but the process to determine what is a
18 reasonable income to impute should have some
19 consistencies in it and it needs to work. It needs
20 to work in our field offices across the state and in
21 the courtrooms where cases are being heard.

22 So that I think it starts with having
23 clear legislative, clear statutory language updated
24 through a legislative process, and then a robust
25 implementation that includes stakeholders and

1 develops policy and procedure that is workable in
2 field offices and in courtrooms.

3 **MR. KLUMP:** This is Stephen --

4 **JUDGE MARTIN:** That (indiscernible) my
5 concerns.

6 **MR. NELSON:** Thank you, Judge Martin.

7 **MR. KLUMP:** This is Stephen in
8 Albuquerque.

9 **MR. NELSON:** Yes, sir.

10 **MR. KLUMP:** I'm a little confused and
11 forgive me. I was reading this document to apply to
12 the federal mandate on the incarceration issue.

13 **MR. NELSON:** It kind of reminds them, yep.

14 **MR. KLUMP:** Yeah. So I think we need to
15 make it clear that -- then I think perhaps even come
16 up with just language for the incarceration issue
17 and then a general statement as to imputation for
18 non-incarcerated individuals.

19 And I'm not trying to make this harder,
20 but I'm afraid the way this is worded people are
21 going to read it to say, "Oh, we're only doing this
22 for people that are in prison, but if you're out of
23 prison we're not going to consider these factors."
24 So it was just a thought.

25 **MR. NELSON:** It's a good thought. I think

1 clarity is an important outcome from this process.

2 Could we --

3 **JUDGE MARTIN:** This is Jim Martin.

4 Following along on that should we do it as two
5 separate motions?

6 **MR. NELSON:** That's what I was going to
7 suggest. I think that's -- we could use the general
8 structure of the draft motion, one that would be
9 used to make a recommendation to adjust statute,
10 pursue statutory changes around the incarceration,
11 and a second one to pursue statutory changes around
12 the income imputation.

13 I think it generally is the same
14 structure. I think that the language at the bottom
15 is primarily related to the discussion we had on
16 incarceration. So that part may not apply to the
17 motion we consider for the imputation.

18 **MR. HEYECK:** This is Larry Heyeck. May I
19 make a suggestion?

20 **MR. NELSON:** Yes, sir.

21 **MR. HEYECK:** One motion contained the
22 first sentence, you modify the second sentence that
23 starts with "Such language," so "Such language will
24 describe the parameters around," and then I would
25 just use the word "incarceration," "such that it may

1 not be treated as voluntary unemployment in
2 establishing or modifying a child support order."

3 And then leave everything there at is and
4 that's your incarceration motion, then when you get
5 to the imputation you kind of do "such language will
6 describe the parameters around the imputation of
7 income to any party." And then take the rest of it
8 out on incarceration and then take the additional
9 language out.

10 Does it make sense, Jeremy?

11 **MR. TOULOUSE:** Yep.

12 **PARTICIPANT:** Yeah, he said yes. He's on
13 it.

14 **PARTICIPANT:** Yep. I think we're on a
15 path that may be fruitful. Okay, you might -- okay,
16 so this would be our -- is this the one that you
17 want to modify for imputation of income?

18 **PARTICIPANT:** Yeah.

19 **PARTICIPANT:** You might want to do "in
20 establishing or modifying this in a court order."
21 Or is that still applicable, the imputation, and
22 that's really the language that was related to
23 incarceration.

24 **MR. HEYECK:** I think you're fine the way
25 it is.

1 **MR. TOULOUSE:** Okay.

2 **MR. HEYECK:** And that would be your
3 income, your imputation one and then yeah, I think
4 you're fine.

5 **MR. TOULOUSE:** Okay.

6 **PARTICIPANT:** Mr. Toulouse, yes.

7 **MR. NELSON:** Okay. We can save on that.
8 Well, wait. We can do this one. It doesn't really
9 matter which order. Let's do the one that's on the
10 screen. This would be the order. This would be the
11 recommendation for changing legislation. Let us
12 change the statutory language around imputation, the
13 federal imputation requirements. I'm going to read
14 it very quickly.

15 "The Commission recommends the Child
16 Support Enforcement Division prepare draft language
17 for statutory changes to bring New Mexico into
18 compliance with federal regulations on child support
19 guidelines. Such language will describe the
20 parameters as defined pursuant to appropriate
21 citation" -- and you'll have that citation --
22 "around the imputation of income to a party in
23 establishing or modifying a support order.

