1. Title Page for the State's SUD Demonstration or SUD Components of Broader Demonstration

The state should complete this Title Page at the beginning of a demonstration and submit as the title page of all SUD Monitoring Reports. The content of this l table should stay consistent over time.

State	New Mexico
Demonstration name	Centennial Care 2.0 1115 Medicaid Demonstration
Approval date for demonstration	12/14/2018.
Approval period for SUD	01/01/2019-12/31/2023
Approval date for SUD, if different from above	05/21/2019
Implementation date of SUD, if different from above	01/01/2019

SUD (or if broader demonstration, then SUD related) demonstration goals and objectives New Mexico's 1115 waiver application supports and focuses its SUD evaluation on the six goals developed by CMS:

- 1. Increased rates of identification, initiation and engagement in treatment for OUD and other SUDs:
- 2. Increased adherence to and retention in treatment for OUD and other SUD;
- 3. Reductions in overdose deaths, particularly those due to opioids;
- 4. Reduced utilization of emergency departments and inpatient hospital settings for OUD and other SUD treatment where the utilization is preventable or medically inappropriate through improved access to other continuum of care services;
- 5. Fewer readmissions to the same or higher level of care where readmission is preventable or medically inappropriate for OUD and other SUD; and
- 6. Improved access to care for physical health conditions among beneficiaries with OUD or other SUDs.

This implementation plan will describe services currently in place, and put forward our plans to implement new services, i.e. our gaps in service options. It is based upon American Society of Addiction Medicine (ASAM) levels of care for the continuum of care, and is organized by CMS's SUD milestones:

- 1. Access to critical levels of care for OUD and other SUDs
- 2. Widespread use of evidence-based, SUD-specific patient placement criteria;
- 3. Use of nationally recognized, evidence-based, SUD program standards to set residential treatment provider qualifications;
- 4. Sufficient provider capacity at each level of care, including Medication Assisted Treatment (MAT);
- 5. Implementation of comprehensive treatment and prevention strategies to address opioid abuse and OUD; and
- 6. Improved care coordination and transitions between levels of care.

2. Executive Summary

The executive summary should be reported in the fillable box below. It is intended for summary-level information only. The recommended word count is 500 or less.

New Mexico has made significant advances in recent years in our services to both combat and treat OUD and SUD. We halted the increasing overdose trend from the highest rate among states to 13th. We must consider, however, that the upward trends of other states also impact this. However, New Mexico continues to be the top state in alcohol-related deaths and third in the nation for suicides. We still have much work to do.

New Mexico's continuum of SUD services and its implementation plan also includes:

- Treatment of co-occurring mental health conditions with a primary diagnosis of SUD;
- A focus on the integration of SUD screening in physical health provider locations;
- The introduction of behavioral health counselors in primary care agencies, and primary care practitioners in behavioral health agencies; and
- Interdisciplinary teaming with the Medicaid beneficiary and his/her natural supports to treat not only the person with the SUD, but also the family or natural support system.

Note on reporting changes: As part of the shift to using the newest instructions from CMS, New Mexico discovered that we have been reporting quarterly utilization with duplicated counts of clients, rather than the more correct unduplicated counts. This Q4 report includes **new unduplicated counts** for all 2020 quarters.

Prompt	State response	Measureme nt period first reported (MM/DD/Y YYY - MM/DD/Y YYY)	Related metric (if any)
⊠ The state reports the following metric trends, including all changes (+ or -) greater than 2 percent related to Milestone 1	The number of beneficiaries who used outpatient services for SUD during the measurement period (QTR 4 DY2 2020) decreased by 1% from the end of DY2 QTR3. Despite quarter over quarter shifts, utilization of this service has held essentially flat throughout 2020. This trend shows both the rising need for behavioral health services during the pandemic and the success of HSD's early change in policy to allow behavioral health providers to offer most behavioral health services using telehealth, telephonic and e-visit delivery systems to ensure safe access to health care. QTR 4 - A total of 17,280 beneficiaries used outpatient services for SUD during the measurement period. The average number of beneficiaries for the fourth quarter is 10,084 per month.	QTR-4 10/01/2020- 12/30/2020	Number of beneficiaries who used outpatient services for SUD (such as outpatient recovery or motivational enhancement therapies, step down care, and monitoring for stable patients) during the measurement period
	Q1 Q2 Q3 Q4 17,259 16,324 17,536 17,280 -5% 7% -1%		

