

1. What is the General Assistance (GA) program?

The General Assistance Program provides limited state-funded cash assistance to adults (without dependent children) who are determined disabled and who are not eligible for assistance under a federally matched cash assistance program, such as Supplemental Security Income (SSI).

General Assistance also provides limited state-funded cash assistance to children residing in the homes of unrelated adult caretakers who are not eligible for assistance under a federally matched cash assistance program, such as TANF.

2. Funding

This program is state funded. HSD is reimbursed through the Interim Authorization Reimbursement (IAR) process with federal funds for GA recipients who are approved for retroactive SSI benefits.