24 "The Commission further recommends" -- I'm
25 not going to read that part because that's identical

1 to what we've said three times already. We used
2 that language for a recommendation around imputation
3 of income.

4 Does that capture the intent of the
5 Commission?

6 **PARTICIPANT:** I believe so.

7 **MR. NELSON:** Okay. I'm getting a few
8 nodding heads here in Santa Fe and --

9 **PARTICIPANT:** Yes.

10 **MR. NELSON:** Okay, thank you.

11 All right, in that case I would like to
12 entertain a motion.

13 **PARTICIPANT:** I move that we adopt the
14 motion that's on the screen right now.

15 **MR. NELSON:** Okay. Do we have a second?

16 **PARTICIPANT:** Second.

17 **MR. NELSON:** Great, one last chance for
18 discussion of imputation of income.

19 Hearing none, I will call this motion to a
20 vote.

21 All in favor please signify by saying aye.

22 **(In unison: Aye.)**

23 **MR. NELSON:** All opposed, say nay.

24 All right, no opposition, so we'll adopt
25 that motion for a recommendation around imputation

1 of income.

2 And jumping back to the changes we made to
3 this item related to incarceration, I'm going to
4 quickly read, "The Commission recommends" -- I'm
5 just going to read the first part. "The Commission
6 recommends the Child Support Enforcement Division
7 prepare draft language for statutory changes to
8 bring New Mexico into compliance with federal
9 regulations on child support guidelines pursuant to
10 the appropriate citation" which we will enter.

11 "Such language will describe the
12 parameters around incarceration such that it may not
13 be treated as voluntary unemployment in establishing
14 or modifying" an order, "a support order." The last
15 part of that paragraph reads the same as the other
16 ones in terms of the legislative effort to get that
17 updated in the statute.

18 And the language at the bottom says, "The
19 Commission further recommends the statute needs to
20 be clear that incarceration does not exclude the
21 minimum order amount from being ordered and that
22 there are other factors that may determine what
23 income could be imputed to the NCP even while
24 incarcerated; that the court has discretion in
25 determining and establishing the support amount."

1 Does that capture our discussion and our
2 intent for a recommendation around updates to
3 statute related to incarceration?

4 **PARTICIPANT:** Yes.

5 **MR. NELSON:** Okay.

6 **PARTICIPANT:** Yes.

7 **MR. NELSON:** Wonderful. I would entertain
8 a motion to accept this language as a recommendation
9 from the Commission.

10 **JUDGE MARTIN:** Jim Martin, I'll make that
11 motion.

12 **MR. NELSON:** Thank you, Judge Martin.

13 Do I hear a second?

14 **MS. BATZLI:** I'll second.

15 **MR. NELSON:** Sarah beat Judge Wilson to
16 the second, so we have a motion and a second, one
17 last opportunity for discussion on language around
18 incarceration.

19 Hearing none, I would entertain a vote on
20 this motion. All in favor signify by saying aye.

21 **(In unison: Aye.)**

22 **MR. NELSON:** Opposed, say nay.

23 Not hearing any opposition, the motion
24 passes. And I think that covers the main points we
25 wanted to, the items we uncovered during our first

1 session in September and the things that were, I
2 think, in large part driven by the great report from
3 Dr. Venohr.

4 And I think generally a need to do some
5 major updates around the current statute and the
6 guidelines, which haven't changed the schedule
7 itself, which hasn't changed in a long time. So I
8 think we are on the right track in making these
9 recommendations for statutory changes in the
10 upcoming legislative session and the Division is
11 committed to moving forward with those steps.

12 I tried to articulate those steps and what
13 it takes to get a piece of legislation passed in
14 getting the administration's support, finding a
15 sponsor and getting it through both Houses and
16 getting it signed. I think the recommendations
17 point us in the right direction. Now all that work
18 remains to be done to get those steps in place.

19 But in that respect, I feel like this committee has
20 done its due diligence to carefully look at economic
21 information, carefully look at federal regulation,
22 state regulation and law, and recommend how we move
23 forward and modernize those statutes and the
24 processes around them.

25 So I don't have any other items for action

1 or voting in this Commission today. And given that
2 I don't and we haven't articulated anything of that
3 nature on the agenda, probably not much we can do.

