[8.325.11.9 NMAC - N, 9-1-12]

**8.325.11.10 ELIGIBLE PROVIDERS:**

A. Health care to New Mexico MAD eligible recipients is furnished by a variety of providers and provider groups. The reimbursement for these services is administered by MAD. Upon approval of a New Mexico MAD provider participation agreement or a MAD EHR incentive payment agreement by MAD or its designee, licensed practitioners, facilities and other providers of services that meet applicable requirements are eligible to be reimbursed for furnishing covered services to eligible recipients. A provider must be approved before submitting a claim for payment to the MAD claims processing contractors. MAD makes available on the HSD/MAD website, on other program-specific websites, or in hard copy format, information necessary to participate in health care programs administered by HSD or its authorized agents, including program rules, billing instructions, utilization review instructions, and other pertinent materials. When approved, a provider receives instruction on how to access these documents. It is the provider's responsibility to access these instructions, to understand the information provided and to comply with the requirements. The provider must contact HSD or its authorized agents to obtain answers to questions related to the material or not covered by the material. To be eligible for reimbursement, a provider must adhere to the provisions of the MAD provider participation agreement and all applicable statutes, regulations, and executive orders. MAD or its selected claims processing contractor issues payments to a provider using electronic funds transfer (EFT) only.

**MEDICATION ASSISTED TREATMENT FOR OPIOID ADDICTION**

B. Opioid treatment centers are public or private facilities operating a federally certified program to dispense methadone, or other narcotic replacement or narcotic agonist drug items, as part of a detoxification treatment or maintenance treatments as defined in 42 CFR part 8, *Certification of Opioid Treatment Programs*.

C. Services must be provided within the scope of the practice and licensure for each provider and must be in compliance with the statutes, rules and regulations of the applicable practice and with the MAD program policy manual.

[8.325.11.10 NMAC - N, 9-1-12]

**8.325.11.11 PROVIDER RESPONSIBILITIES:**

A. A provider who furnishes services to a medicaid or other health care programs eligible recipient must comply with all federal and state laws, regulations, and executive orders relevant to the provision of services as specified in the MAD provider participation agreement. A provider also must conform to MAD program rules and instructions as specified in the provider rules manual and its appendices, and program directions and billing instructions, as updated. A provider is also responsible for following coding manual guidelines and CMS correct coding initiatives, including not improperly unbundling or upcoding services.

B. A provider must verify that an individual is eligible for a specific health care program administered by the HSD and its authorized agents, and must verify the eligible recipient's enrollment status at the time services are furnished. A provider must determine if an eligible recipient has other health insurance. A provider must maintain records that are sufficient to fully disclose the extent and nature of the services provided to an eligible recipient.

C. The provider must maintain documentation supporting the medical necessity of MAT services in the eligible recipient's medical record per the requirements in 42 CFR Part 8, *Certification of Opioid Treatment Programs*.

[8.325.11.11 NMAC - N, 9-1-12]

**8.325.11.12 ELIGIBLE RECIPIENTS:**

A. The provider must ensure through its internal policies and procedures that an eligible recipient is treated for opioid dependency treatment only after the provider's physician determines and documents that:

(1) the eligible recipient meets the definition of opioid dependence using generally accepted medical criteria such as those contained in the diagnostic and statistical manual for mental disorders (DSM-IV-TR or subsequent editions);

(2) the eligible recipient has received an initial medical examination as required by 7.32.8.19 NMAC;

(3) if the eligible recipient is requesting maintenance treatment, the eligible recipient must have been addicted for at least 12 months prior to starting MAT services, unless the eligible recipient receives a waiver of this requirement from the provider's physician because the eligible recipient:

(a) was released from a penal institution within the last six months;

(b) is pregnant, as confirmed by the program physician;

(c) was treated for opioid dependence within the last 24 months; and

(d) meets any other requirements specified in 7.32.8 NMAC regarding waivers, consent, and waiting periods.

B. The provider must ensure that an eligible recipient requesting long-term or short-term opioid withdrawal treatment who has had two or more unsuccessful opioid treatment withdrawal treatment episodes within a 12-month period be assessed by the provider's medical director to determine if other forms of treatment may be more appropriate.

[8.325.11.12 NMAC - N, 9-1-12]

**8.325.11.13 COVERED SERVICES:** MAT services use a drug or biological that is recognized in the treatment of substance use disorder and provided as a component of a comprehensive treatment program. MAT is also a benefit as a conjunctive treatment regimen for eligible recipients who are addicted to substances that can be abused and who meet the DSM-IV-TR criteria for a substance use disorder.

