## ALTERNATIVE, UPDATED SCHEDULE AMOUNTS AT LOW INCOMES

There are many policy decisions underlying the proposed schedule in Appendix A of the September 9, 2018 report. Many surround the self-support reserve (SSR)/minimum order. This document explores an alternative.

Appendix A schedule and the alternative in Appendix E (both from the September 9, 2018 report) and the alternative schedules in this document complement the self-support reserve in the worksheet. The combination of the worksheet and schedule adjustment is similar to the North Carolina adjustment shown in Exhibit 15 on page 39 of the September 9 report.

Note that all areas of the schedule adjusted for the SSR/minimum order are shaded in blue/green. When the area is no longer shaded, the schedule amounts in Appendix A and the alternative B are the same.

Alternative B is in the format shown to the right later. The entire schedule can be expressed this way. It explicitly provides the income range to avoid round-off confusion. Note that the mid-point of each range would be the income used in the existing schedule (*e.g.*, the midpoint of the range \$3,925.00 - \$3,974.99 is \$3,950). The side-by-side comparisons, however, keep the original format for comparative purposes.

Combined Adjusted Gross Income		One Child	Two Children	Three Children	Four Children	Five Children	Six Children
3925.00 -	3974.99	770	1129	1365	1525	1677	1823
3975.00 -	4024.99	779	1143	1381	1542	1697	1844
4025.00 -	4074.99	788	1156	1397	1560	1716	1866
4075.00 -	4124.99	797	1169	1413	1578	1736	1887
4125.00 -	4174.99	806	1182	1429	1596	1756	1908
4175.00 -	4224.99	815	1196	1445	1614	1775	1930
4225.00 -	4274.99	824	1209	1461	1632	1795	1951
4275.00 -	4324.99	833	1222	1477	1649	1814	1972
4325.00 -	4374.99	842	1235	1493	1667	1834	1994
4375.00 -	4424.99	851	1248	1509	1685	1854	2015

## BASIS OF SCHEDULE IN APPENDIX A OF SEPT. 9, 2018 REPORT

Specifically, the Appendix A proposed schedule:

- Retained the minimum order of \$100 per month for 1 child and \$150 per month for 2 or more children;
- Incorporated a SSR of \$1,012 (the 2018 federal poverty level for 1 person); and phased out the SSR/phased in the measurements of child-rearing expenditures by taking the lesser of
  - the measurement of child-rearing expenditures, and
  - 80% of the difference between the combined income and the SSR for 1 child;
  - 81% of the difference for 2 children;
  - 82% of the difference for 3 children, and so forth up to 85% of the difference for 6 children.

The purpose of taking 80-85% of the difference is so not every extra dollar of gross income is assigned to child support. Some of it is needed for federal and state income tax and FICA. Setting it less than 100% also provides an economic incentive to earn more.

## ALTERNATIVE B

- Provides for \$0 order when combined gross income is below \$700 per month. This is essentially the premise of the North Dakota guidelines; that is, if the obligated parent's income is less than the maximum Supplemental Security Income (SSI) benefit; then, the parent is deemed not to have sufficient income to meet his or her subsistence needs.
  - SSI is a means-tested program. The maximum amount for a single person is \$650 per month in 2018.
- Provides a minimum order of \$50 per month beginning at combined gross incomes of \$700 per month.
- Provides a self-support reserve of \$950 per month. This approximates the federal poverty level for 1 person (\$1,012 per month) multiplied by New Mexico's price parity of 93.6.
- Phase-in/Phase-out the self-support reserve/measurements of child-rearing expenditures using the same algorithm as the schedule in Appendix A.

## GRAPHICAL COMPARISONS

The graphical comparisons only consider incomes up to \$3,000 per month. Consideration of a smaller income range allows for a better visual comparison of the low-income adjustment: that is, the self-support reserve amount, the minimum order amount, and the phase-in/phase-out amounts.