4 I'd like to move to agenda item 7, which
5 is Next Steps. We will incorporate the work of the
6 Commission into a final report. I believe Dr.
7 Venohr drafts that substantively and then that comes
8 from the Division from the Director. And I think
9 that will be the basis of moving forward with
10 drafting proposed legislation and working with the
11 administration and the legislature.

12 And so that's kind of the next steps. All
13 of this work will be posted publicly and the
14 Commission will receive the report directly. Other
15 next steps or anything else that I've left out, I
16 can't think of anything. Any other comments,
17 questions or concerns by the Commission before we
18 move to our last agenda item?

19 **JUDGE MARTIN:** This is Jim Martin down at
20 Las Cruces. Again I want to thank Dr. Venohr for
21 her hard work and all of her insight. You know, the
22 level of detail that she puts in a report is not so
23 heavy that it puts me to sleep, but it is deep
24 enough that it gives me a full understanding of the
25 purpose of the guidelines and the amount of analysis

1 that she puts into it is greatly appreciated. And,
2 you know, so on behalf of me personally I want to
3 thank her for her hard work.

4 **MR. NELSON:** Thank you, Judge Martin.

5 Go ahead, Jane.

6 **DR. VENOH:** Thank you for the kind words.
7 It's been my pleasure. I appreciate that New Mexico
8 Commission members read. I think I'm very proud
9 that you made some difficult recommendations in six
10 hours of meeting time. I applaud your efficiency.
11 So and part of it is that you read the reports, so
12 thank you.

13 **MR. NELSON:** Thank you. Thank you.
14 Absolutely echo Judge Martin's sentiments as I think
15 all of us would. And I'd also like to thank the
16 Commission members for your hard work, being
17 prepared and bringing your expertise to help us
18 develop recommendations that I think are really
19 practical and appropriate.

20 I always want to thank the staff of the
21 Child Support Enforcement Division. I work with an
22 incredible team, many of the folks are here today
23 and the work that they do is incredible and greatly
24 appreciated. And probably could spend plenty of
25 time thanking people and recognizing them for their

1 hard work and we don't have enough time to do that
2 ever, but I wanted to say that as well.

3 If there are no other additional comments
4 I would move us to our last agenda item which is to
5 adjourn. We're a little bit over time, it's about
6 eight minutes after 4:00 now, but if there's nothing
7 else I would entertain a motion to adjourn.

8 **MS. MCCRACKEN:** The only thing I want to
9 say --

10 **MR. NELSON:** Yes.

11 **MS. MCCRACKEN:** -- is I know Sarah and I
12 both want to thank you.

13 **MS. BATZLI:** Oh, yes.

14 **MS. MCCRACKEN:** and I think all of us do
15 because you kept, despite the fact that we're eight
16 minutes late today I think that you've kept us on
17 point.

18 **MR. NELSON:** Good.

19 **MS. MCCRACKEN:** Eight minutes, Mike. It's
20 awesome. You're awesome.

21 **MR. NELSON:** Good. I'm glad we could get
22 through that important work and there was a lot of
23 it. Appreciate it.

24 **PARTICIPANT:** Thank you.

25 **PARTICIPANT:** Great.

1 **MR. NELSON:** Anybody want to make one more
2 motion?

3 **PARTICIPANT:** Go, Judge Wilson.

4 **MR. NELSON:** Judge Wilson would.

5 **JUDGE WILSON:** I motion that we adjourn.

6 **MS. MCCracken:** Okay, second.

7 **MR. NELSON:** And we have a second from
8 Betina.

9 All in favor signify by saying aye.

10 **(In unison: Aye.)**

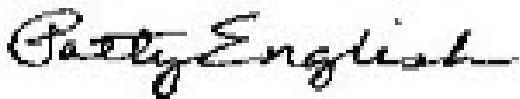

11 **MR. NELSON:** All right, we are adjourned.
12 Thanks, everyone.

13 **(WHEREUPON, the meeting was adjourned at**
14 **4:06 p.m.)**

CERTIFICATE

I, Patty English, do hereby certify that the proceeding named herein was professionally transcribed on the date set forth in the certificate herein; that I transcribed all testimony adduced and other oral proceedings had in the foregoing matter; and that the foregoing transcript pages constitute a full, true, and correct record of such testimony adduced and oral proceeding had and of the whole thereof.

IN WITNESS HEREOF, I have hereunto set my hand this 3rd day of December, 2018.

A handwritten signature in cursive script that reads "Patty English". The signature is written in black ink and is positioned above a horizontal line.

Patty English, AAERT 843