[8.325.11.13 NMAC - N, 9-1-12]

**8.325.11.14 NON-COVERED SERVICES:** MAT services are subject to the limitations and coverage restrictions that exist for other MAD services. See 8.301.3 NMAC, *General Noncovered Services*.

[8.325.11.14 NMAC - N, 9-1-12]

## MEDICATION ASSISTED TREATMENT FOR OPIOID ADDICTION

**8.325.11.15 PRIOR AUTHORIZATION:** All MAD services are subject to utilization review for medical necessity and program compliance. Reviews can be performed before services are furnished, after services are furnished and before payment is made, or after payment is made. See 8.302.5 NMAC, *Prior Approval and Utilization Review*. The provider must contact HSD or its authorized agents to request utilization review instructions. It is the provider's responsibility to access these instructions or ask for paper copies to be provided, to understand the information provided, to comply with the requirements, and to obtain answers to questions not covered by these materials. When services are billed to and paid by a coordinated services contractor authorized by HSD, the provider must follow that contractor's instructions for authorization of services.

A. **Prior authorization:** Certain procedures or services may require prior authorization from MAD or its designee. The methadone or other narcotic replacement or narcotic agonist drug items administration and dispensing do not require prior authorization. Services for which prior authorization was obtained remain subject to utilization review at any point in the payment process.

B. **Eligibility determination:** The prior authorization of a service does not guarantee that an individual is eligible for medicaid or other health care programs. A provider must verify that an individual is eligible for a specific program at the time the service is furnished and must determine if the eligible recipient has other health insurance.

C. **Reconsideration:** A provider who disagrees with a prior authorization denial or another review decision may request a reconsideration of the decision. See 8.350.2 NMAC *Reconsideration of Utilization Review Decisions*.

[8.325.11.15 NMAC - N, 9-1-12]

**8.325.11.16 REIMBURSEMENT:**

A. A MAT provider, except an IHS or an 638 facility, must submit claims for reimbursement on the CMS 1500 claim form or its successor. See 8.302.2 NMAC, *Billing for Medicaid Services*. Once enrolled, a provider receives directions on how to access instructions on documentation, billing, and claims processing and laboratory or testing performed by the facility and specimen collection. Reimbursement to a provider for covered services is made at the lesser of the following:

- (1) the provider's billed charge; or
- (2) the MAD fee schedule for the specific service or procedure.

B. The provider's billed charge must be their usual and customary charge for services.

C. "Usual and customary charge" for administration and dispensing refers to the amount the provider charges the public at a daily rate rather than the provider's weekly or monthly rate. The coverage of services provided to an MAD eligible recipient can be greater than the services required under 42 CFR Part 8, *Certification of Opioid Treatment Programs* as MAD recognizes it is beneficial to the eligible recipient to receive necessary comprehensive medical and behavioral health services when they can be rendered by the MAT provider at the same time as MAT services.

(1) The reimbursement rate for administration and dispensing includes the cost of methadone, administering and dispensing methadone or other narcotic replacement or agonist drug items, and substance abuse and HIV counseling required by 42 CFR Part 8.12 (f) performed and other services within the center unless otherwise described as separately reimbursed.

(2) Additional reimbursement ~~[will be]~~ is made for ~~[the specific drug item if]~~ separately reimbursed services payable to the MAT provider ~~[are]~~:

(a) if a narcotic replacement or agonist drug item other than methadone is administered or dispensed;

(b) outpatient therapy (other than the substance abuse and HIV counseling required by 42 CFR Part 8.12 (f)) is reimbursable when rendered by a MAD approved independently licensed provider that meets 8.310.8 NMAC *Behavioral Health Professional Services*, requirements;

(c) an eligible recipient's initial medical examination when rendered by a MAD approved medical provider that meets 8.310.2 NMAC *Medical Services Providers*, requirements;

(d) laboratory services provided by a certified laboratory facility when billed by the offsite laboratory;

(e) full medical examination, prenatal care and gender specific services for MAD pregnant eligible recipients, if she is referred to a different provider, payment is made to the provider of the service;

(f) medically necessary services provided beyond those required by CFR 42 CFR Part 8.12 (f), as necessary to address the medical issues of the eligible recipient.

**MEDICATION ASSISTED TREATMENT FOR OPIOID ADDICTION**

(3) The quantity of service billed for administering or dispensing for each day cannot exceed the combined total of the drug items administered that day plus the number of drug items dispensed on that day.

(4) Claims billed for MAT must include the eligible recipient's substance use disorder diagnosis.