With the exception of the Appendix E schedule, the alternatives converge:

- At combined incomes of \$1,600 for one child;
- At combined incomes of \$1,900 for two children; and
- At combined incomes of \$2,050 for three children.

Further, the proposed schedules become more than the existing schedules above:

- Combined incomes of \$2,750 per month for one child;
- Combined incomes of \$2,650 per month for two children; and
- Combined incomes of \$2,450 per month for three children.

As explained in the September 9 report, the newest measurements of child-rearing expenditures include some refinement to how income is measured at the very lowest incomes. This caused some that would have been deemed to be low-income previously as having more income; hence those only those that are truly low-income are in the lowest income category. They spend less than those classified very low income using the previous income category.

Exhibit 4 adds upon information presented in Exhibit 14, page 14 of the Sept. 9 report. It shows the amounts from Arizona, Colorado, and Texas as well. Only Arizona has updated its guidelines for the new rules. Colorado is currently reviewing its guidelines. Its commission is leaning toward a significant decrease at and below minimum-wage earnings.

If both parents earn \$1,300 per month and the “shaded area” is applied (See North Carolina’s provision in Exhibit 15 on page 39 of the September 9 report), the amounts would be the same as shown in Exhibit 4 with an exception that occurs for the one-child scenario. They would never be more than \$235 per month under any of the alternatives.

## MISCELLANEOUS

There were several issues of interest to DCCS staff that CPR agreed to followup on.

- **Adjustments for Multiple Families.** Pennsylvania's adjustment is tied to the maximum amount of child support that can be withheld according to Consumer Credit Protection Act (about 50 percent but more or less depending on whether there is arrears or others to support). Pennsylvania provides for the proportional modification of all of the obligated parent's child support orders. It shown in Exhibit 5.
- **Provisions that Allow Time for Reintegration after Incarceration.** Oregon's provision is shown in Exhibit 6. Other innovative or unique provisions concerning incarcerated parents are shown in Exhibit 6.
- **Ohio's Provision providing a Self-Support Reserve for Both Parents.** The worksheet was shown in the September 9 report in Exhibit 16 on page 40. CPR is still unclear whether this is legislated or will be in the agency worksheet. As shown in Exhibit 7, the Ohio legislature charges the agency with periodic updates to the child support guidelines schedule and for drafting the worksheet.

### EXHIBIT 5: PENNSYLVANIA'S MULTIPLE FAMILY ADJUSTMENT

Rule 1910.16-7. Support Guidelines. Awards of Child Support When There are Multiple Families.

(a) When the total of the obligor's basic child support obligations equals 50% or less of his or her monthly net income, there will be no deviation from the guideline amount of support on the ground of the existence of a new family.

*Example:* If the obligor requests a reduction of support for one child of the first marriage on the basis that there is a new child of the second intact marriage, and the relevant monthly net incomes are \$2,500 for the obligor, \$500 for the former spouse and \$1,300 for the current spouse, then the request for a reduction will be denied because the total support obligation of \$1,153 (\$584 for the first child and \$569 for the second child) is less than half of the obligor's monthly net income.

(b) When the total of the obligor's basic support obligations exceeds 50% of his or her monthly net income, the court may consider a proportional reduction of these obligations. Since, however, the goal of the guidelines is to treat each child equitably, a first or later family shall not receive preference, and the court shall not divide the guideline amount for all of the obligor's children among the households in which those children live.

*Example 1.* The obligor is sued for support of an out of wedlock child. The obligor is already paying support for two children of the first marriage, and has an intact second marriage with one child. The relevant monthly net incomes are \$3,800 for the obligor, \$1,100 for the former spouse, \$0 for the current spouse and \$1,500 for the parent of the new child. The obligor's basic support obligations to each family are \$1,097 for the two children of the first marriage, \$862 for the one child of the second marriage, and \$727 for the one child out of wedlock for a total support obligation of \$2,686. Since the total of these obligations exceeds 50% of the obligor's monthly net income of \$3,800 per month, the court may consider a proportional reduction of all of the orders.