Prompt	State response	Measureme nt period first reported (MM/DD/Y YYY - MM/DD/Y YYY)	Related metric (if any)
 ☑ The state reports the following metric trends, including all changes (+ or -) greater than 2 percent related to Milestone 1 ☐ The state has no metrics trends to report for this report. 	The number of unique beneficiaries who used intensive outpatient and/or partial hospitalization services for SUD during the measurement period (QTR 4 DY2 2020) saw minimal change between the third and fourth quarters of DY2. However, utilization in the fourth quarter represents a 5% increase since the beginning of the year. There were no active Partial Hospitalization Programs (PHP) in NM during the measurement period, so this metric applies only to Intensive Outpatient Program (IOP). The number of IOP programs in NM doubled during 2019, and while growth in utilization appears to have slowed during 2020 due to the pandemic, the year over year increase is driven by IOP providers who have worked particularly hard to ensure that patients can get care through phone and video which has increased compliance and participation. With the video ability, IOP is expanding to rural communities. QTR 4 - A total of 1,210 unique beneficiaries used intensive outpatient services for SUD during the measurement period. The average number of unique beneficiaries for the fourth quarter is 765 per month. Metric 9 DY2 (2020)	QTR-4 10/01/2020- 12/30/2020	Number of unique beneficiaries who used intensive outpatient and/or partial hospitalization services for SUD (such as specialized outpatient SUD therapy or other clinical services) during the measurement period

including all changes (+ or -) greater than 2 percent related to Milestone 1	The number of beneficiaries who used withdrawal management services during the measurement period (QTR 4 DY2 2020) dropped by 15% between the third and fourth quarters of DY2, but still increased by 22% from the beginning of the year. These are very small numbers and slight quarter to						10/01/2020- 12/30/2020	who use withdrawal management services (such as outpatient,

Prompt	State response	Measureme nt period first reported (MM/DD/Y YYY - MM/DD/Y YYY)	Related metric (if any)
☐ The state has no metrics trends to report for this repo	quarter shifts result in large percentage changes, but the overall rising trend is very positive. The provider network for withdrawal management services reports persistent difficulty retaining medical staff sufficient to maintain services, an unfortunately common challenge in NM. In response to the public health emergency, HSD has allowed behavioral health providers to offer most behavioral health services using telehealth, telephonic and e-visit delivery systems to ensure safe access to health care. Withdrawal management services are not all amenable to telehealth type delivery of care, and further, tracking withdrawal management services in New Mexico relies on providers to enter additional tracking codes that have no reimbursement attached. The increase in utilization despite these challenges is a measure of rising need for behavioral health services during the pandemic. QTR 4 - A total of 138 beneficiaries used withdrawal management services during the measurement period. The average number of beneficiaries for the fourth quarter was 46 per month. Metric 11 DY2 (2020)		inpatient, or residential) during the measurement period

8.2.2 Implementation Update				
Compared to the demonstration design and				
operational details, the state expects to make the following changes to:				
\Box i) How health IT is being used to slow down the				
rate of growth of individuals identified with SUD				
☐ ii) How health IT is being used to treat				
effectively individuals identified with SUD				
☐ iii) How health IT is being used to effectively				
monitor "recovery" supports and services for individuals identified with SUD				
\square iv) Other aspects of the state's plan to develop				
the health IT infrastructure/capabilities at the state, delivery system, health plan/MCO, and individual				
provider levels				
\square v) Other aspects of the state's health IT				
implementation milestones				
□ vi) The timeline for achieving health IT				
implementation milestones				
□ vii) Planned activities to increase use and				
functionality of the state's prescription drug monitoring program				
☐ The state has no implementation update to report for this reporting topic.				
☐ The state expects to make other program changes that may affect metrics related to Health IT				

Prompt	State response	Measureme nt period first reported (MM/DD/Y YYY - MM/DD/Y YYY)	Related metric (if any)
☑ The state has no implementation update to report for	this reporting tonic.		

Prompt	State response	Measureme nt period first reported (MM/DD/Y YYY - MM/DD/Y YYY)	Related metric (if any)
9.2 Other SUD-Related Metrics			
9.2.1 Metric Trends			

 \Box The state has no trends to report for this reporting topic.

☑ The state reports the following metric trends, including all changes (+ or -) greater than 2 percent related to other SUD-related metrics	The total number o measurement perio fourth quarters of I utilization was driv	d (QTR 4 I OY2, down	OY2 2020 from 13.9) declined 9 per 1,000	l 13% beto to 12.1 p	ween the third and	QTR-4 10/01/2020- 12/30/2020	Total number of ED visits for SUD per 1,000 beneficiaries in the measurement period.

