Intensive Case Management, Recovery and Employment (ICARE)

The I-CARE (Intensive Case Management, Recovery and Employment) program began in 2013 as a pilot program in Albuquerque. The I-CARE program now provides services in Albuquerque, Espanola, Las Cruces and Roswell. It is designed to address substance use barriers to employment for TANF participants. TANF participants identified as having substance use issues that prevent them from obtaining and retaining employment are referred to the I-CARE program. The I-CARE program also addresses other addictions that contribute to or are in combination of substance use. This program is designed around 12 weeks of Intensive Job Readiness and/or Life Skills Group sessions, 1:1 Intensive Counseling, and 1:1 Career Development sessions, in a supportive and non-judgmental environment. ICARE is a voluntary program where participants engage in daily activities to meet their hours of work participation. I-CARE includes motivational interviewing to motivate change and decrease substance use; relapse prevention to build skills; family management to improve family functioning; job readiness classes to enhance employment skills and increase retention; living in recovery life skills; and job development to secure employment. A program evaluation component will be used to determine the effectiveness of this program in addressing substance use disorders among TANF participants.