*Example 2.* The obligor is sued for support of three children of a second marriage. There is already an order in effect for two children of the first marriage. The relevant monthly net incomes are \$2,500 for the obligor, \$0 for the first spouse and \$500 for the second spouse. The obligor's basic support obligations to each family are \$849 for the two children of the first marriage and \$987 for the three children of the second marriage for a total support obligation of \$1,836. Since this total obligation leaves the obligor with only \$664 on which to live, the orders are too high as the obligor must be left with a Self-Support Reserve of \$981. However, reducing the order for three children while leaving the existing order intact would give preference to the first family, contrary to the rule. Therefore, both orders must be reduced proportionally.

*Example 3.* The obligor is sued by three obligees to establish orders for three children. The monthly net income for the obligor and for each obligee is \$1,500. The court would determine that the obligor's basic support obligation for each child is \$352 for a total obligation of \$1,056 for three children. It would be incorrect to determine the guideline amount for three children, in

this case \$1,189, and then divide that amount among the three children. Due to the total support amount exceeding 50% of the obligor's monthly net income, the support orders should be reduced proportionately consistent with subdivision (b) and ensure the obligor retains the Self-Support Reserve of \$981 consistent with Pa.R.C.P. No. 1910.16-2(e).

(c) For purposes of this rule, the presumptive amount of the obligor's basic support obligation is calculated using only the basic guideline amounts of support, as determined from the formula in Pa.R.C.P. No. 1910.16-4, and does not include any additional expenses that may be added to these amounts pursuant to Pa.R.C.P. No. 1910.16-6. In calculating the presumptive amount of the obligor's basic support obligation, the court should ensure that the obligor retains at least \$981 per month consistent with Pa.R.C.P. No. 1910.16-2(e).

*Example 1.* Assume that the obligor is paying \$566 per month support for one child of the first marriage, plus an additional \$200 per month for child care expenses. The obligor requests a reduction in this support obligation on the basis that there is one new child of the second intact marriage. The relevant incomes are \$2,400 for the obligor and \$0 for both the former and current spouses. The obligor's request for a reduction should be denied because the total of the basic guideline obligations for both children is only \$1,132 (\$566 for each child) and does not exceed 50% of the obligor's monthly net income. A reduction should not be given on the basis that the obligor's contribution to child care expenses for the first child results in an overall support obligation of \$1,332 which exceeds 50% of the obligor's monthly net income. Thus, the presumptive amount of basic support for the two children is still \$1,132 (\$566 for each child). The court must then consider the deviation factors under Pa.R.C.P. No. 1910.16-5 and the parties' respective contributions to additional expenses under Pa.R.C.P. No. 1910.16-6 in arriving at an appropriate amount of total support for each child.

*Example 2.* Assume that the obligor is paying \$360 per month support for one child of the first marriage. The obligor has one new child of the second intact marriage. The relevant incomes are \$1,500 for the obligor and \$0 for the former and current spouses. A reduction should not be given on the basis of the obligor's new child because the total of the basic guideline obligations for both children is only \$720 (\$360 for each child) and this amount does not exceed 50% of the obligor's monthly net income. Since, however, this amount leaves the obligor with only \$780 per month, the court should proportionally reduce the support obligations so that the obligor retains \$981 per month. Thus, the presumptive amount of basic support for the two children is \$519 (\$259.50 for each child). The court must then consider the deviation factors under Pa.R.C.P. No. 1910.16-5 and the parties' respective contributions to additional expenses under Pa.R.C.P. No. 1910.16-6 in arriving at an appropriate amount of total support for each child.