			-8%	6%	-13%			

☑ The state reports the following metric trends,
including all changes (+ or -) greater than 2 percent
related to other SUD-related metrics

The total number of inpatient stays related to SUD per 1,000 beneficiaries in the measurement period (QTR 4 DY2 2020) **decreased 16%** between the third and fourth quarters of DY2, dropping from 7.5 per 1,000 to **5.5 per 1,000**. Overall, utilization decreased by 12% from the start of the year.

This trend of individuals accessing inpatient services partially mirrors metric 10 above; as part of Centennial Care 2.0, New Mexico expanded coverage for SUD in Institutes of Mental Disease (IMD) to provide a more robust continuum of care for people who need this highest level of care. During the pandemic the state has seen rising levels of urgent behavioral health needs. In this context, the fourth quarter drop is worrisome because despite rising need for care, the decline most likely reflects persistent concern and uncertainty among the state's population regarding any inpatient care, as well as temporary COVID-related limits on client numbers and/or closures of some agencies and facilities.

However, the trend for this metric also reflects the state's rising Medicaid enrollment, up over 70,000 during the course of 2020. Significant enrollment increases are a downward pressure on calculation of this metric.

Note: The denominator, or total beneficiaries, is the unduplicated number of beneficiaries enrolled each quarter. The numerator is the total unduplicated number of inpatient discharges related to a SUD stay during the measurement period.

QTR 4 - Total number of inpatient stays per 1,000 beneficiaries in the measurement period.

Denominator: **758,657** Numerator: **4,167** Stays/1,000: **5.5**

Prompt 10.2 Budget Neutrality	State response	Measureme nt period first reported (MM/DD/Y YYY - MM/DD/Y YYY)	Related metric (if any)
10.2.1 Current status and analysis			
⊠ If the SUD component is part of a broader demonstration, the state should provide an analysis of the SUD-related budget neutrality and an analysis of budget neutrality as a whole. Describe the current status of budget neutrality and an analysis of the budget neutrality to date.	The expenditures of substance use disorder (SUD) are included in the historical program data that was used to develop the overall budget neutrality. The quarterly waiver budget monitoring continues to show that all Medicaid eligibility groups (MEG) remain in compliance with the budget neutrality conditions. The substance use disorder/institution for mental diseases (SUD/IMD), a subset, is subject to a hypothetical test for budget neutrality monitoring. As described in the STCs, this includes comparing the actual capitation PMPMs for SUD/IMD members to the expenditure caps defined for each demonstration year (DY). The SUD/IMD budget neutrality monitoring continues to show that SUD/IMD remains in compliance with the budget neutrality requirement.	QTR 4 - 10/1/2020 - 12/31/2020	STC 100 -Hypothetical Test 3 for SUD/IMD
10.2.2 Implementation Update			
☐ The state expects to make other program changes that may affect budget neutrality			
☐ The state has no implementation update to report for	this reporting topic.		

Prompt	State response	Measureme nt period first reported (MM/DD/Y YYY - MM/DD/Y YYY)	Related metric (if any)
11.1 SUD-Related Demonstration Operations and Po	licy		
11.1.1 Considerations			
☐ States should highlight significant SUD (or if broader demonstration, then SUD-related) demonstration operations or policy considerations that could positively or negatively affect beneficiary enrollment, access to services, timely provision of services, budget neutrality, or any other provision that has potential for beneficiary impacts. Also note any activity that may accelerate or create delays or impediments in achieving the SUD demonstration's approved goals or objectives, if not already reported elsewhere in this document. See report template instructions for more detail.			
☐ The state has no related considerations to report for t	his reporting topic.		
11.1.2 Implementation Update			
Compared to the demonstration design and operational details, the state expects to make the following changes to: i) How the delivery system operates under the demonstration (e.g. through the managed care system or fee for service) ii) Delivery models affecting demonstration participants (e.g. Accountable Care Organizations, Patient Centered Medical Homes) iii) Partners involved in service delivery			

Prompt	State response	Measureme nt period first reported (MM/DD/Y YYY - MM/DD/Y YYY)	Related metric (if any)
☐ The state has no implementation update to report for	this reporting topic.		
☐ The state experienced challenges in partnering with entities contracted to help implement the demonstration (e.g., health plans, credentialing vendors, private sector providers) and/or noted any performance issues with contracted entities			
☑ The state has no implementation update to report for	this reporting topic.		
☐ The state is working on other initiatives related to SUD or OUD			
☑ The state has no implementation update to report for	this reporting topic.		
☐ The initiatives described above are related to the SUD or OUD demonstration (States should note similarities and differences from the SUD demonstration)			
☐ The state has no implementation update to report for	this reporting topic.		
12. SUD Demonstration Evaluation Update 12.1. Narrative Information			
☑ Provide updates on SUD evaluation work and timeline. The appropriate content will depend on when this report is due to CMS and the timing for the demonstration. See report template instructions for more details.	New Mexico's implementation plan has been approved by CMS. New Mexico is in the process of updating an Independent evaluator to complete the evaluation work requirements and is on track with the current timeline.	QTR 4 - 10/1/2020 - 12/31/2020	
☐ The state has no SUD demonstration evaluation update	ate to report for this reporting topic.		

