Subject: Accredited Residential Treatment Centers

Importance: High

To Whom It May Concern:

In review of the new proposed fee schedule changes for Medicaid physical health, behavioral health, and applied behavior analysis effective January 1, 2019, I am requesting that facilities like the New Mexico Rehabilitation Center be added as a **203 service type provider** which is an actual Rehab Specialty Hospital. Proposed billing provider types I see for inclusion only include 205 Psychiatric Hospitals. Please see below for our facility provider type with taxonomy services as a rehab hospital. You will see Medical Detox, Residential Treatment, and Intensive Outpatient Program for substance use disorders is our specialty and service provisions offered in our state. Not including a 203 service type provider in the proposed Medicaid fee schedule in New Mexico may have negative implications for same type facilities in terms of operations, costs, and sustainment.

Thank you for your consideration.

Sincerely,

Jose L. Gurrola, MHA
Hospital Administrator