#### EXHIBIT 6: Examples of How Other States Provide for Incarcerated Parents

State	Significance	Provision
Colorado	<ul style="list-style-type: none"> <li>Cannot use potential income if sentence is for one year or more</li> </ul>	(b) (I) If a parent is voluntarily unemployed or underemployed, child support shall be calculated based on a determination of potential income; except that a determination of potential income shall not be made for a parent who is physically or mentally incapacitated or is caring for a child under the age of thirty months for whom the parents owe a joint legal responsibility or for an incarcerated parent sentenced to one year or more.
Illinois	Minimum order or \$0 order	For parents with no gross income, including those who receive only means-tested assistance or who cannot work due to a medically proven disability, incarceration, or institutionalization, there is a rebuttable presumption that the \$40 per month minimum support order is inappropriate and a zero dollar order shall be entered
Georgia	Alternative language on incarceration	Said Code section is further amended by revising subparagraph (i)(1)(A) and division 169 (i)(2)(B)(iii) as follows: "(A) Imputed income. When establishing the amount of child support, if a parent fails to produce reliable evidence of income, such as tax returns for prior years, check stubs, or other information for determining current ability to pay child support or ability to pay 85 child support in prior years, and the court or the jury has no other reliable evidence of the parent's income or income potential, gross income for the current year <del>shall be determined by imputing gross income based on a 40 hour workweek at minimum wage</del> may be imputed. When imputing income, the court shall take into account the specific circumstances of the parent to the extent known, including such factors as the parent's assets, residence, employment and earnings history, job skills, educational attainment, literacy, age, health, criminal record and other employment barriers, and record of seeking work, as well as the local job market, the availability of employers willing to hire the parent, prevailing earnings level in the local community, and other relevant

		<p><u>background factors in the case. If a parent is incarcerated, the court shall not assume an ability for earning capacity based upon pre-incarceration wages or other employment related income, but income may be imputed based upon the actual income and assets available to such incarcerated parent.</u></p> <p>"(D) Willful or voluntary unemployment or underemployment. In determining whether a parent is willfully or voluntarily unemployed or underemployed, the court or the jury shall ascertain the reasons for the parent's occupational choices and assess the reasonableness of these choices in light of the parent's responsibility to support his or her child and whether such choices benefit the child. A determination of willful or voluntary unemployment or underemployment shall not be limited to occupational choices motivated only by an intent to avoid or reduce the payment of child support but can be based on any intentional choice or act that affects a parent's income. <u>A determination of willful or voluntary unemployment or underemployment shall not be made when an individual's incarceration prevents employment.</u> In determining willful or voluntary unemployment or underemployment, the court may examine whether there is a substantial likelihood that the parent could, with reasonable effort, apply his or her education, skills, or training to produce income. Specific factors for the court to consider when determining willful or voluntary unemployment or underemployment include, but are not limited to:"</p>
Mass.	<ul style="list-style-type: none"> <li>• Deviation factor</li> </ul>	<p>Circumstances which may support deviation, above or below the Child Support Guidelines include, but are not limited to, the following: Payor is incarcerated, is likely to remain incarcerated for an additional 3 years and has insufficient financial resources to pay support;</p>
N. Dakota	<ul style="list-style-type: none"> <li>• Detailed provision</li> </ul>	<p>75-02-04.1-07. Imputing income based on earning capacity. 1. For purposes of this section: a. "Earnings" includes in-kind income and amounts received in lieu of actual earnings, such as social security benefits, workers' compensation wage replacement benefits, unemployment insurance benefits, veterans' benefits, and earned income tax credits; and b. An obligor is "underemployed" if the obligor's gross income from earnings is significantly less than this state's statewide average earnings for persons with similar work history and occupational qualifications. 2. An obligor is presumed to be underemployed if the obligor's gross income from earnings is less than the greater of: a. Six-tenths of this state's statewide average earnings for persons with similar work history and occupational qualifications; or b. A monthly amount equal to one hundred sixty-seven times the federal hourly minimum wage. 3. Except as provided in subsections 4, 5, 6, and 7, gross income based on earning capacity equal to the greatest of subdivisions a through c, less actual gross earnings, must be imputed to an obligor who is unemployed or underemployed. a. A monthly amount equal to one hundred sixty-seven times the hourly federal minimum wage. b. An amount equal to six-tenths of this state's statewide average earnings for persons with similar work history and occupational qualifications. c. An amount equal to ninety percent of the obligor's greatest average gross monthly earnings, in any twelve consecutive months included in the current calendar year and the two previous calendar years before commencement of the proceeding before the court, for which reliable evidence is provided. 4. Monthly gross income based on earning capacity may not be imputed under subsection 3 if: a. The reasonable cost of child care equals or exceeds seventy percent of the income which would otherwise be imputed where the care is for the obligor's child: (1) For whom the obligor has primary residential responsibility; (2) Who is under the age of thirteen; and (3) For whom there is no other adult caretaker in the obligor's home available to meet the child's needs during absence due to employment. b. Current medical records confirm the obligor suffers from a disability sufficient in severity to reasonably preclude the obligor from gainful employment that produces average monthly gross earnings equal to at least one hundred sixty-seven times the hourly federal minimum wage.</p> <p>c. The unusual emotional or physical needs of a minor child of the obligor require the obligor's presence in the home for a proportion of the time so great as to preclude the obligor from gainful employment that produces average monthly gross earnings equal to one hundred sixty-seven times the hourly federal minimum wage. d. The obligor has</p>