Prompt	State response	Measureme nt period first reported (MM/DD/Y YYY - MM/DD/Y YYY)	Related metric (if any)
⊠ Provide status updates on deliverables related to	New Mexico's, implementation plan was approved by CMS and is on	01/01/0000	
the demonstration evaluation and indicate whether the expected timelines are being met and/or if there are	track on all evaluation deliverables timelines with no barriers in	01/01/2020	
any real or anticipated barriers in achieving the goals and timeframes agreed to in the STCs.	achieving the goals agreed in the STC.	12/31/2020	
☐ The state has no SUD demonstration evaluation upda	ate to report for this reporting topic.		
☐ List anticipated evaluation-related deliverables			
related to this demonstration and their due dates.			
☐ The state has no SUD demonstration evaluation update	ate to report for this reporting topic.		
13.1 Other Demonstration Reporting			
13.1.1 General Reporting Requirements			
☐ The state reports changes in its implementation of			
the demonstration that might necessitate a change to approved STCs, implementation plan, or monitoring			
protocol			
☐ The state has no updates on general requirements to	report for this reporting topic.		
☐ The state anticipates the need to make future changes to the STCs, implementation plan, or monitoring protocol, based on expected or upcoming implementation changes			
☐ The state has no updates on general requirements to	report for this reporting topic.		

Prompt	State response	Measureme nt period first reported (MM/DD/Y YYY - MM/DD/Y YYY)	Related metric (if any)	
Compared to the demonstration design and	State response	111)	(ir unj)	
operational details, the state expects to make the				
following changes to:				
☐ i) The schedule for completing and submitting				
monitoring reports				
☐ ii) The content or completeness of submitted				
reports and/or future reports				
☐ The state has no updates on general requirements to report for this reporting topic.				
☐ The state identified real or anticipated issues				
submitting timely post-approval demonstration				
deliverables, including a plan for remediation				
☐ The state has no updates on general requirements to report for this reporting topic.				
13.1.2 Post-Award Public Forum				
\square If applicable within the timing of the				
demonstration, provide a summary of the annual post-				
award public forum held pursuant to 42 CFR §				
431.420(c) indicating any resulting action items or issues. A summary of the post-award public forum				
must be included here for the period during which the				
forum was held and in the annual report.				
No post-award public forum was held during this reporting period and this is not an annual report, so the state has no post-award public forum update to report for this topic.				

Prompt 14.1 Notable State Achievements and/or Innovations	State response	Measureme nt period first reported (MM/DD/Y YYY - MM/DD/Y YYY)	Related metric (if any)
14.1 Narrative Information			
 ☑ Provide any relevant summary of achievements and/or innovations in demonstration enrollment, benefits, operations, and policies pursuant to the hypotheses of the SUD (or if broader demonstration, then SUD related) demonstration or that served to provide better care for individuals, better health for populations, and/or reduce per capita cost. Achievements should focus on significant impacts to beneficiary outcomes. Whenever possible, the summary should describe the achievement or innovation in quantifiable terms, e.g., number of impacted beneficiaries. ☐ The state has no notable achievements or innovation 	New Mexico's continuum of SUD services and its implementation plan also includes and will be monitored for continued achievements in: - Treatment of co-occurring mental health conditions with a primary diagnosis of SUD; - A focus on the integration of SUD screening in physical health provider locations; - The introduction of behavioral health counselors in primary care agencies, and primary care practitioners in behavioral health agencies; and - Interdisciplinary teaming with the Medicaid beneficiary and his/her natural supports to treat not only the person with the SUD, but also the family or natural support system.	QTR 4 - 10/1/2020 - 12/31/2020	

Note: Licensee and states must prominently display the following notice on any display of Measure rates:

The IET-AD, FUA-AD, FUM-AD, and AAP measures (metrics #15, 17 (1), and 17 (2), and 32) are Healthcare Effectiveness Data and Information Set ("HEDIS®") measures that are owned and copyrighted by the National Committee for Quality Assurance ("NCQA").
