New Mexico Administrative Code (NMAC) 8.150.6209 Crisis Intervention Standards: Households who are over the income standards but meet the crisis intervention requirement may be eligible for a crisis LIHEAP benefit.

NMAC 8.150.520.18 If a household is over the income standards, HSD staff should explore the household's financial circumstance and take into account any financial crisis in the household that may have resulted in the household's inability to meet its utility or fuel expense in the past 30 days.

In these cases, the household's net income, rather than gross income, may be considered to determine income eligibility.

August 1987, revised 05/92,02/95,03/96,12/98,11/01 OMB Clearance No.: 0970-0075 Expiration Date: 12/31/2023

## LOW INCOME HOME ENERGY ASSISTANCE PROGRAM(LIHEAP) MODEL PLAN SF - 424 - MANDATORY

#### Section 4: CRISIS ASSISTANCE

Eligibility - 2604(c), 2605(c)(1)(A)

4.1 Designate the income eligibility threshold used for the crisis component

Add	Household size	Eligibility Guideline	Eligibility Threshold
1	All Household Sizes	HHS Poverty Guidelines	150.00%

#### 4.2 Provide your LIHEAP program's definition for determining a crisis.

Households that have received a written disconnect notice from their utility vendor or a statement of non-delivery or sale of fuel from their fuel vendor due to lack of payment or inability to pay, do not have sufficient funds to open an account, or do not meet the security deposit requirements, may be eligible to receive a crisis LIHEAP benefit. The Department is required to provide intervention to resolve an energy crisis that may exist. The processing of the applications for households in a crisis situation includes contacting the utility company or fuel provider within the specified time frames to resolve. Contact with the utility vendors will be provided no later than 48 hours after the household's application for LIHEAP benefits has been approved and no later than 18 hours for households with a life-threatening emergency. Crisis intervention is not available to households that have already received a LIHEAP benefit in the current federal fiscal year.

HSD/ISD began distribution of the CARES LIHEAP in December 2020. Stimulus benefits were distributed to households that already received a LIHEAP benefit during FFY20 and FFY21. These payments were sent on behalf of households that were in arrears or had a disconnect notice. Households that had arrears prior to the bill date of April 2020 were not eligible for the benefit. The total grant amount available from the CARES act for LIHEAP was \$5,385,500 and will be accessible until 09/30/ 2021 or until funds have been exhausted:

- -Customers did not need to fill out an application for this benefit;
- -Utility Vendors provided customer information based on arrearages through the Secure Transport Server.
- -These funds were be paid directly to the utility vendors on behalf of the customer;
- -Supplemental Benefit was a one-time lump sum amount of \$300.00;
- -Households receiving the COVID-19 benefit were tracked separately from those that have/will receive regular LIHEAP funding for FFY20-21.
- -If two vendors had the same customer in arrears or with a current disconnect, ASPEN issued the benefit to the vendor with the highest balance.

### 4.3 What constitutes a <u>life-threatening crisis?</u>

Per NMAC, 8.150.100.7, a life-threatening situation is a related emergency that poses a threat to the health or safety of one or more members of the household.

Eligible households with a life-threatening emergency will be provided assistance no later than 18 hours after the household's application for LIHEAP benefits. Assistance is defined as contact with the vendor to intercede on the household's behalf to resolve the crisis situation.

#### Crisis Requirement, 2604(c)

- 4.4 Within how many hours do you provide an intervention that will resolve the energy crisis for eligible households? 48Hours

LIHEAP staff conduct monthly case reviews of randomly selected households to ensure that all policies and procedures are being adhered to. They also conduct random LIHEAP case reviews to make sure all policies and procedures are met by field staff approving applications. If inaccuracies are found, the Regional Office Manager (ROM), County Director (CD), and the Family Assistance Analyst (FAA) responsible for reviewing and approving the case are contacted by staff so that necessary corrections can be completed.
10.6 Explain, or attach a copy of your local agency monitoring schedule and protocol.
Bill Assistance  Case desk reviews are conducted monthly by LIHEAP staff. These desk audits are randomly selected and are completed by staff to ensure that policy and procedure are being followed by field staff approving applications.
Payment reviews are part of the state's eligibility system, ASPEN. ASPEN generates error alerts on LIHEAP cases where a benefit cannot be issued. Staff will correct the error to ensure that the payment is released to the vendor/client. (Sample attached)
Weatherization LIHEAP Central Office monitors the weatherization contractor monthly by evaluating the invoices and unit report and yearly by conducting an on-sit Management Evaluation (ME) and a desk audit.
10.7. Describe how you select local agencies for monitoring reviews.
Site Visits:
Bill Assistance In lieu of site visits, HSD has implemented desk audits that are conducted by the LIHEAP Unit. A random sample of 400 cases is chosen monthly and LIHEAP staff review applications and required documentation to ensure that ISD field offices are complying with state and federal rules/regulations. Staff work directly with field office managers to ensure that cases improperly processed are corrected.
Weatherization The Management Evaluation (ME) consists of a site visit to MFA and their weatherization providers. We rotate between the providers yearly unless concerns arise to evaluate the provider the following year.
Desk Reviews:
Bill Assistance Desk Reviews are done monthly in the LIHEAP office. These are randomly chosen and then reviewed to ensure policy and procedure are followed.
Weatherization  Monthly desk audits are conducted on the invoices and unit reports in conjunction with a yearly on site audit of the contractor.

### Section 16: Performance Goals and Measures, 2605(b) - Required for States Only

16.1 Describe your progress toward meeting the data collection and reporting requirements of the four required LIHEAP performance measure s. Include timeframes and plans for meeting these requirements and what you believe will be accomplished in the coming federal fiscal year.

Performance Measures for this year will include timeliness of application processing and issuance of benefits to clients. Consumption data from 113 vendors to include natural gas, electric, and propane is submitted and reviewed quarterly. New Mexico currently obtains data from the state's Automated System Program and Eligibility Network (ASPEN). Upon review of data for the Performance Measure report, it was determined t hat the configuration of how the data was being collected for some of the data points was incorrect. Changes by means of an ADHOC report were implemented to ensure that New Mexico was providing the most accurate data possible.