		<p>average monthly gross earnings equal to or greater than one hundred sixty-seven times the hourly federal minimum wage and is not underemployed. e. The obligor is under eighteen years of age or is under nineteen years of age and enrolled in and attending high school. f. The obligor is receiving: (1) Supplemental security income payments; (2) Social security disability payments; (3) Workers' compensation wage replacement benefits; (4) Total and permanent disability benefits paid by the railroad retirement board; (5) Pension benefits, as defined in subsection 9, paid by the veterans benefits administration; or (6) Disability compensation paid by the veterans benefits administration based on an overall disability rating of one hundred percent. <b>g. It has been less than one hundred eighty days since the obligor was released from incarceration under a sentence of at least one hundred eighty days. h. The obligor is incarcerated under a sentence of one hundred eighty days or longer, excluding credit for time served before sentencing.</b> 5. If an unemployed or underemployed obligor shows that employment opportunities, which would provide earnings at least equal to the lesser of the amounts determined under subdivision b or c of subsection 3, are unavailable within one hundred miles [160.93 kilometers] of the obligor's actual place of residence, income must be imputed based on earning capacity equal to the amount determined under subdivision a of subsection 3, less actual gross earnings. 6. If the obligor fails, upon reasonable request made in any proceeding to establish or review a child support obligation, to furnish reliable information concerning the obligor's gross income from earnings, and if that information cannot be reasonably obtained from sources other than the obligor, income must be imputed based on the greatest of: a. <b>A monthly amount equal to one hundred sixty-seven times the hourly federal minimum wage. b. An amount equal to one hundred percent of this state's statewide average earnings for persons with similar work history and occupational qualifications. c. An amount equal to one hundred percent of the obligor's greatest average gross monthly earnings, in any twelve consecutive months included in the current calendar year and the two previous calendar years before commencement of the proceeding before the court, for which reliable evidence is provided.</b> 7. Notwithstanding subsections 4, 5, and 6, if an obligor makes a voluntary change in employment resulting in reduction of income, monthly gross income equal to one hundred 10 percent of the obligor's greatest average monthly earnings, in any twelve consecutive months included in the current calendar year and the two previous calendar years before commencement of the proceeding before the court, for which reliable evidence is provided, less actual monthly gross earnings, may be imputed without a showing that the obligor is unemployed or underemployed. For purposes of this subsection, a voluntary change in employment is a change made for the purpose of reducing the obligor's child support obligation and may include becoming unemployed, taking into <b>consideration the obligor's standard of living, work history, education, literacy, health, age, criminal record, barriers to employment, record of seeking employment, stated reason for change in employment, likely employment status if the family before the court were intact, and any other relevant factors.</b> The burden of proof is on the obligor to show that the change in employment was not made for the purpose of reducing the obligor's child support obligation. 8. Imputed income based on earning capacity is an example of gross income and is subject to the deductions from gross income set forth in subsection 6 of section 75-02-04.1-01. 9. For purposes of paragraph 5 of subdivision f of subsection 4, "pension benefits" means only needs-based payments made by the veterans benefits administration to war-time veterans whose income is below a yearly limit set by Congress and who are age sixty-five or older or have a total and permanent disability.</p>
Oregon	<ul style="list-style-type: none"> <li>Presumes incarcerated obligor with less than \$200/mo income has no ability to pay</li> </ul>	<p>137-055-3300 Incarcerated Obligors: (4) The incarcerated obligor's income and assets are presumed available to the obligor, unless such income or assets are specifically restricted, assigned, or otherwise inaccessible pursuant to state or federal laws or rules regarding the income and assets of incarcerated obligors. (5) If the incarcerated obligor has gross income less than \$200 per month, the administrator shall presume that the obligor has zero ability to pay support. (6) If the provisions of section (5) of this rule apply, the administrator will not initiate an action to establish a support obligation if the obligor is an incarcerated obligor, as defined in subsection (1)(b) of this rule, until</p>

		61 days after the obligor’s release from incarceration. (7) Upon receipt of proof that an obligor is an “incarcerated obligor” as defined in subsection (1)(b) of this rule, the Administrator will initiate a modification of the support obligation.
<b>Penn.</b>	<ul style="list-style-type: none"> <li>• Support is not to be ordered to an obligor with no income</li> </ul>	Explanatory Comment—2006. New subdivision (f) addresses an increasing multiplicity of circumstances in which the continued existence of a court-ordered obligation of support is inconsistent with rules or law. An obligor with no known assets whose sole source of income is Supplemental Security Income or cash assistance cannot be ordered to pay support under Rule 1910.16-2. Likewise, an obligor with no verifiable income or assets whose institutionalization, incarceration or long-term disability precludes the payment of support renders the support order unenforceable and uncollectible, diminishing the perception of the court as a source of redress and relief.
<b>Vermont</b>	<ul style="list-style-type: none"> <li>• Agency can initiate modification even if non-public assistance case</li> </ul>	(2) The Office of Child Support may independently file a motion to modify child support or change payee if providing services under Title IV-D of the Social Security Act, if a party is or will be incarcerated for more than 90 days, if the family has reunited or is living together, if the child is no longer living with the payee, or if a party receives means-tested benefits.

## EXHIBIT 7: EXCERPTS FROM OHIO GUIDELINES

Sec. 3119.021. (A) The following director of the department of job and family services shall create, by rule adopted in accordance with Chapter 119. of the Revised Code, a basic child support schedule based on the parents' combined annual income and a self-sufficiency reserve that shall be used by all courts and child support enforcement agencies when calculating the amount of child support to be paid pursuant to a child support order, unless the combined gross annual income of the parents is less than sixty-six hundred dollars the minimum guidelines income listed on the schedule or more than one hundred fifty thousand dollars:

(2) When updating the self-sufficiency reserve incorporated into the basic child support schedule, the department shall set the self-sufficiency reserve based on one hundred sixteen per cent of the federal poverty level for a single person as reported by the United States department of health and human services in the most recent calendar year. S ec. 3119.022. The director of job and family services shall adopt rules pursuant to Chapter 119. of the Revised Code governing the creation of child support guidelines worksheets and instructions that incorporate the requirements of Chapter 3119. of the Revised Code for the calculation of child support and cash medical support obligations. In addition, the department shall:

(A) Adopt standard worksheet forms that shall be used in all courts and child support enforcement agencies when calculating child support and cash medical support obligations; and

(B) Adopt a standard instruction manual to provide guidance and assistance to persons calculating support obligations. The guidelines worksheet and instruction manual may be revised as needed, but shall be revised at least once every five years.

## SIDE-BY-SIDE COMPARISONS

When area is no longer shaded, the proposed schedules yield the same amount because they all reflect current economic data on the cost of raising children.
